Gawkers Bridget Alsdorf, 2022-03-01 How the urban spectator became the archetypal modern viewer and a central subject in late nineteenth century French art *Gawkers* explores how artists and writers in late nineteenth century Paris represented the seductions, horrors and banalities of street life through the eyes of curious viewers known as badauds. In contrast to the singular and aloof bourgeois flâneur, badauds were passive, collective, instinctive and highly impressionable. Above all, they were visually captivated by the sights of everyday life. Beautifully illustrated and drawing on a wealth of new research, *Gawkers* excavates badauds as a subject of deep significance in late nineteenth century French culture as a motif in works of art and as a conflicted model of the modern viewer. Bridget Alsdorf examines the work of painters, printmakers and filmmakers who made badauds their artistic subject, including Félix Vallotton, Pierre Bonnard, Henri de Toulouse-Lautrec, Honoré Daumier, Edgar Degas, Jean-Louis Gruelle, Eugène Carrière, Charles Angrand and Auguste and Louise Lumière. From morally and intellectually empty to sensitive, empathetic and humane, the gawkers these artists portrayed cut across social categories. They invite the viewer's identification even as they appear to threaten social responsibility and the integrity of art. Delving into the ubiquity of a figure that has largely eluded attention, idling on the margins of culture and current events, *Gawkers* traces the emergence of social and aesthetic problems that are still with us today.

[Sargent and Paris](#) Stephanie L.

Herdrich, 2025-04-21 In 1874, eighteen-year-old American artist John Singer Sargent went to Paris to become a painter. Ten years later, he would become an art world sensation when he sparked controversy with his scandalous portrait *Madame X* at the 1884 Salon. *Sargent and Paris* focuses on this decisive early decade in the artist's career when he first achieved recognition for ambitious portraits and bold canvases that pushed the boundaries of convention. Eight incisive essays by the world's foremost Sargent scholars explore his life in Paris, then the epicenter of the cultural world and the cosmopolitan circle of artists, writers and cultivated patrons that nurtured his career and helped forge his artistic identity. Authors highlight the painter's connections to giants of the Parisian art scene as well as the influential patrons who were key to Sargent's progression as an artist. Presented alongside lavish images of more than a hundred paintings and works on paper brought together from public and private collections throughout the United States and Europe, this publication offers an intimate look at the roots of Sargent's signature breathtaking style and his indelible experiences as a young artist in the French capital.

The Artist and the Bridge John Sweetman, 2019-05-23 First published in 1999 this book explores how from the stone bridges of neoclassicism which soar out of wild woods to span pastoral valleys to the post 1750 engineer s bridge with its links to the more industrial landscape the bridge was a popular feature in painting throughout the period 1700 1920 Why did so many artists choose to portray bridges In this lavishly illustrated and intriguing book John Sweetman seeks to answer this question He traces the history of the bridge in painting and printmaking through a vast range of work some as familiar as William Etty s *The Bridge of Sighs* and Claude Monet s *The Railway Bridge at Argenteuil* and others less well known such as Wassily Kandinsky s *Composition IV* and C R W Nevinson s *Looking Through the Brooklyn Bridge* Distinctive characteristics emerge revealing the complex role of the bridge as both symbol and metaphor and as a place of vantage meeting and separation

Mapping Degas Roberta Crisci-Richardson, 2015-06-18 The New Art History and the Impressionist canon seem to have successfully claimed Edgar Degas as a misogynist rabid nationalist and misanthrope whose art was both masterly and experimental By analysing Degas s approach to space and his self fashioning attitude towards identity within the ambiguities of the political and artistic culture of nineteenth century France this book questions the characterisation of Degas as a right wing Frenchman and artist and will change the way in which Degas is thought about today

BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved "Interior Portraiture and Masculine Identity in France, 1789?914 " HeatherBelnap Jensen,2017-07-05 Focusing specifically on portraiture as a genre this volume challenges scholarly assumptions that regard interior spaces as uniquely feminine Contributors analyze portraits of men in domestic and studio spaces in France during the long nineteenth century the preponderance of such portraits alone supports the book s premise that the alignment of men with public life is oversimplified and more myth than reality The volume offers analysis of works by a mix of artists from familiar names such as David Delacroix Courbet Manet Rodin and Matisse to less well known image makers including Dominique Doncre Constance Mayer Anders Zorn and Lucien Etienne Melingue The essays cover a range of media from paintings and prints to photographs and sculpture that allows exploration of the relation between masculinity and interiority across the visual culture of the period The home and other interior spaces emerge from these studies as rich and complex locations for both masculine self expression and artistic creativity Interior Portraiture and Masculine Identity in France 1789 1914 provides a much needed rethinking of modern masculinity in this period *Creole* Darcy Grimaldo Grigsby,2022-11-18 This book addresses the unique and profound indeterminacy of Creole a label applied to white black and mixed race persons born in French colonies during the nineteenth century Creole implies that the geography of one s birth determines identity in ways that supersede race language nation and social status Paradoxically the very capaciousness of the term engendered a perpetual search for visual signs of racial difference as well as a pretense to blindness about the intermingling of races in Creole society Darcy Grimaldo Grigsby reconstructs the search for visual signs of racial difference among people whose genealogies were often repressed She explores French representations of Creole subjects and representations by Creole artists in France the Caribbean and the Americas To do justice to the complexity of Creole identity Grigsby interrogates the myriad ways in which people defined themselves in relation to others With close attention to the differences between Afro Creole and Euro Creole cultures and persons Grigsby examines figures such as Th odore Chass riau Guillaume Guillon Lethi re Alexandre Dumas p re douard Manet Edgar Degas the models Joseph and Laure Josephine Bonaparte Jeanne Duval and Adah Isaacs Menken Based on extensive archival research Creole is an original and important examination of colonial identity This essential study will be welcomed by specialists in nineteenth century art history French cultural history the history of race and transatlantic history more generally **Monet's Minutes** Andr  Dombrowski,2023-01-01 A stunning

exploration of the vital links between Claude Monet's Impressionism and the time technologies that helped define modernity in the nineteenth century. *Monet's Minutes* is a revelatory account charting the relationship between the works of Claude Monet (1840–1926), founder of French Impressionism and one of the world's best known painters, and the modern experience of time. Andr Dombrowski illuminates Monet's celebration of instantaneity in the context of the late nineteenth-century time technologies that underwrote it. Monet's version of Impressionism demonstrated an acute awareness of the particularly modern pressures of time, but until now scholars have not examined the histories and technologies of time and timekeeping that informed Impressionism's major stylistic shifts. Arguing that the fascination with instantaneity rejected the dulling cultures of newly routinized and standardized time, *Monet's Minutes* traces the evolution of Monet's art to what were then seismic shifts in the shape of time itself. In each chapter, Dombrowski focuses on the connections between a set of Monet's works and a specific technology or experience of time, while providing the voices of period critics responding to Impressionism. Grounded in exceptional research and analyses, this book offers new interpretations of key works by Monet and a fresh perspective on late nineteenth-century art, society, and modern temporality.
