Jeff Herman

The New Untouchables How America Sanctions Police Violence:

The New Untouchables John DeSantis, 1994 Explores the modern role of law enforcement the dangers of police brutality excessive use of force and the loss of constitutional freedoms **Beyond the Corporate University** Henry A. Giroux, Kostas Myrsiades, 2001 Prominent scholars in this book move boldly beyond critique to show how and why the critical functions of a democratically informed civic education not merely professional training must become the core of the university's mission They show why higher education must address what it means to relate knowledge to public life and social responsibility to the demands of critical citizenship Moreover they show why democratic forms of education and various elements of a critical pedagogy are vital not only to individual students but also to our economy and our democratic institutions and future leadership Visit our website for sample chapters *Police Brutality* Tamara L. Roleff, 1999 Policing today is more professional than it has ever been in U S history Yet we are reminded by well publicized beatings that brutality continues The question is why To understand how and why brutality occurs and how it might be prevented the author covers the following issues Chapters include Is Police Brutality a Serious Problem What Factors Contribute to Police Brutality How Does Police Brutality Affect Society How Can Police Brutality Be Reduced **Prologue**, 2017 **The Publishers Weekly**, 1994

The Politics of Denial Michael A. Milburn, Sheree D. Conrad, 1996 What is the driving force behind the rage of America's white males Emotion appears to be playing a growing role in politics as evidenced by vociferous opposition to welfare abortion and immigrants as well as by the rise of the radical Religious Right antienvironmentalism and the increasingly neoconservative slant of American public opinion The Politics of Denial presents a compelling explanation of these phenomena providing solid empirical evidence for the role of rigid harsh child rearing practices in the creation of punitive authoritarian adult political attitudes The authors social psychologists show how both the political and the public policy processes in the United States are distorted by the unresolved negative emotions such as fear anger and helplessness that remain from punitive parenting and by the politicians and conservative religious leaders who exploit those emotions Among the many public figures discussed are Patrick Buchanan Newt Gingrich Ronald Reagan and Billy Graham *Die Polizei als Organisation mit Gewaltlizenz* Martin Herrnkind, Sebastian Scheerer, 2003 Race, Crime and the Criminal Justice System

Joan Nordquist, 1997 Quarterly Journal of Ideology, 1994 A critique of the conventional wisdom **Afro-Americana Acquisitions** University of Illinois at Urbana-Champaign. Library. Afro-Americana Unit, 1995 **Criminal Justice** John R. Fuller, 2005 Building upon John Fuller's experience as a criminal justice practitioner scholar and teacher Criminal Justice Mainstream Crosscurrents encourages readers to think critically about the goals and processes of the criminal justice system and introduces them to important ethical dilemmas faced by criminal justice professionals This highly readable interesting contemporary book offers a comprehensive introduction to criminal justice supported with empirical work Its narrative style explains legal concepts in a clear and comprehensible manner without losing the reader in legal jargon Features a full

chapter on crime theory highlighting the various sociological psychological and biological theories of crime causation A unique chapter on emerging trends in criminal justice Chapter 16 considers contemporary topics like restorative justice and peacemaking criminology For criminal justice practitioners *International Seminar on Indicators and Diagnosis on Human Rights*, 2003 **Subject Guide to Books in Print**, 1991 *Raised to Rage* Michael A. Milburn, Sheree D. Conrad, 2016-08-12 An argument that voter anger and authoritarian political attitudes can be traced to the displacement of anger fear and helplessness Politicians routinely amplify and misdirect voters anger and resentment to win their support Opportunistic candidates encourage supporters to direct their anger toward Mexicans Muslims women protestors and others rather than the true socioeconomic causes of their discontent This book offers a compelling and novel explanation for political anger and the roots of authoritarian political attitudes In *Raised to Rage* Michael Milburn and Sheree Conrad connect vociferous opposition to immigrants welfare and abortion to the displacement of anger fear and helplessness These emotions may be triggered by real economic and social instability but Milburn and Conrad s research shows that the original source is in childhood brutalization or some other emotional trauma Their research also shows that frequent experiences of physical punishment in childhood increase support in adulthood for punitive public policies distorting the political process Originally published in 1996 reprinted now with a new introduction by the authors that updates the empirical evidence and connects it to the current political situation this book offers a timely consideration of a paradox in American politics why voters are convinced by campaign rhetoric exaggeration and scapegoating to vote against their own interests *Insider's Guide to Book Editors, Publishers and Literary Agents, 1995-1996* Jeff Herman, 1994-10-10 No other book gives aspiring authors the inside scoop on the names and interest areas of acquisition editors This vital information makes all the difference when submitting a book proposal Fully revised to keep on top of the rapidly changing publishing world this guide includes information on the book acquisition process literary agents submission ghost writing and more **Insider's Guide to Book Editors, Publishers, and Literary Agents, 1996-1997** Jeff Herman, 1995-10-25 No other book gives aspiring authors the inside scoop on the names and specialties of acquisitions editors This vital information makes all the difference when submitting a book proposal or manuscript by keeping writers of all genres on top of the rapidly changing world of publishing Who s moved where who s new to the scene who s gone for good it s all here in one big volume **Writer's Guide to Book Editors, Publishers, and Literary Agents, 1997-1998** Jeff Herman, 1996-09-25 This book contains the names and addresses of acquisitions editors at top publishing houses as well as their area of expertise and information on top literary agents First time and experienced authors will find the information they need to get their big break in the writing business instead of having their manuscripts end up in the slush pile *Capital Crimes* George Winslow, 1999-05 Crime tops the headlines leads the evening news and is a focus of every election But what causes crime Is there a more rational way to address it than by law and order crusades In this fact filled sweeping treatment George Winslow takes on every aspect of the

topic from the streets to the suites Unlike conventional accounts Capital Crimes places the issue in the context of a larger political economy From the Burmese heroin trade to homicide from the capital flight that has generated crime in inner cities to corporate money laundering schemes Capital Crimes shows how economic forces and elite interests have shaped both the world of crime and society's response to it Based upon extensive research and interviews Capital Crimes presents a comprehensive alternative to a lock em up approach that has produced a gargantuan prison industrial complex without coming to terms with the root of crime

Seminario Internacional sobre Indicadores y Diagnóstico en Materia de Derechos Humanos, 2003 **Is Killing Wrong?** Mark Cooney, 2009-10-07 Thou shalt not kill is arguably the most basic moral and legal principle in any society Yet while some killers are pilloried and punished others are absolved and acquitted and still others are lauded and lionized Why The traditional answer is that how killers are treated depends on the nature of their killing whether it was aggressive or defensive intentional or accidental But those factors cannot explain the enormous variation in legal officials and citizens responses to real life homicides Cooney argues that a radically new style of thought pure sociology can Conceived by the sociologist Donald Black pure sociology makes no reference to psychology to any single person's intent or even to individuals as such Instead pure sociology explains behavior in terms of its social geometry its location and direction in a multidimensional social space Is Killing Wrong provides the most comprehensive assessment of pure sociology yet attempted Drawing on data from well over one hundred societies including the modern day United States it represents the most thorough account yet of case level social control or the response to conduct defined as wrong In doing so it demonstrates that the law and morality of homicide are neither universal nor relative but geometrical as predicted by Black's theory
