The Of Alfred Kantor:

The book of Alfred Kantor; an artist's journal of the Holocaust Alfred Kantor, 1987 The Book of Alfred Kantor Alfred **The Book of Alfred Kantor** Alfred Kantor, 1971 Le Cahier d'Alfred Kantor Alfred Kantor, 1971 Alfred Kantor, The Book of Alfred Kantor, 1972 Alfred Kantor ,1973 Holocaust Art Mary Susan Parke, Alfred Kantor, 1981 Kantor .1971 Alfred Kantor Oral History (interview Code: 31360) ,1997 Zusammenfassung Audiovisual testimony of a Holocaust survivor Includes pre war wartime and post war experiences Admitting the Holocaust Lawrence L. Langer, 1996-06-20 In the face of the Holocaust writes Lawrence L Langer our age clings to the stable relics of faded eras as if ideas like natural innocence innate dignity the inviolable spirit and the triumph of art over reality were immured in some kind of immortal shrine immune to the ravages of history and time But these ideas have been ravaged and in Admitting the Holocaust Langer presents a series of essays that represent his effort over nearly a decade to wrestle with this rupture in human values and to see the Holocaust as it really was His vision is necessarily dark but he does not see the Holocaust as a warrant for futility or as a witness to the death of hope It is a summons to reconsider our values and rethink what it means to be a human being These penetrating and often gripping essays cover a wide range of issues from the Holocaust's relation to time and memory to its portrayal in literature to its use and abuse by culture to its role in reshaping our sense of history s legacy In many Langer examines the ways in which accounts of the Holocaust in history literature film and theology have extended and sometimes limited our insight into an event that is often said to defy understanding itself He singles out Cynthia Ozick as one of the few American writers who can meet the challenge of imagining mass murder without flinching and who can distinguish between myth and truth On the other hand he finds Bernard Malamud's literary treatment of the Holocaust never entirely successful it seems to have been a threat to Malamud s vision of man s basic dignity and he argues that William Styron's portrayal of the commandant of Auschwitz in Sophie's Choice pushed Nazi violence to the periphery of the novel where it disturbed neither the author nor his readers He is especially acute in his discussion of the language used to describe the Holocaust arguing that much of it is used to console rather than to confront He notes that when we speak of the survivor instead of the victim of martyrdom instead of murder regard being gassed as dying with dignity or evoke the redemptive rather than grevious power of memory we draw on an arsenal of words that tends to build verbal fences between what we are mentally willing or able to face and the harrowing reality of the camps and ghettos A respected Holocaust scholar and author of Holocaust Testimonies The Ruins of Memory winner of the 1991 National Book Critics Circle Award for criticism Langer offers a view of this catastrophe that is candid and disturbing and yet hopeful in its belief that the testimony of witnesses in diaries journals memoirs and on videotape and the unflinching imagination of literary artists can still offer us access to one of the darkest episodes in the twentieth century The Holocaust National Jewish Resource Center (U.S.),1985 Archive and Memory in German Literature and Visual Culture Dora Osborne, 2015 Explores the

changing relationship between memory and the archive in German language literature and culture since 1945 The Girls of Room 28 Hannelore Brenner, 2009-09-01 From 1942 to 1944 twelve thousand children passed through the Theresien stadt internment camp near Prague on their way to Auschwitz Only a few hundred of them survived the war In The Girls of Room 28 ten of these children mothers and grandmothers today in their seventies tell us how they did it The Jews deported to Theresien stadt from countries all over Europe were aware of the fate that awaited them and they decided that it was the young people who had the best chance to survive Keeping these adolescents alive keeping them whole in body mind and spirit became the priority They were housed separately in dormitory like barracks where they had a greater chance of staying healthy and better access to food and where counselors young men and women who had been teachers and youth workers created a disciplined environment despite the surrounding horrors. The counselors also made available to the young people the talents of an amazing array of world class artists musicians and playwrights European Jews who were also on their way to Auschwitz Under their instruction the children produced art poetry and music and they performed in theatrical productions most notably Brundibar the legendary children's opera that celebrates the triumph of good over evil In the mid 1990s German journalist Hannelore Brenner met ten of these child survivors women in their late seventies today who reunite every year at a resort in the Czech Republic Weaving her interviews with the women together with excerpts from diaries that were kept secretly during the war and samples of the art music and poetry created at Theresienstadt Brenner gives us an unprecedented picture of daily life there and of the extraordinary strength sacrifice and indomitable will that combined in the girls and in their caretakers to make survival possible Jewish Curriculum and Resource Guide for the Armed Forces ,1985

