The Best Minds of My Generation Allen Ginsberg, 2017-04-04 In 1977 twenty years after the publication of his landmark poem *Howl* and Jack Kerouac's seminal book *On the Road* Allen Ginsberg decided it was time to teach a course on the literary history of the Beat Generation. Through the creation of this course which he ended up teaching five times first at the Naropa Institute and later at Brooklyn College Ginsberg saw an opportunity to present the history of Beat Literature in his own inimitable way. Compiled and edited by renowned Beat scholar Bill Morgan and with an introduction by Anne Waldman *The Best Minds of My Generation* presents the lectures in edited form complete with notes and paints a portrait of the Beats as Ginsberg knew them friends confidantes literary mentors and fellow revolutionaries. Ginsberg was seminal to the creation of a public perception of Beat writers and knew all of the major figures personally making him uniquely qualified to be the historian of the movement. In *The Best Minds of My Generation* Ginsberg shares anecdotes of meeting Kerouac Burroughs and other writers for the first time explains his own poetics elucidates the importance of music to Beat writing discusses visual influences and the cut up method and paints a portrait of a group who were leading a literary revolution. For Beat aficionados and neophytes alike *The Best Minds of My Generation* is a personal yet critical look at one of the most important literary movements of the twentieth century.

Birds of Vietnam, Cambodia and Laos Peter Davidson, 2016-07-14 An authoritative pocket guide to the birds of Vietnam Cambodia and Laos. Vietnam Laos and Cambodia are becoming increasingly popular with all kinds of visitors not least birdwatchers who can visit many national parks and reserves harbouring a bounty of amazing species. The three countries are home to about 1 000 species of birds including such rarities as Bengal Florican Giant Ibis Green Peafowl and Vietnamese Cutia. This concise and easy to use guide features 252 of Vietnam Laos and Cambodia's most interesting and spectacular birds each illustrated in full colour with key information on ID habitat and distribution. Illustrated with clear colour photography and brief but

authoritative descriptions the Pocket Photo Guides highlight the species of birds and animals from each region that the traveller is most likely to see as well as those that are genuinely endemic only to be seen in that country or region or special rarities The genuine pocket size allow the books to be carried around on trips and excursions and will take up minimal rucksack and suitcase space

**Silence of the Songbirds** Bridget Stutchbury, 2009-05-26 Wood thrush Kentucky warbler the Eastern kingbird migratory songbirds are disappearing at a frightening rate By some estimates we may already have lost almost half of the songbirds that filled the skies only forty years ago Renowned biologist Bridget Stutchbury convincingly argues that songbirds truly are the canaries in the coal mine except the coal mine looks a lot like Earth and we are the hapless excavators Following the birds on their six thousand mile migratory journey Stutchbury leads us on an ecological field trip to explore firsthand the major threats to songbirds pesticides still a major concern decades after Rachel Carson first raised the alarm the destruction of vital habitat from the boreal forests of Canada to the diminishing continuous forests of the United States to the grasslands of Argentina coffee plantations which push birds out of their forest refuges so we can have our morning fix the bright lights and structures in our cities which prove a minefield for migrating birds and global warming We could well wake up in the near future and hear no songbirds singing But we won't just be missing their cheery calls we'll be missing a vital part of our ecosystem Without songbirds our forests would face uncontrolled insect infestations and our trees flowers and gardens would lose a crucial element in their reproductive cycle As Stutchbury shows saving songbirds means protecting our ecosystem and ultimately ourselves

**The New Wild** Fred Pearce, 2015-04-07

Introducing environmental conservation for the 21st century one that reframes how we think about invasive species and champions nature's biodiversity and capacity for change For a long time veteran environmental journalist Fred Pearce thought in stark terms about invasive species they were the evil interlopers spoiling pristine natural ecosystems Most conservationists and environmentalists share this view But what if the traditional view of ecology is wrong what if true environmentalists should be applauding the invaders In *The New Wild* Pearce travels across 6 continents to rethink conservation and restoration in the 21st century offering a paradigm shifting exploration of the new ecologists who believe invasive species aren't a scourge but a sign of nature's strength Rather than fighting a losing battle to protect what we imagine to be pristine we need to encourage nature's rebirth by celebrating the species that are most able to adapt In an era in which humans have affected every inch of the planet through globalization and climate change there are no undisturbed ecosystems and most are a mixture of native and alien who get along just fine But by embracing the new ecology we can help

nature regenerate To be an environmentalist in the 21st century means embracing nature's wildness and capacity for change
