Learning from the Past Diane Ravitch, Maris A. Vinovskis, 1995-02 Many Americans view today s problems in education as an unprecedented crisis brought on by contemporary social ills In Learning from the Past a group of distinguished educational historians and scholars of public policy reminds us that many of our current difficulties as well as recent reform efforts have important historical antecedents What can we learn they ask from nineteenth century efforts to promote early childhood education or debates in the 1920s about universal secondary education or the curriculum reforms of the 1950s

Reflecting a variety of intellectual and disciplinary orientations the contributors to this volume examine major changes in educational development and reform and consider how such changes have been implemented in the past They address questions of governance equity and multiculturalism curriculum standards school choice and a variety of other issues Policy makers and other school reformers they conclude would do well to investigate the past in order to appreciate the implications of the present reform initiatives

The Zen Monastic Experience Robert E. Buswell, Jr., Robert E. Buswell, 1992 Robert Buswell a Buddhist scholar who spent five years as a Zen monk in Korea draws on personal experience in this insightful account of day to day Zen monastic practice Buswell s depiction of Zen reveals a religious tradition that differs radically from the stereotype prevalent in the West Westerners exposed to Zen through English language materials have been offered a picture of an iconoclastic religion that is bibliophobic institutionally subversive aesthetically sophisticated devoted to manual labor and intent solely on sudden enlightenment Its most revered teachers are depicted as torching their sacred religious icons bullying their students into enlightenment rejecting the value of all the scriptures of Buddhism and even denying the worth of Zen itself In discussing the activities of the postulants the meditation monks the teachers and administrators and the support monks of Song gwang sa a major Korean Buddhist monastery Buswell challenges much of this picture In the counterparadigm of Zen offered in the daily lives of the monks Zen s putative iconoclasts are replaced by resolute members of a community dedicated to a methodical regimen of spiritual training Zen s apparent bibliophobia pales to reveal contemplatives learned in classical Chinese and often having extensive experience in Buddhist seminaries And the brash challenge allegedly made to systematizations of religion even to Zen itself fades before

monks with strong faith in the arduous way of life they have undertaken The author s treatment lucidly relates contemporary Zen practice to the historical development of the tradition and to Korean history more generally and his intimate sympathetic portrayal of the life of modern Zen monks in Korea provides an innovative and provocative look at Zen from the inside