Notable Americans of Czechoslovak Ancestry in Arts and Letters and in Education Miloslav Rechcigl Jr.,2021-11-02 As pointed out in my last two publications no comprehensive study has been undertaken about the American Learned Men and Women with Czechoslovak roots The aim of this work is to correct this glaring deficiency with the focus on immigration from the period of mass migration and beyond irrespective whether they were born in their European ancestral homes or whether they have descended from them Whereas in the two mentioned monographs the emphasis has been on scholars and social and natural scientists and men and women in medicine applied sciences and engineering respectively the present compendium deals with notable Americans of Czechoslovak ancestry in arts and letters and in education With respect to women although most professional fields were closed to them through much of the nineteenth century the area of arts and letters was opened to them as noted earlier and as this compendium authenticates A Meaning-Based Approach to Art Therapy Elizabeth Hlavek, 2022-09-22 A Meaning Based Approach to Art Therapy contextualizes the phenomena of Holocaust artwork for the field of art therapy and uses this canon of artwork to support the inclusion of logotherapy into art therapy theory and practice The author expounds on a study in which she interviewed surviving Holocaust artists about how they were able to create their artworks while in Nazi captivity Divided into three parts the book follows the chronological

order of her inquiry It first presents theory then research and ends with implications for the practice of art therapy The research chapters set out the process and results of the author's phenomenological inquiry They address how art making during the Holocaust allowed captive artists to bear witness leave a legacy and retain their humanity In the final part the author reveals how art therapists can use concepts from her study to support the progress of their clients She advocates for the application of logotherapy an existential philosophy that emphasizes finding meaning to facilitate healing and personal growth Practicing art therapists and students of art therapy will find this book to be an excellent resource on logotherapy an updated perspective on existentialism and a contemporary examination of phenomenology Disaster Drawn Hillary L. Chute, 2016-01-12 In hard hitting accounts of Auschwitz Bosnia Palestine and Hiroshima's Ground Zero comics have shown a stunning capacity to bear witness to trauma Hillary Chute explores the ways graphic narratives by diverse artists including Jacques Callot Francisco Goya Keiji Nakazawa Art Spiegelman and Joe Sacco document the disasters of war Catalog of **Copyright Entries. Third Series** Library of Congress. Copyright Office,1973 Life in the Ghettos During the Holocaust Eric J. Sterling, 2005-07-08 This book focuses on Jewish life before Jews lost their autonomy and fell totally under Nazi power With contributions from survivors of the ghettos throughout Poland Czechoslovakia and Hungary and from prominent scholars this book covers Jewish daily life and governance the Judenrat the Warsaw Ghetto uprising smuggling housing death and religious life and comprises historical and cultural essays The selection of work combines a range scope and narrative rarely available in one volume Ghettos varied depending on the time circumstance and place in which they were created A combination of scholarly assessment and eyewitness accounts this book clearly elucidates these differences some ghettos were ad hoc arrangements intended only as way stations while others were final destinations The Threshold of the Visible World Kaja Silverman, 2013-11-19 In The Threshold of the Visible World Kaja Silverman advances a revolutionary new political aesthetic exploring the possibilities for looking beyond the restrictive mandates of the self and the normative aspects of the cultural image repertoire. She provides a detailed account of the social and psychic forces which constrain us to look and identify in normative ways and the violence which that normativity implies
