marriage romance bromance and family Exploring the series bold merger of the spy genre and domestic melodrama author Linda Mizejewski focuses on the characters and relationships that made this series memorable the extraordinary women who defy the femme fatale stereotype of the spy genre the conflicted men and perhaps most shockingly the children who are both victims and provocateurs Do viewers of this Cold War thriller root for the good guys the American agents in pursuit of the Jennings or for the Jennings themselves the attractive couple whose personal stories compel us even as they plot the takedown of the United States Mizejewski argues for the importance of The Americans portrayal of 1980s suburban life as a microcosm of the moral complexities of citizenship and national identity Drawing on television studies and feminist media theory this book examines the series seamless loop of espionage violence and family melodrama as well as its savvy uses of 1980s pop culture and music Far from invoking nostalgia the replication of the 1980s look invokes uncertainties about how exactly we should see Reagan s America and the Cold War Yet the appeal of this series rests on solid footing in the Americanism it both critiques and espouses Mizejewski examines The Americans struggles with this ambiguity and with the contradictions of identity gender marriage and the meanings of home Everyone from scholars and students of television and media studies genre studies gender and sexuality studies and popular culture to superfans who can t believe the show is over will revel in this highly approachable and fun read

*The History of Sex in American Film* Jody Pennington,2007-07-30 Although American films especially Hollywood fare are often belittled for their one dimensional portrayal of sex a close examination of the history of sex in American motion pictures reveals that American cinema has actually represented sex in myriad ways A more complete understanding of the ways in which sex has been represented onscreen requires an approach that pays equal attention to cinematic techniques and to the diversity of sexual values and behaviors in American society It is necessary to frame this discussion within the multiple contradictions of an industry that has both repressed and represented sex with equal fervor over the course of its history of audiences that have both taken offense at and flocked to films with sexual themes and a body politic that has regulated the sexual in popular culture even as its discourse has been saturated with sexual images and topics The History of Sex in American Cinema moves seamlessly between general film and social history to clarify how exactly sex has been expressed cinematically and how we have responded to those expressions as a culture In March of 1965 the Supreme Court put into motion legal changes that marked the end of local film censorship as it had existed since the early years of the twentieth century In Hollywood that same year The Pawnbroker was released with a Production Code Seal of Approval despite nudity that violated that Code As sexual liberation occurred onscreen parallel developments occurred in the way we lived our lives and by the end of the 1960s Americans were having sex more often and with more partners than ever before There was also now a public debate surrounding sexuality and one of the loudest and most continually active voices in this debate was that of American film This work begins with an examination of some of the earliest altercations in what later came to be known as the culture wars and follows those skirmishes more often than not

provoked by American film up to the modern day By looking at how sex in the cinema has contributed to the demise of the fragile consensus between liberals and conservatives on freedom of expression The History of Sex in American Film suggests a perspective from which today's culture wars can be better understood This work combines close readings of many representative films including Who's Afraid of Virginia Woolf The Graduate Blue Velvet Philadelphia L A Confidential and Closer with a social and historical account of the most significant changes in American sexual behavior and sexual representation over the past fifty years

Shame and the Aging Woman J. Brooks Bouson, 2016-08-19 This book brings together the research findings of contemporary feminist age studies scholars shame theorists and feminist gerontologists in order to unfurl the affective dynamics of gendered ageism In her analysis of what she calls embodied shame J Brooks Bouson describes older women's shame about the visible signs of aging and the health and appearance of their bodies as they undergo the normal processes of bodily aging Examining both fictional and nonfiction works by contemporary North American and British women authors this book offers a sustained analysis of the various ways that ageism devalues and damages the identities of otherwise psychologically healthy women in our graying

Naipaul and Toni Morrison**

Alshaymaa Mohamed Ahmed, 2022-07-07 Comparative Postcolonialism in the Works of V S Naipaul and Toni Morrison Fragmented Identities begins with an overview of its theoretical framework highlighting the intersectional relationship between postcolonial literature and comparative literature Tracing selected novels by Naipaul and Morrison the book takes as a starting point Fanon's three phase journey of the decolonizing process In the first phase of mimicry Naipaul's and Morrison's earlier novels represent the assimilation of indigenous people into dominant hegemonic cultures The second phase is envisioned as the re narration or re interpretation of the past and old legends of indigenous culture Morrison succeeds in asserting that her ancestors past is the only way to celebrate a cultural identity but Naipaul tends to criticize and neglect his past and his original indigenous culture The third phase marks the emergence of a revolutionary literature in which Naipaul and Morrison guide their people to hybridity as a new way of becoming and resisting the hegemonic dichotomies in dominant societies
