The Night Has a Naked Soul Alan Kilpatrick, 1997 In a work that spans nearly two centuries anthropologist Alan Kilpatrick explores the occult world of the Western Cherokee expounding on previously collected documents and translating some forty new shamanistic texts that have never been disclosed to outside audiences For over a hundred and fifty years the Cherokee Indians have been recording their medico magical traditions in the native script of the Sequoyah syllabary These shamanistic texts known as *idi gawe sdi* deal with such esoteric matters as divining the future protecting oneself from enemies living and dead destroying the power of witches and purifying one's soul from all forms of supernatural harm As one of the few scholars able to translate the discourse Kilpatrick's work underlines the critical role of transformational language in the ritual performance

new life into historical documents Designs of the Night Sky Diane Glancy, 2002-12-01 In this innovative novel a librarian of Cherokee ancestry rekindles and reinvents her Native identity by discovering the rhythm and spark of traditionally told stories in the most unusual places in the modern world Ada Ronner a librarian at Northeastern State University in Tahlequah Oklahoma hears books speak and senses their restless flow as they circulate The same relentless energy and liberation of the story is also felt by Ada as she roller skates at the Dust Bowl a local skating rink floating far ahead of her husband Ether a physics professor Hearing the old Cherokee voices when she skates and works in the Manuscript and Rare Book room in the library Ada grows increasingly aware of the continuing power of Cherokee tradition today Coming from a culture based in oral tradition Ada discovers the potentially liberating role of the written word and she finds her own empowerment as its promulgator and reinventor in the twenty first century Designs of the Night Sky moves between the turbulent history of a tribe and the experiences of the survivors of that history still caught in turmoil Rolling from past to present and present to past Diane Glancy s story provokes and illumines while it invites us to reconsider the form and effect of Native American stories in today s world **Eastern Band Cherokee Women** Virginia Moore Carney, 2005 For the first time the voices of Eastern Band Cherokee women receive their proper due A watershed event this book unearths three centuries of previously unknown and largely ignored speeches letters and other writings from Eastern Band Cherokee women Like other Native American tribes the Cherokees endured numerous hardships at the hands of the United States government As their heritage came under assault so did their desire to keep their traditions The Eastern Band Cherokees were no exception and at the forefront of their struggle were their women Eastern Band Cherokee Women analyzes how the women of the Eastern Band served as honored members of the tribe occupying both positions of leadership and respect Carney shows how in the early 1800s women leaders such as Beloved Nancy Ward battled to retain her people s heritage and sovereignty Other women such as Catharine Brown a mission school student discovered the power of the written word and thereby made themselves heard just as eloquently Carney traces the voices of these women through the twentieth century describing how Cherokees such as Marie Junaluska and Joyce Dugan have preserved a culture threatened by an increasingly homogenous society This book is a fitting testament to their contributions Eastern Band Cherokee Women stands out by demonstrating the overwhelming importance of women to the preservation of the Eastern Band From passionate speeches to articulately drafted personal letters Carney helps readers explore the many nuances of these timeless voices **Under the Rattlesnake** Lisa J. Lefler, 2009-05 For the Cherokee health is more than the absence of disease it includes a fully confident sense of a smooth life peaceful existence unhurried pace and easy flow of time The natural state of the world is to be neutral balanced with a similarly gently flowing pattern States of imbalance tension or agitation are indicative of physical mental emotional or spiritual illness and whether caused intentionally through omission or commission or by outside actions or influences the result affects and endangers the collective Cherokee Taking a true anthro *Witches, Westerners, and HIV*

Alexander Rödlach, 2016-09-17 A witch's curse an imperialist conspiracy a racist plot HIV AIDS is a catastrophic health crisis with complex cultural dimensions From small villages to the international system explanations of where it comes from who gets it and who dies are tied to political agendas religious beliefs and the psychology of devastating grief Frequently these explanations conflict with science and clash with prevention and treatment programs In *Witches Westerners and HIV* Alexander Rödlach draws on a decade of research and work in Zimbabwe to compare beliefs about witchcraft and conspiracy theories surrounding HIV AIDS in Africa He shows how both types of beliefs are part of a process of blaming others for AIDS a process that occurs around the globe but takes on local culturally specific forms He also demonstrates the impact of these beliefs on public health and advocacy programs arguing that cultural misunderstandings contribute to the failure of many well intentioned efforts This insightful book provides a cultural perspective essential for everyone interested in AIDS and cross cultural health issues

