The Night Tokyo Burned:

The Night Tokyo Burned Hoito Edoin, 1987-01-01 **Downfall** Richard B. Frank, 2001-05-01 In a riveting narrative that includes information from newly declassified documents acclaimed historian Richard B Frank gives a scrupulously detailed explanation of the critical months leading up to the dropping of the atomic bomb Frank explains how American leaders learned in the summer of 1945 that their alternate strategy to end the war by invasion had been shattered by the massive Japanese buildup on Kyushu and that intercepted diplomatic documents also revealed the dismal prospects of negotiation Here also for the first time is a comprehensive account of how Japan s leaders were willing to risk complete annihilation to preserve the nation s existing order Frank s comprehensive account demolishes long standing myths with the stark realities of this great historical controversy Mahayk and the Barber of Lyle Norman S. deLisle, 2008-02-20 Synopsis MAHAYK AND THE BARBER OF LYLE This literary novel is about a twelve year old Japanese violinist who has lost everything when 360 B 29 bombers have burned Tokyo in 1945 becomes a Gamigaze pilot During his mission US Task Force 78 shot him down in Korea Strait General Ma Halbin who survived Tragic Long March of the Red Army and fought the Japanese all his life until being fatally wounded and disabled by the Japanese attacks in Yenan saves this enemy boy The boy fights Korean War becomes a commander and exiles to America accused of plotting a coup d'etat **140 Days to Hiroshima** David Dean Barrett, 2020-04-07 A WWII history told from US and Japanese perspectives an impressively researched chronicle of the months leading up to the atomic bombing of Hiroshima Publishers Weekly During the closing months of World War II two military giants locked in a death embrace of cultural differences and diplomatic intransigence While developing history s deadliest weapon and weighing an invasion that would have dwarfed D Day the US called for the unconditional surrender of Japan The Japanese Empire responded with a last ditch plan termed Ketsu Go which called for the suicidal resistance of every able bodied man and woman in The Decisive Battle for the homeland In 140 Days to Hiroshima historian David Dean Barrett captures war room drama on both sides of the conflict Here are the secret strategy sessions fierce debates looming assassinations and planned invasions that resulted in Armageddon on August 6 1945 Barrett then examines the next nine chaotic days as the Japanese government struggled to respond to the reality of nuclear war *Five Days in August* Michael D. Gordin, 2015-08-18 Most Americans believe that the Second World War ended because the two atomic bombs dropped on Japan forced it to surrender Five Days in August boldly presents a different interpretation that the military did not clearly understand the atomic bomb s revolutionary strategic potential that the Allies were almost as stunned by the surrender as the Japanese were by the attack and that not only had experts planned and fully anticipated the need for a third bomb they were skeptical about whether the atomic bomb would work at all With these ideas Michael Gordin reorients the historical and contemporary conversation about the A bomb and World War II Five Days in August explores these and countless other legacies of the atomic bomb in a glaring new light Daring and iconoclastic it will result in far

reaching discussions about the significance of the A bomb about World War II and about the moral issues they have spawned

Conduct Under Fire John A. Glusman, 2006-04-25 The fierce bloody battles of Bataan and Corregidor in the Philippines are legendary in the annals of World War II Those who survived faced the horrors of life as prisoners of the Japanese In *Conduct Under Fire* John A Glusman chronicles these events through the eyes of his father Murray and three fellow navy doctors captured on Corregidor in May 1942 Here are the dramatic stories of the fall of Bataan the siege of the Rock and the daily struggles to tend the sick wounded and dying during some of the heaviest bombardments of World War II Here also is the desperate war doctors and corpsmen waged against disease and starvation amid an enemy that viewed surrender as a disgrace To survive the POWs functioned as a family But the ties that bind couldn't protect them from a ruthless counteroffensive waged by American submarines or from the B 29 raids that burned Japan's major cities to the ground Based on extensive interviews with American British Australian and Japanese veterans as well as diaries letters and war crimes testimony this is a harrowing account of a brutal clash of cultures of a race war that escalated into total war Like *Flags of Our Fathers* and *Ghost Soldiers* *Conduct Under Fire* is a story of bravery on the battlefield and ingenuity behind barbed wire one that reveals the long shadow the war cast on the lives of those who fought it *Soldiers of the Sun* Meirion

