Jacques Maritain and the Many Ways of Knowing Douglas A. Ollivant, 2002 Drawing on the writings of Jacques Maritain and by extension those of Thomas Aquinas the essays in this volume examine the effects of theories of knowledge on individuals culture and entire schools of philosophical thought The contributors challenge contemporary epistemologies which are largely based on writings of Descartes Locke and Kant They critique these theories internally and demonstrate their incompatibility with other goods such as liberty human dignity and access to the transcendent In stark contrast to modernity's dubious and fragmented opinions and belief systems Maritain in works like *The Degrees of Knowledge* and *Creative Intuition in Art and Poetry* proposed a theory of knowledge that permits real if limited knowledge of substances wholes Some contributors use these works as a springboard from which to examine aspects or applications of knowledge that Maritain left unexplored Others challenge or question aspects of Maritain's analysis seeking to improve upon his work Still others compare Maritain with other neo-Thomistic philosophers most notably Etienne Gilson Alasdair MacIntyre and Pope John Paul II Maritain's works on human knowledge and the implicit critique of modernity contained within provide an alternative for those seeking to engage the various deficiencies of the culture of death These essays demonstrate the continuing relevance and timeliness of Maritain's thought Douglas A Ollivant is assistant professor of politics at the United States Military Academy Contributors George Anastaplo James Arraj Joseph M de Torre Robert Delfino Raymond Dennehy John M Dunaway Robert Fallon Desmond Fitzgerald William J Fossati W Matthews Grant Catherine Green James G Hanink Gregory J Kerr John F X Knasas John F Morris Ralph Nelson Douglas A Ollivant Matthew S Pugh Steven J Schloeder Christopher H Toner John G Trapani Jr Henk E S Woldring and Thomas F Woods This is a valuable collection of articles on an important individual who is still influencing contemporary political thought Lucien J Richard OMI Catholic Library World

Queer God de Amor Miguel H. Díaz,2022-09-13 *Queer God de Amor* explores the mystery of God and the relationship between divine and human persons It does so by turning to the sixteenth century writings of John of the Cross on mystical union with God and the metaphor of sexual relationship that he uses to describe this union Juan s mystical theology which highlights the notion of God as lover and God s erotic like relationship with human persons provides a fitting source for rethinking the Christian doctrine of God in John s own words as un no s qu an I know not what In critical conversations with contemporary queer theologies it retrieves from John a preferential option for human sexuality as an experience in daily life that is rich with possibilities for re sourcing and imagining the Christian doctrine of God Consistent with other liberating perspectives it outs God from heteronormative closets and restores human sexuality as a resource for theology This outing of divine queerness that is the ineffability of divine life helps to align reflections on the mystery of God with the faith experiences of queer Catholics By engaging Juan de la Cruz through queer Latinx eyes Miguel D az continues the objective of this series to disrupt the cartography of theology latinamente

Through a Glass Darkly Frances Di Lauro,2006-12-06 *Through a Glass Darkly* Reflections on the Sacred is a collection of research articles on the influence of religion on music literature and art The book was edited by Frances Di Lauro with an introduction by Victoria Barker

The Harvard Theological Review ,1913 *Curing the Philosopher's Disease* Richard H. Jones,2009 *Curing the Philosopher s Disease* is a philosophical examination of the mysteries surrounding the foundations of science philosophy and religion Much of Western philosophy and science is discussed in order to see our epistemological and metaphysical situation The love hate relation philosophers have with mystery is explored as are the contributions of reductionists and antireductionists postmodern relativists and critical realists naturalists and the religious and theologians and mystics The thrust of the arguments affirms that there are limits to what philosophy science religion and mystical experiences can tell us about reality By acknowledging that some questions may be unanswerable and understanding the importance of that fact even as the answers remain ambiguous our true situation in the world is revealed Mystery should be reinstated as a basic feature when we reflect upon the nature of what we know and who we are Mystery frames all of our claims to fundamental knowledge and we must accept that it will remain a permanent fixture Thus the importance of mystery needs to be reaffirmed today during an era when the fullness of reality is often ignored Book jacket

and ecstasy take shape Bataille's search for experience begins where religion philosophy science and literature leave off where doctrines dogmas methods and the arts collapse His method of meditation outlined and documented here commingles horror and delight Laughter intoxication eroticism poetry and sacrifice are pursued not as ends in and of themselves but as means of access to a sovereign realm of inner experience This new translation is the first to include Method of Meditation and Post Scriptum 1953 the supplementary texts Bataille added to create the first volume of his Summa Atheologica This edition also offers the full notes and annotations from the French edition of Bataille's Oeuvres Complètes along with an incisive introductory essay by Stuart Kendall that situates the work historically biographically and philosophically

The Fortnightly Review, 1912

A Scientific Assessment of the Validity of Mystical Experiences Andrew Papanicolaou, 2021-04-14 In this book the approach of the natural sciences is adopted to confront the ontological question of how far mystical experiences can be considered as reports of an objective reality rather than reports of subjective delusions Moving beyond traditional philosophical or cultural and theological interpretations of mystical phenomena the author uses inductive inference to analyze claims made by secular and religious mystics highlight links between altered states of consciousness and neurochemistry and counters reductionist claims that mystical states are exclusively products of neurochemical neurophysiological or psychopathological factors The text also considers the positive long term effects of proper use of psychedelics and meditation This fresh approach to mystical experiences will be of interest to scholars researchers and postgraduate students working in the areas of psychology and neuroscience and with an interest in mysticism in religious studies and philosophy