Southern Indians and Anthropologists Lisa J. Lefler, Frederic Wright Gleach, 2002

Ranging in setting from a children's summer school program to a museum of history and culture to a fatherhood project these eleven papers document some of the many ways in which anthropologists and Native Americans are striving to work together at higher levels of accountability reciprocity and mutual enrichment The Native American groups discussed in the volume include the Yuchi of Oklahoma the Eastern Band of Cherokee Indians in western North Carolina the Powhatans of Virginia the Chickasaw Nation of Oklahoma the Seminole Tribe of Florida and the Waccamaw Siouan community of coastal North Carolina The volume's contributors consider such issues as education community development funding and the preservation of languages sacred texts oral traditions and artifacts At the same time they offer personal insights into the pressures that can bear on working relationships between anthropologists and Native Americans Not only must all concerned find a balance between their official and informal individual and group selves but Native Americans especially often feel caught between history and the present One contributor for instance discusses the problems that arose from the discovery of Native American graves on land owned by the Cherokees on the site of a planned casino parking lot The anthropological work discussed here suggests strong potential for continuing research partnerships It also illustrates the potential benefits of such partnerships for anthropologists and for Native Americans

Roots of Our Renewal Clint Carroll, 2015-05-30

Honorable Mention Labriola Center American Indian National Book Award In *Roots of Our Renewal* Clint Carroll tells how Cherokee people have developed material spiritual and political ties with the lands they have inhabited since removal from their homelands in the southeastern United States Although the forced relocation of the late 1830s had devastating consequences for Cherokee society Carroll shows that the reconstituted Cherokee Nation west of the Mississippi eventually cultivated a special connection to the new land a connection that is reflected in its management of natural resources Until now scant attention has been paid to the interplay between tribal natural resource management programs and governance models Carroll is particularly interested in indigenous environmental governance along the continuum of resource based and

relationship based practices and relates how the Cherokee Nation while protecting tribal lands is also incorporating associations with the nonhuman world Carroll describes how the work of an elders advisory group has been instrumental to this goal since its formation in 2008 An enrolled citizen of the Cherokee Nation Carroll draws from his ethnographic observations of Cherokee government community partnerships during the past ten years He argues that indigenous appropriations of modern state forms can articulate alternative ways of interacting with and governing the environment

Zogry, 2010 This is a careful and innovative consideration of a remarkable and enduring Native American ritual Zogry reflects deeply critically and sensibly on an amazing array of issues of theoretical interest to the study of religion culture game ritual secrecy colonial contact and even the impact of tourism on culture An important and informative work SAM D GILL University of Colorado at Boulder Zogry presents a very well researched ethically grounded and theoretically informed study of Anetso the Cherokee ball game which will instruct students of Native American religions Cherokee traditions and history and the anthropology of sport A valuable book that is based on impressive archival and ethnographic work Michael d McNally Carleton College Anetso a centuries old Cherokee ball game still played today is a vigorous sometimes violent activity that rewards speed strength and agility At the same time it is the focus of several linked ritual activities Is it a sport Is it a religious ritual Could it possibly be both Why has it lasted so long surviving through centuries of upheaval and change Based on his work in the field and in the archives Michael J Zogry argues that members of the Eastern Band of Cherokee Nation continue to perform selected aspects of their cultural identity by engaging in anetso itself the hub of an extended ceremonial complex or cycle Historically this

complex has featured virtually every activity that Cherokee people and non Cherokee observers have identified as elemental to Cherokee religion or ritual. However interpreted as game within a broader framing of religion, it also simultaneously resists and problematizes such classifications. A precursor to lacrosse, it also appears in all manner of Cherokee cultural narratives and has figured prominently in the written accounts of non Cherokee observers for almost three hundred years. The anetso ceremonial complex incorporates a variety of activities that taken together complicate standard scholarly distinctions such as game versus ritual, public display versus private performance, and tradition versus innovation. Thus examination of this Cherokee ball game and the ceremonial complex that it anchors provides a striking opportunity for a rethinking of the understanding of ritual and performance as well as their relationship to cultural identity. Zogry draws on extensive cultural consultation with members of the Cherokee community in western North Carolina undertaken with the approval of the Eastern Band of Cherokee Nation Tribal Council, as well as thorough archival research to offer a sharp reappraisal of scholarly discourse on the Cherokee religious system with particular focus on the Eastern Band of Cherokee Nation.