Harries, 1994-07-05 *Soldiers of the Sun* traces the origins of the Imperial Japanese Army back to its samurai roots in the nineteenth century to tell the story of the rise and fall of this extraordinary military force Meirion and Susie Harries have written the first full Western account of the Imperial Japanese Army Drawing on Japanese English French and American sources the authors penetrate the lingering wartime enmity and propaganda to lay bare the true character of the Imperial Army **World War II in Asia and the Pacific and the War's Aftermath, with General Themes** Loyd Lee, 1998-10-23 A companion to *World War II in Europe Africa and the Americas* this volume reevaluates the most enduring literature on basic aspects of the war in Asia and the Pacific It also covers themes pertaining to societies at war culture the arts and science and technology as well as international relations and the postwar world Included are not only grand strategy military and naval campaigns and matters of diplomacy but also resistance collaboration prisoners of war and broad topics of the home front including chapters on gender issues film literature popular culture and propaganda This volume and its companion provide the first comprehensive historiographic reference work on the war Each chapter describes the state of knowledge on the topic relating each bibliographic reference to the chapter's themes and issues and concludes with a bibliography Recent original scholarship is included when it aids new understanding and older works of enduring value also find a place The essays in this volume will interest scholars and college teachers as well as advanced students and serious amateurs seeking insight into the history of the war and its literature **World War II in the Pacific** William A. Renzi, Mark D.

Roehrs, 2015-06-01 *World War II* laid the groundwork for much of the international system that exists today especially in the Pacific Rim This brief but comprehensive survey of the War in the Pacific incorporates both United States and Japanese

perspectives providing a global approach to the Asian theater of the conflict Drawing on decades of new scholarship and written in an engaging narrative style this book traces United States Japanese relations from the late nineteenth century to the war s end in 1945 It covers every aspect of the war and gives special attention to ongoing historical debates over key issues The book also provides new details of many facets of the conflict including expansionism during the 1930s events and policies leading up to the war the importance of air power and ground warfare military planning and strategic goals the internment of Japanese Americans in the U S Allied plans and disputes over Russian participation the decision to drop the atomic bomb and conditions for surrender

Never Look Back William A. Renzi, Mark D. Roehrs, 2019-08-01 50 years ago Japan attacked Pearl Harbour and brought a reluctant America into World War II Armed with fresh materials which have become available only in the last decade Renzi and Roehrs take a critical look at the decisive Japanese American episodes in The Great Pacific War Unlike standard histories of World War II *Never Look Back* includes the Japanese perspective bringing to light challenging facts in Operation Flying Elephant the Japanese attempted to cause forest fires in the American West by releasing hydrogen filled balloons When Americans of Japanese ancestry were interned during the conflict word reached Japan of their plight and resulted in even greater mistreatment of American POWs in Japan It is argued that Japan did not surrender because of the atomic bombing of Hiroshima and Nagasaki or because of the conventional firebombing or because of the US submarine campaign but because the USSR entered the war

The Broken Bridge Suzanne Kamata, 1998-07-01 Absorbing fiction from Outsiders in a land that does not absorb foreigners easily

Japan 1944-45 Mark Lardas, 2019-02-21 The air campaign that incinerated Japan s cities was the first and only time that independent air power has won a war As the United States pushed Imperial Japan back towards Tokyo Bay the US Army Air Force deployed the first of a new bomber to the theater The B 29 Superfortress was complex troubled and hugely advanced It was the most expensive weapons system of the war and formidably capable But at the time no strategic bombing campaign had ever brought about a nation s surrender Not only that but Japan was half a world away and the US had no airfields even within the extraordinary range of the B 29 This analysis explains why the B 29s struggled at first and how General LeMay devised radical and devastating tactics that began to systematically incinerate Japanese cities and industries and eliminate its maritime trade with aerial mining It explains how and why this campaign was so uniquely successful and how gaps in Japan s defences contributed to the B 29s success

