The New Politics Of Crime And Punishment:

The New Politics of Crime and Punishment Roger Matthews, Jock Young, 2003 This book provides an overview of recent government initiatives in the field of crime and punishment reviewing both the policies themselves the perceived problems and issues they seek to address and the broader social and political context in which this is taking place The underlying theme of the book is that a qualitative change has taken place in the politics of crime control in the UK since the early 1990s Although crime has stabilised imprisonment rates continue to climb there is a new mood of punitiveness and crime has become a central policy issue for the government no longer just a technical matter of law enforcement At the same time the politics of crime control have taken on a pronounced gender race and age preoccupation There are many parallels with the changing nature of crime control in the USA and the contributors draw on international comparisons in their respective chapters The book brings together a team of contributors based at Middlesex University one of the leading criminology schools in the UK This book will further enhance its reputation at the leading edge of criminological scholarship and will be essential reading for anybody seeking an understanding of why crime and criminal justice policy have risen to the top of the political agenda

The New Politics of Crime and Punishment Roger Matthews, Jock Young, 2013-01-11 This book provides an overview of recent government initiatives in the field of crime and punishment reviewing both the policies themselves the perceived problems and issues they seek to address and the broader social and political context in which this is taking place The underlying theme of the book is that a qualitative change has taken place in the politics of crime control in the UK since the early 1990s Although crime has stabilised imprisonment rates continue to climb there is a new mood of punitiveness and crime has become a central policy issue for the government no longer just a technical matter of law enforcement At the same time the politics of crime control have taken on a pronounced gender race and age preoccupation This book will be essential reading for anybody seeking an understanding of why crime and criminal justice policy have risen to the top of the political agenda

The New Politics of Race Howard Winant, 2004 The New Politics of Race brings together Winant's new and previously published essays to form a comprehensive picture of the origins and nature of the complex racial politics that engulf us today

The New Politics of Youth Crime J. Pitts, 2000-07-31 The New Politics of Youth Crime argues that the centrality of law and order to the New Labour project has generated a youth justice strategy which threatens to deepen the problems it purports to solve Analysing the profound changes in UK youth crime in the 1980s this book posits the French Social Prevention Initiative of the 1980s as an alternative model for a genuinely joined up social democratic response to the increasingly complex problem of youth crime in Europe

The New Politics of Class Geoffrey Evans, James Tilley, 2017 This book explores the new politics of class in 21st century Britain It shows how the changing shape of the class structure since 1945 has led political parties to change which has both reduced class voting and increased class non voting This argument is developed in three stages The first is to show that there has been enormous social continuity in class divisions

The authors demonstrate this using extensive evidence on class and educational inequality perceptions of inequality identity and awareness and political attitudes over more than fifty years The second stage is to show that there has been enormous political change in response to changing class sizes Party policies politicians rhetoric and the social composition of political elites have radically altered Parties offer similar policies appeal less to specific classes and are populated by people from more similar backgrounds Simultaneously the mass media have stopped talking about the politics of class The third stage is to show that these political changes have had three major consequences First as Labour and the Conservatives became more similar class differences in party preferences disappeared Second new parties most notably UKIP have taken working class voters from the mainstream parties Third and most importantly the lack of choice offered by the mainstream parties has led to a huge increase in class based abstention from voting Working class people have become much less likely to vote In that sense Britain appears to have followed the US down a path of working class political exclusion ultimately undermining the representativeness of our democracy They conclude with a discussion of the Brexit referendum and the role that working class alienation played in its historic outcome

Desistance Transitions and the Impact of Probation Sam

King,2013-10-01 Moving away from criminal behaviour can be fraught with difficulties Often it can involve leaving behind old habits customs and even friends while at the same time adopting a new way of life How do individuals go about making a decision to give up crime How do they plan to sustain this decision And in what ways does probation help This book explores these questions Based on in depth interviews with a group of men under probation supervision Sam King investigates the factors associated with making a decision to desist from crime The book examines strategies for desistance and explores the factors that individuals consider when they are thinking about how they will desist In doing so the book sheds new light on existing understandings of desistance from crime and helps to develop our understandings of the role that individuals play in constructing their own desistance journeys This book also highlights the role of probation in this process offering a timely and critical review of the nature of probation under the New Labour government in the UK between 1997 2010 The findings indicate that we should allow Probation Officers greater autonomy and discretion within their roles and that we should free them from the bureaucracy of risk assessment and targets Moreover the book warns against the potential fragmentation of community supervision As such the book will be of interest to criminology students researchers academics policymakers and practitioners particularly those who work with ex offenders in the community
