Hardy Deconstructing Hardy Nilüfer Özgür, 2017-10-30. Hardy Deconstructing Hardy aims to add a new dimension of research which has been partly overlooked: a Derridean Deconstructive reading of Hardy's poetry. Analyzing thirty-four popular and less popular poems by Hardy, this volume challenges current references to Derridean Deconstructionism. While Hardy is not conventionally considered a Modernist poet, he shares with Modernists an element that can be referred to as the linguistic crisis by which they try to get over the sense of anxiety against the backdrop of a chaotic world and problematized language. The forerunner of Deconstructionism, Derrida, exposes a long-established history of logocentric thinking which has continually been moving between binary oppositions and Platonic dualities. Derrida simply puts forward the idea that there is no logos, no origin and no centre of truth. The centre is always somewhere else; he identifies this as a free play of signifiers. Consequently, the anxiety of the poet with modern sensibility to find a point of reference inevitably results in a crisis of representation or in a problematic relation between language and truth, the signifier and the signified. This crisis can be observed in Hardy's poetry too. For this purpose, this research focuses on four key concepts in Hardy's poetry that expose this problematic relationship between language and truth: his agnosticism, his concept of the self, his language and concept of structure, and his concept of time and temporality. These aspects are explored in the light of Derrida's Deconstructionism with reference to poems by Hardy which heralded the Modernist crisis of representation. This text will fulfill the function of reconciling theory with practice and become the manifestation of the importance of Poststructuralist criticism. **British**

Writers Jay Parini, 2002. This supplement reflects the newest scholarship on some of the most important figures featured in the original *British Writers* set. Twenty brand-new articles, all written by scholars, provide a fresh look at writers such as Chaucer, William Blake, Charles Dickens, James Joyce, W. B. Yeats, T. S. Eliot, Joseph Conrad and many others. *The Return of*

the Native Thomas Hardy, 2013-03-13. *The Return of the Native* was a radical departure for Thomas Hardy, ushering in his tragic literary vision of the world. Though set in a small space, Egdon Heath, in the fictional county of Wessex, and short time, the main action spans a year and a day, the novel addresses the broad social and intellectual upheavals of the Victorian age. Much of this turmoil is embodied in the character of Eustacia Vye, the novel's wilful female protagonist. A complex independent young woman, Eustacia is a sympathetic but ultimately tragic figure, the epitome of what the narrator calls the irrepressible New. The appendices to this Broadview edition place the novel in the context of Hardy's career and the scientific and social ideas of the time. Documents include contemporary reviews, related writings by Hardy, and materials on biology.

geology and the Woman Question Illustrations from the original serialization in Belgravia magazine and Hardy's performance text of the mummers play are also included
