V. Cassill, 1988-01-01 The Short Story Anthology and Women's Writing Aleix Tura Vecino, 2025-08-14 Hundreds of anthologies of women's short stories have appeared in the literary market between the 1970s and now This publishing and cultural phenomenon is considered for the first time in this book which argues that during this period anthologies have become a literary technology used not only to make visible female short story writers but also to think about and mould ideas of womanhood Through creative and contextualised readings of the most important anthologies produced in this period this study shows that this literary form has contributed to and in some cases pioneered key developments in gender theory and feminist thought including questions of political combination among women which underlie contemporary global movements such as MeToo In doing so the book also develops the first book length conceptualisation of the features and meaning making mechanisms of the short story anthology as a literary form This book will benefit academics and students working in the fields of short fiction publishing and women's studies as well as feminist scholars and a growing number of specialists interested in the anthology as a literary form worldwide **The Kabbalah of the Soul** Leonora Leet, 2003-03-25 Leet has erected a new framework for understanding the mechanisms that enable the human soul to reach increasingly higher dimensions of consciousness The Geographies of African American Short Fiction Kenton Rambsy, 2022-03-25 Perhaps the brevity of

short fiction accounts for the relatively scant attention devoted to it by scholars who have historically concentrated on longer prose narratives. *The Geographies of African American Short Fiction* seeks to fill this gap by analyzing the ways African American short story writers plotted a diverse range of characters across multiple locations: small towns, a famous metropolis, city sidewalks, a rural wooded area, apartment buildings, a pond, a general store, a prison, and more. In the process, these writers highlighted the extents to which places and spaces shaped or situated racial representations. Presenting African American short story writers as cultural cartographers, author Kenton Rambsy documents the variety of geographical references within their short stories to show how these authors make cultural spaces integral to their artwork and inscribe their stories with layered and resonant social histories. The history of these short stories also documents the circulation of compositions across dozens of literary collections for nearly a century. Anthology editors solidified the significance of a core group of short story authors including James Baldwin, Toni Cade Bambara, Charles Chesnutt, Ralph Ellison, Zora Neale Hurston, and Richard Wright. Using quantitative information and an extensive literary dataset, *The Geographies of African American Short Fiction* explores how editorial practices shaped the canon of African American short fiction. **The Short Story** Andrew Kahn, 2021. Drawing on examples from across the globe and throughout history, Andrew Kahn explores the key characteristics of the short story. He shows how its rise was intertwined with international print culture and discusses the essential techniques within this thriving literary genre as well as the ways in which it is constantly innovated even today.

The Universal Kabbalah Leonora Leet, 2004-09-29. This landmark work by an innovative modern Kabbalist develops a scientific model for kabbalistic cosmology and soul psychology. Derived from the kabbalistic diagram of the Tree of Life and the author's own Sabbath Star diagram, this universal model encodes the laws of all cosmic manifestation, giving a mathematical basis to many aspects of this mystical tradition and providing a new synthesis of science and spirituality that may well write a new chapter to the Kabbalah. *Thematic Guide to Popular Short Stories* Patrick A. Smith, 2002-10-30. Providing easy access to information on nearly 450 short stories, this unique guide surveys a wide spectrum of world literature, canonical works, and contemporary fiction. Librarians and teachers will find multiple purposes for this expertly compiled resource, which can be employed in much the same way as a standard bibliography. Educators will appreciate the concise annotations arranged alphabetically by author that form the core of this work. Insightful critical statements synthesize plot summaries and identify the thematic content of each short story. A theme guide utilizes the nearly 100 theme headings matching those at the start of each entry, allowing the user to quickly locate story titles on related themes and construct reading lists based on individual interests and needs. Another component designed to aid librarians offers one bibliography that lists the anthologies from which the stories are drawn. Works Cited and one comprised of a number of recent anthologies that can be adapted for the classroom. Further Reading. In addition to the theme index, the general subject and author indexes make this a user-friendly and invaluable resource. **Reading the Short Story** Anna Wing-bo