War Made New Max

Boot,2006-10-19 A monumental groundbreaking work now in paperback that shows how technological and strategic revolutions have transformed the battlefield Combining gripping narrative history with wide ranging analysis War Made New focuses on four revolutions in military affairs and describes how inventions ranging from gunpowder to GPS guided air strikes have remade the field of battle and shaped the rise and fall of empires War Made New begins with the Gunpowder Revolution and explains warfare s evolution from ritualistic drawn out engagements to much deadlier events precipitating the rise of the modern nation state He next explores the triumph of steel and steam during the Industrial Revolution showing how it powered the spread of European colonial empires Moving into the twentieth century and the Second Industrial Revolution Boot examines three critical clashes of World War II to illustrate how new technology such as the tank radio and airplane ushered in terrifying new forms of warfare and the rise of centralized and even totalitarian world powers Finally Boot focuses on the Gulf War the invasion of Afghanistan and the Iraq War arguing that even as cutting edge technologies have made America the greatest military power in world history advanced communications systems have allowed decentralized irregular forces to become an increasingly significant threat Atrocities, Massacres, and War Crimes

Alexander Mikaberidze,2013-06-25 Both concise and wide ranging this encyclopedia covers massacres atrocities war crimes and genocides including acts of inhumanity on all continents and serves as a reminder that lest we forget history will repeat itself The 400 plus entries in Atrocities Massacres and War Crimes An Encyclopedia provide accessible and concise information on the difficult subject of abject human violence committed on all continents The entries in this two volume work describe atrocities massacres and war crimes committed in the 20th century thereby documenting how human beings have repeatedly proven their capability to commit horrific acts of inhumanity even in relatively recent times and within the modern era The encyclopedia covers countries treaties and terms profiles individuals who had been formally indicted for war crimes as well as those who have committed mass atrocities and gone unpunished and addresses human rights violations crimes against humanity and crimes against peace *With the 41st Division in the Southwest Pacific* Francis B.

Catanzaro,2002-10-24 We began our advance toward the Mokmer Airstrip The road climbed a ridge 15 or 20 feet high and we found ourselves on a flat coral plateau sparsely covered by small trees and scrub growth As we moved westward along the road two of our destroyers were sailing abreast of the lead elements of the advancing column The first indication of trouble was the roar of heavy artillery shells sailing over our heads aimed at our destroyers Shortly after that our forward movement stopped and we heard heavy firing from the head of the column As we waited we began to hear heavy fire from the rear We were cut off and surrounded In the enormous literature of the Second World War there are surprisingly few accounts of fighting in the southwest Pacific fewer still by common infantrymen This memoir written with a simple and direct honesty that is rare indeed follows a foot soldier s career from basic training to mustering out It takes the reader into the jungles and caves of New Guinea and the Philippines during the long campaign to win the war against Japan From basic

training at Camp Roberts through combat occupation and the long journey home Francis Catanzaro's account tells of the excitement misery cruelty and terror of combat and of the uneasy boredom of jungle camp life A member of the famed 41st Infantry Brigade the Jungleers Catanzaro saw combat at Hollandia Biak Zamboanga and Mindanao He was a part of the Japanese occupation force and writes with feeling about living among his former enemies and of the decision to drop the atom bomb With the 41st Division in the Southwest Pacific is a powerful gritty and moving narrative of the life of a soldier during some of the most difficult fighting of World War II

Beyond Valor Jon Erwin, William Doyle, 2020-08-18 On April 12 1945 a fleet of American B 29 bombers flew toward Japan Their mission was simple Stop World War II by burning the cities factories and military bases of the Japanese empire thereby forcing an unconditional surrender But it didn't go as planned Beyond Valor is one soldier's extraordinary tale of bravery faith and devotion Onboard one of the B 29s the City of Los Angeles a phosphorus bomb detonated inside the plane Staff Sergeant Henry E Red Erwin absorbed the blast of burning phosphorus and managed to throw the still flaming bomb overboard before collapsing from the third degree burns that covered his body Breaking protocol the plane diverted to a military hospital at Iwo Jima President Truman quickly ordered that Erwin be awarded the Medal of Honor the highest honor of the American military Drawn from in depth interviews with eyewitnesses and deep archival research Beyond Valor tells the gripping story of Erwin's life from his upbringing in the suburbs of Birmingham Alabama to his enduring commitment to supporting veterans Beyond Valor gives you a front row seat to Erwin's amazing life and legacy Along the way you'll learn How Erwin's childhood in Birmingham shaped his faith and his family How a split second decision changed the course of his life The countless ways that Erwin chose to give back to his fellow veterans after he returned home Beyond Valor is about more than that fateful day in April 1945 It's a story of one man's journey from the ultimate despair to a place beyond service beyond honor and beyond valor a life illuminated by the light of God's love
