means to produce rather short films of subjects that were generally comedic and often quite childish. However, things have changed and they continue changing at a maddening pace. One new technique after another has made it easier, faster, and above all cheaper to produce the material, which has taken on an increasing variety of forms. *The A to Z of Animation and Cartoons* is an introduction to all aspects of animation history and its development as a technology and industry beyond the familiar cartoons from the Disney and Warner Bros. Studios. This is done through a chronology, an introductory essay, photos, a bibliography, and over 200 cross-referenced dictionary entries on animators, directors, studios, techniques, films, and some of the best-known characters.

The Film Daily Year Book, 1928 **Saul Steinberg** Joel Smith, Vassar College. Frances Lehman Loeb Art Center, Morgan Library & Museum (New York, N.Y.), Cincinnati Art Museum, Smithsonian American Art Museum, 2006-01-01. Best known for his barbed and brilliant art for *The New Yorker*, Saul Steinberg (1914-1999) turned his magic touch to the fields of painting, sculpture, advertising, and even wartime propaganda. This is the first comprehensive look at Steinberg's extraordinary contribution to 20th-century art.

All Except You Roland Barthes, 2023. Roland Barthes's consideration of the drawings of New York artist Saul Steinberg, originally an artist book posthumously published in France in 1983, is historically important as one of the last remaining books in Barthes's oeuvre to be translated into English. All except you continues Barthes's inquiries into image-text relations, specifically the indiscernible horizon where writing meets drawing, one becoming the other. In his attempt to blur these registers, he produces less a critique than a translation, an attempt to merge author and artist to see himself and his desire in the work of Steinberg using the resources of structural linguistics and psychoanalysis. The impertinence of his critique mimics the deformations of Steinberg's drawings that are sassy, deformed by the look on high, stretched, excessively crunched. We become suspicious that Barthes is writing more into Steinberg than Steinberg holds or even that Steinberg is an alibi for some other aim that is withheld. Joe Milutis's translation takes the opportunity of a running commentary in the form of translator's notes to amplify Barthes's impertinent reading and authorial on-upmanship by speculating on the presumed failures and detoured transferences of the text. Since Barthes is less concerned with writing about art than writing through it, Milutis's double session perhaps provides the most faithful translation of the Barthesian eros in his write-through of the write-through.

Roland Barthes (1915-1980) was one of the most influential writers and theoreticians of the 20th century, expanding our notions of what constitutes a literary text and writing itself. He is the author of *Mythologies*, *Writing Degree Zero*, *The Pleasure of the Text*, and *Camera Lucida*. Joe Milutis is a writer, media artist, and Associate Professor of Interdisciplinary Arts and the MFA in Creative Writing and Poetics at the University of Washington Bothell. He is the author of *Failure: A Writer's Life*, *Zer0 Books* (2013), and *Ether: The Nothing That Connects Everything* (Minnesota, 2006).
