Berkeley's life and ideas He advanced a radical immaterialism holding that the only reality was minds their thoughts and their perceptions without any physical substance underlying them But he put forward this counterintuitive philosophy in support of the existence and ultimate sovereignty of God Berkeley was an energetic social reformer deeply interested in educational and economic improvement including for the indigenous peoples of North America yet he believed strongly in obedience to hierarchy and defended slavery And although he spent much of his life in Ireland he followed his time at Trinity with years of travel that took him to London Italy and New England where he spent two years trying to establish a university for Bermuda before returning to Ireland to take up an Anglican bishopric in a predominantly Catholic country Jones draws on the full range of Berkeley's writings from philosophical treatises to personal letters and journals to probe the deep connections between his life and work The result is a richly detailed and rounded portrait of a major Enlightenment thinker and the world in which he lived

[Portrait of a Woman in Silk](#) Zara Anishanslin,2016-09-20 Through the story of a portrait of a woman in a silk dress historian Zara Anishanslin embarks on a

fascinating journey exploring and refining debates about the cultural history of the eighteenth century British Atlantic world. While most scholarship on commodities focuses either on labor and production or on consumption and use, Anishanslin unifies both by examining the worlds of four identifiable people who produced, wore, and represented this object: a London weaver, one of early modern Britain's few women silk designers, a Philadelphia merchant's wife, and a New England painter. Blending macro and micro history with nuanced gender analysis, Anishanslin shows how making, buying, and using goods in the British Atlantic created an object-based community that tied its inhabitants together while also allowing for different views of the Empire. Investigating a range of subjects including self-fashioning, identity, natural history, politics, and trade, Anishanslin makes major contributions both to the study of material culture and to our ongoing conversation about how to write history.
