

# CHRONOLOGY OF THE NEW WORLD ORDER

by Dennis Laurence Cuddy, Ph.D.

with Editorial Notes

by Robert Henry Goldsborough

The Gulf War has been presented to the American people as a conflict between the forces of freedom and justice against Saddam Hussein, a cold-blooded murderer and tyrant. Murderer and tyrant he most certainly is, but now that the conflict is over, and Hussein still firmly in power, thoughtful Americans are beginning to question the true motives behind the costly display of force that has devastated the country of Iraq.

In urging Congress to commit us to war, President Bush described the Gulf crisis as "a rare opportunity to move toward an historic period of cooperation. Out of these troubled times . . . a new world order can emerge." We read this phrase--New World Order--not only on the President's lips but on the lips and in the columns of many other notables. Described as the collective will of the nations of the world, imposed through the agency of the United Nations on all those who violate international law, the New World Order seems to bear an international stamp of approval as the solution to worldwide economic and political woes.

But before Americans hop on the New World Order bandwagon, they deserve the answers to a number of questions. Who will determine just how and why UN forces will be deployed? Will the New World Order be invoked to free Palestinians from Israeli domination or Croatia from Serbian subjugation? Will UN forces attack China because of human rights violations? In other words, will UN forces, composed mostly of Americans, be deployed to insure ethnic self-determination or will these forces be the agents of oppression and tyranny? Will the New World Order be an instrument of justice and freedom, or will its international bureaucracy act to protect entrenched economic interests? Will the international law of the New World Order be grounded in the principles of the *Constitution* and the *Bill of Rights*, or in the hammer and the iron fist?

Just what is the meaning of the term "New World Order" and how did it evolve? The chronology presented here, beginning with the period preceding World War I and ending with the aftermath of the Gulf War, answers these and other questions about this suddenly-favored international mandate--not so new as it would seem but grounded in years of careful planning--and illustrates, as well, strange parallels between the two conflicts.

Azoulay, 2019-11-19 A passionately urgent call for all of us to unlearn imperialism and repair the violent world we share from one of our most compelling political theorists In this theoretical tour de force renowned scholar Ariella A sha Azoulay calls on us to recognize the imperial foundations of knowledge and to refuse its strictures and its many violences Azoulay argues that the institutions that make our world from archives and museums to ideas of sovereignty and human rights to history itself are all dependent on imperial modes of thinking Imperialism has segmented populations into differentially governed groups continually emphasized the possibility of progress while it tries to destroy what came before and voraciously seeks out the new by sealing the past away in dusty archival boxes and the glass vitrines of museums By practicing what she calls potential history Azoulay argues that we can still refuse the original imperial violence that shattered communities lives and worlds from native peoples in the Americas at the moment of conquest to the Congo ruled by Belgium s brutal King Leopold II from dispossessed Palestinians in 1948 to displaced refugees in our own day In Potential History Azoulay travels alongside historical companions an old Palestinian man who refused to leave his village in 1948 an anonymous woman in war ravaged

Berlin looted objects and documents torn from their worlds and now housed in archives and museums to chart the ways imperialism has sought to order time space and politics Rather than looking for a new future Azoulay calls upon us to rewind history and unlearn our imperial rights to continue to refuse imperial violence by making present what was invented as past and making the repair of torn worlds the substance of politics
