**The New Woman and the Empire** Iveta Jusová, 2005      *New Woman and the Empire* Iveta Jusova, 2017 The New Woman and the Empire examines the intersections of gender race and colonial issues in the work of four culturally socially and nationally disparate New Women Sarah Grand George Egerton Elizabeth Robins and Amy Levy Iveta JusovA underscores essential differences in these women s negotiations of the Victorian colonial narrative and ascertains how these authors located the fin de siècle New Woman project in relation to the late Victorian colonial contest and the racially biased narratives of evolution Seeking to contribute to our understanding of the discursive strategies available to late Victorian women s efforts to create space for their feminist agenda in public discourse the book urges the reader to confront the fact that the success of these strategies was often predicated on marginalizing others It underscores the various ways in which the work of all of the examined authors supported British imperialist efforts Viewing much of Grand s and Robins works embracement of the official colonial narrative as a strategically motivated move The New Woman and the Empire focuses on the limitations such a narrative choice placed on these authors feminisms But the book also highlights various discursive strategies that Egerton and Levy and to a lesser extent Robins and Grand forged to express a more resistant position towards both colonial narrative and evolutionary discourse

**The Routledge Companion to Victorian Literature** Dennis Denisoff, Talia Schaffer, 2019-11-11

The Routledge Companion to Victorian Literature offers 45 chapters by leading international scholars working with the most dynamic and influential political, cultural and theoretical issues addressing Victorian literature today. Scholars and students will find this collection both useful and inspiring. Rigorously engaged with current scholarship that is both historically sensitive and theoretically informed, the Routledge Companion places the genres of the novel, poetry and drama and issues of gender, social class and race in conversation with subjects like ecology, colonialism, the Gothic, digital humanities, sexualities, disability, material culture and animal studies. This guide is aimed at scholars who want to know the most significant critical approaches in Victorian studies, often written by the very scholars who helped found those fields. It addresses major theoretical movements such as narrative theory, formalism, historicism and economic theory as well as Victorian models of subjects such as anthropology, cognitive science and religion. With its lists of key works, rich cross-referencing, extensive bibliographies and explications of scholarly trajectories, the book is a crucial resource for graduate students and advanced undergraduates while offering invaluable support to more seasoned scholars.

**The Oxford Handbook of the Victorian Novel** Lisa Rodensky, 2013-07-11

Much has been written about the Victorian novel and for good reason. The cultural power it exerted and to some extent still exerts is beyond question. The Oxford Handbook of the Victorian Novel contributes substantially to this thriving scholarly field by offering new approaches to familiar topics: the novel and science, the Victorian Bildungsroman as well as essays on topics often overlooked: the novel and classics, the novel and the OED, the novel and allusion. Manifesting the increasing interdisciplinarity of Victorian studies, its essays situate the novel within a complex network of relations among, for instance, readers, editors, reviewers and the novelists themselves or among different cultural pressures: the religious, the commercial, the legal. The handbook's essays also build on recent bibliographic work of remarkable scope and detail, responding to the growing attention to print culture. With a detailed introduction and 36 newly commissioned chapters by leading and emerging scholars, beginning with Peter Garside's examination of the early nineteenth-century novel and ending with two essays proposing the last Victorian novel, the handbook attends to the major themes in Victorian scholarship while at the same time creating new possibilities for further research. Balancing breadth and depth, the clearly written, nonjargon-laden essays provide readers with overviews as well as original scholarship, an approach which will serve advanced undergraduates, graduate students and established scholars. As the Victorians get further away from us, our versions of their culture and its novel inevitably change; this Handbook offers fresh explorations of the novel that teach us about this genre, its culture and by extension, our own.

**The Victorian Literature Handbook** Alexandra Warwick, Martin

Willis, 2008-05-22 The Victorian Literature Handbook is an accessible and comprehensive introduction to literature and culture in the Victorian period. It is a one-stop resource for literature students providing the essential information and guidance needed from introducing the historical and cultural context to key authors' texts and genres. Essays on changes in the canon, interdisciplinary research, and current and future directions in the field lead into more advanced topics and guided further reading, enabling further independent work. Written in clear language by leading academics, it is an indispensable starting point for anyone beginning their study of nineteenth-century literature.

