Women's Land Armies and their major role in shaping national and personal identities Sowing the Seeds of Victory Rose Hayden-Smith, 2014-05-08 Sometimes to move forward we must look back Gardening activity during American involvement in World War I 1917-1919 is vital to understanding current work in agriculture and food systems The origins of the American Victory Gardens of World War II lie in the Liberty Garden program during World War I This book examines the National War Garden Commission the United States School Garden Army and the Woman's Land Army which some women used to press for suffrage The urgency of wartime mobilization enabled proponents to promote food production as a vital national security issue The connection between the nation's food readiness and national security resonated within the U.S. struggling to unite urban and rural interests grappling with the challenges presented by millions of immigrants and considering the country's global role The same message that food production is vital to national security can resonate today These World War I programs resulted in a national gardening ethos that transformed the American food system **Gardening with Perennials Month by Month** Joseph Hudak, 1993-01-01 Lavishly illustrated with over 400 color photos taken by the author the book's format is unique Each chapter is a new month in the typical blooming window of perennials March through September beginning with an extensive list of plants divided by blossom color Using this feature of the book alone the gardener can plan ahead orchestrating sequences of color in favorite harmonies throughout the growing season Alphabetized entries on each of the blooming candidates make up the bulk of each chapter with detailed information on the current scientific and common names plus recent synonyms hardiness zones and distribution or origin for introduced hybrids blossom color and flowering span and a specific list of commercially available cultivars Cultural preferences regarding soil moisture and light along with information on insect pests and diseases are all supplied in one convenient place for superior growing results *The New York Times Book Review*, 1975 American Agriculturist, 1863 Anonymous in Their Own Names Susan Henry, 2021-04-30 Anonymous in Their Own Names recounts the lives of three women who while working as their husbands' uncredited professional partners had a profound and enduring impact on the media in the first half of the twentieth century With her husband Edward L. Bernays Doris E. Fleischman helped found and form the field of public relations Ruth Hale helped her husband Heywood Brown become one of the most popular and influential newspaper columnists of the 1920s and 1930s In 1925 Jane Grant and her husband Harold Ross started the New Yorker magazine Yet these women's achievements have been invisible to countless authors who have written about their husbands This invisibility is especially ironic given that all three were feminists who kept their birth names when they married as a sign of their equality with their husbands then battled the government and societal norms to retain their names Hale and Grant so believed in this cause that in 1921 they founded the Lucy Stone League to help other women keep their names and Grant and Fleischman revived the league in 1950 This was the same year Grant and her second husband William Harris founded White Flower Farm pioneering at that time and today one of the country's most celebrated commercial nurseries Despite strikingly

different personalities the three women were friends and lived in overlapping immensely stimulating New York City circles Susan Henry explores their pivotal roles in their husbands extraordinary success and much more including their problematic marriages and their strategies for overcoming barriers that thwarted many of their contemporaries *The Practical Flower Garden* Helena Rutherford Ely, 2016-08-26 The Practical Flower Garden is a classic hardening handbook written by Helena Rutherford Ely It contains a wealth of information and simple instructions on gardening covering everything from preparatory details and equipment to planting and propagating a range of common and uncommon garden plants Helena Rutherford Ely was an American author and gardener who co founded the Garden Club of America responsible for publishing three very influential books that moving away from Victorian style gardens in favour of more informal gardening Other notable works by this author include A Woman s Hardy Garden 1903 and Another Hardy Garden Book 1905 Many vintage books such as this are increasingly scarce and expensive It is with this in mind that we are republishing this volume now in an affordable modern high quality edition complete with a specially commissioned new introduction on the history of gardening
