The North Star:

INITIATORY ASTROLOGY The North Star and the ascension to the higher states of being. The real stellar secret of the Divine Comedy GIACOMO ALBANO, Zoe Martinini, 2021-12-26 The readers of this book will have access to secret knowledge that has never been published before This book explains how the ascension to the stars happens from the point of view of initiatory astrology that is how to choose and use certain astrological moments for the operations of the ascent of the planes The aim is to delineate a Stellar Way for the ascent to Heaven up to the Supreme State or at least to learn how to progressively bring the consciousness to higher levels with the help of certain star maps that we will learn to create interpret and revive in our Microcosm In fact it is possible to transpose on the Celestial Sphere the traditional teachings about the higher states of being The influence of the various parts of Heaven that colors the stars differently according to the various phases of their precessional cycle is one of the important things which is entirely unknown to modern astrologers and was known only to the initiates of the most remote antiquity It confirms the existence of a secret initiatory astrology very different and much more useful and profound than that commonly practiced The ascension to the higher states of being up to the Supreme State can take place only along the lines of the colures This supreme state is represented by the point of intersection between the two colures represented by the North Pole As we will see in the course of the book in order for this ascension to take place it is necessary that there are stars along the colures corresponding to various states of being that are like so many stations that one must pass through At the same time they are similar to vehicles that can transport us higher and higher The higher the northern declination of the stars the higher the state of being they represent not because of their own nature but because of the part of Heaven in which they are located The more one rises along the northern sky the more one enters into a subtle and etheric dimension which precisely for this reason can be inaccessible or traumatic for those who are not ready to get rid of the ego and the sense of corporeality These ascensions also require the presence of one or more planets along the colures themselves In fact our first means of transport to detach ourselves from the earth will surely be one or more planets since we cannot directly identify ourselves with the very high state of consciousness corresponding to a star We will talk about all this in a very technical and in depth way including some examples And we will do so after demonstrating how these particular stellar factors were well present and active in the periods when the greatest turning points in the history of human spirituality occurred We shall thus examine the stars of the Buddha and those of Pythagoras of Moses and Jesus and much more There are many clues that suggest that in the *Commedia* Dante described in the allegorical form a stellar journey very similar to the one we describe in this work It is no coincidence that Dante concludes each *cantica* with the word stars and it is no coincidence that the last verse of each *cantica* is isolated in the sense that it is not part of a triplet like all the others All this must have a precise meaning because a medieval and sapiential poet like Dante did not do anything by chance or for simply poetic reasons It is likely that Dante had access to

initiatory knowledge about some traditional techniques of ascension to Heaven through the stars and that is why he included in his poem so many references to the stars closing each poem with an isolated verse ending with the word stars In Dante s time the North Star was located on the equinoctial colure and it is from the North Star that we will start to discover this secret message Noah and the North Star Jacqueline Kim,2015-03-30 Are you following your own North Star Do you remember the dreams you held in your heart as a child Each of us holds our childhood dreams in our hearts then nurtures and cherishes them throughout our lives Those dreams guide us to set our lifes goals and help us to achieve them And when we feel lost we look toward the North Star and try to find our way back to our hearts Our own North Star is always there to guide us back home Our childrens precious dreams are in their hearts and each childs own North Star guides him or her to follow his or her dreams and to be an important part of this world With support and encouragement from parents families friends and teachers our children learn and grow to follow their hearts to become the people they want to be attaining the high potential each child brings to this world This short story is about holding your childhood dreams in your heart and following them in your life to become the person you always dreamed to be with the help and gentle guidance from your own North Star Dream your dreams **Alaska in the Wake of the North Star** Loel Burket Shuler,2005 Alaska In the Wake of the North Star gives a fascinating and compelling account of that moment in time when dramatic and powerful changes were just beginning to bubble in the far north During a three month journey of 11 000 miles between Sitka and Point Barrow on the USMS North Star Loel Shuler had the privilege of an intimate look at the ways of life and the unique peoples of Alaska as they were in 1950 In these pages she shares her story and photographs of people and places that today have all but disappeared so that none of us has to forget *Beyond the North Star* R.