**Citizen, Invert, Queer** Deborah Cohler, In late nineteenth-century England, mannish women were considered socially deviant but not homosexual. A half-century later, such masculinity equaled lesbianism in the public imagination. How did this shift occur? *Citizen Invert Queer* illustrates that the equation of female masculinity with female homosexuality is a relatively recent phenomenon, a result of changes in national and racial as well as sexual discourses in early twentieth-century public culture. Incorporating cultural histories of prewar women's suffrage debates, British sexology, women's work on the home front during World War I, and discussions of interwar literary representations of female homosexuality, Deborah Cohler maps the emergence of lesbian representations in relation to the decline of empire and the rise of eugenics in England. Cohler integrates discussions of the histories of male and female same-sex erotics in her readings of New Woman representations of male and female suffragists, wartime trials of pacifist novelists and seditious artists, and the interwar infamy of novels such as Radclyffe Hall's *The Well of Loneliness* and Virginia Woolf's *Orlando*. By examining the shifting intersections of nationalism and sexuality before, during, and after the Great War, this book illuminates profound transformations in our ideas about female homosexuality.

**Women's Authorship and Editorship in Victorian Culture**

Beth Palmer, 2011-02-17 This book considers the ways in which women writers used the powerful positions of author and editor to perform conventions of gender and genre in the Victorian period. It examines Mary Elizabeth Braddon, Ellen Wood, and Florence Marryat's magazines *Belgravia*, *Argosy*, and *London Society* respectively, alongside their sensation fiction to explore the mutually influential strategies of authorship and editorship. The relationship between sensation's success as a popular fiction genre and its serialisation in the periodical press was not just reciprocal but also self-conscious and performative. Publishing sensation in Victorian magazines offered women writers a set of discursive strategies that they could transfer onto other cultural discourses and performances. With these strategies, they could explore, enact, and re-work contemporary notions of female agency and autonomy as well as negotiate contemporary criticism. Combining authorship and editorship gave these middle-class women exceptional control over the shaping of fiction, its production, and its dissemination. By paying attention to the ways in which the sensation genre is rooted in the press network, this book offers a new, broader context for the phenomenal success of works like Mary Elizabeth Braddon's *Lady Audley's Secret* and Ellen Wood's *East*.

Lynne The book reaches back to the mid nineteenth century to explore the press conditions initiated by figures like Charles Dickens and Mrs Beeton that facilitated the later success of these sensation writers By looking forwards to the New Woman writers of the 1890s the book draws conclusions regarding the legacies of sensational author editorship in the Victorian press and beyond The New Woman in Print and Pictures Marianne Berger Woods,2009-05-13 Although feminist women have existed throughout history the term New Woman wasn't officially coined until 1894 when British novelists began to address the concept of the New Woman through discussions of female suffrage dress reform women's advances toward more legal rights birth control sexual freedom and women working outside the home This annotated bibliography includes original novels and articles printed from 1894 to 1944 the era most closely associated with the New Woman It includes all period novels with a New Woman protagonist and all period articles with the New Woman as primary subject along with several poems cartoons advertisements and artworks The bibliography also includes critical literature published worldwide from the 1960s to 2008 that examines the primary material included in the first section Because the New Woman was the target of many derisive articles poems and visual works these critical response pieces are included **Cultural Politics at the Fin de Siècle** Sally Ledger,Scott McCracken,1995-02-02 Cultural Politics at the Fin de Siècle scrutinises ways in which current conflicts of race class and gender have their origins in the cultural politics of the last fin de siècle whose influence stretched from the 1890s when economic depression signalled the end of Britain's role as the workshop of the world to 1914 when world war accelerated imperial decline This collaborative venture by new and established scholars includes discussion of the New Woman the reconstruction of masculinities and of feminism and empire The imperialist theme is pursued in essays on Yeats and Ireland Gilbert and Sullivan and the figure of the vampire The rise of socialism and psychoanalysis and the relationship between nascent modernism and late twentieth century postmodernism are also addressed in this radical account *The Woman Voter* Florence Woolston,Mary Ritter Beard,1915 **Victorian Settler Narratives** Tamara S Wagner,2015-10-06 This edited collection from a distinguished group of contributors explores a range of topics including literature as imperialist propaganda the representation of the colonies in British literature the emergence of literary culture in the colonies and the creation of new gender roles such as girl Crusoes in works of fiction **Teaching Medieval and Early Modern Cross-Cultural Encounters** K. Attar,L. Shuttles,2014-12-17 Drawing from theatre English studies and art history among others these essays discuss the challenges and rewards of teaching medieval and early modern texts in the 21st century university Topics range from the intersections of race religion gender and nation in cross cultural encounters to the use of popular culture as pedagogical tools **The Privilege of Crisis** Elahe Haschemi Yekani,2011-03-07 Despite the understanding of scholars that masculinity far from being a natural or stable concept is in reality a social construction the culture at large continues to privilege an idealized coherent male point of view The Privilege of Crisis draws on the work of authors such as H Rider Haggard Rudyard Kipling and Joseph Conrad as well as contemporary postcolonial writers such as J

M Coetzee Hanif Kureishi and Zadie Smith to show how recurrent references to a crisis of masculinity or the decline of masculinity serve largely to demonstrate and support positions of male privilege *Travelling Theory and Women's Movements in Turkey* Demet Gulcicek, 2023-12-15 Drawing on archival research *Travelling Theory and Women's Movements in Turkey* examines the imagination of Europe in the context of women's rights movements in a self-defined non-European setting It brings travelling theory poststructuralist feminist theories and orientalist studies together to provide an original theoretical framework for understanding the complex and often contradictory imaginations of Europe Such imaginations can be an object of desire fantasy hate and hostility in a non-European context This volume sheds light on the manner in which local power dynamics are reproduced negotiated and subverted during the travel of women's and feminist movements With a focus on the late Ottoman Empire the book questions how Other positions can be inhabited by the Self and unpacks sexual and normative dimensions of demanding women's rights in this context As such it will appeal to scholars of sociology cultural studies and gender studies with interests in feminist theory and notions of European and non-European categories **Sport and the American Occupation of the Philippines** Gerald R. Gems, 2016-08-05 This interdisciplinary case study invokes historical sociological and anthropological means to examine the ascendance of the United States to a world power in its first imperial venture In the aftermath of the Spanish American War of 1898 the U S acquired and occupied the Philippine Islands for nearly a half century in an attempt to install a democratic form of government a capitalist economy the Protestant religion and a particular value system Sport became a primary means to achieve such goals fostered initially by the military and then widely promoted in the schools and the YMCA Competitive programs including international athletic spectacles channeled Filipino nationalism against Asian rivals rather than the American occupiers as guerrilla warfare ensued in the islands The strategies learned in the Philippines now known as soft power remain prominent factors in current American foreign policy

Locke, 2017-06-01 By reconstructing the religious crusade to achieve prohibition in Texas *Making the Bible Belt* reveals how southern religious leaders overcame longstanding anticlerical traditions built a formidable social movement and in the course of outlawing liquor injected religion irreversibly into public life *Distant sisters* James Keating, 2020-09-29 In the 1890s Australian and New Zealand women became the first in the world to win the vote Buoyed by their victories they promised to lead a global struggle for the expansion of women's electoral rights Charting the common trajectory of the colonial suffrage campaigns *Distant Sisters* uncovers the personal and material networks that transformed feminist organising Considering intimate and institutional connections well-connected elites and ordinary women this book argues developments in Auckland Sydney and Adelaide long considered the peripheries of the feminist world cannot be separated from its glamorous metropolises Focusing on Antipodean women simultaneously insiders and outsiders in the emerging international women's movement and documenting the failures of their expansive vision alongside its successes this book reveals a more contingent history of international organising and challenges celebratory accounts of
