**Animal Oppression and Human Violence** David Nibert, 2013-04-30 By comparing practices of animal exploitation for food and resources in different societies over time David A Nibert finds in the domestication of animals which he renames domesecration a perversion of human ethics the development of large scale acts of violence disastrous patterns of destruction and epidemics of infectious disease

**The Gnu's World** Richard Estes, 2014-04-12 This is the first scholarly book on the antelope that dominates the savanna ecosystems of eastern and southern Africa It presents a synthesis of research conducted over a span of fifty years mainly on the wildebeest in the Ngorongoro and Serengeti ecosystems where eighty percent of the world's wildebeest population lives Wildebeest and other grazing mammals drive the ecology and evolution of the savanna ecosystem

Richard D Estes describes this process and also details the wildebeest's life history focusing on its social organization and unique reproductive system which are adapted to the animal's epic annual migrations. He also examines conservation issues that affect wildebeest including range wide population declines.

**Indigenous Heritage** Michelle Whitford, Lisa Ruhanen, 2021-07-21 History shows that travellers sought to experience the unfamiliar and exotic cultures and traditions of Indigenous peoples with early examples of Indigenous tourism in the United States Canada Scandinavia Australia New Zealand and countries throughout Asia and Latin America. Similarly contemporary travellers demonstrate a desire to seek out opportunities to experience Indigenous peoples and their cultures. Thus we are witnessing worldwide growth in the awareness of and interest in Indigenous cultures traditions histories and knowledges. Engagement in the tourism sector is regularly advocated for Indigenous peoples because of the socio economic opportunities it provides however there are a range of cultural benefits including the maintenance rejuvenation and or preservation of Indigenous cultures knowledges and traditions for Indigenous peoples who choose tourism as a vehicle to showcase their cultures. Consequently tourism is regularly acknowledged as a means for facilitating the sustainability of tangible and intangible Indigenous cultural heritage including languages stories art dance rituals and customs. Importantly however the history of Indigenous peoples engagement in tourism has provided a range of examples of the threats to Indigenous culture that can accrue as a result of tourism i.e cultural degradation commercialisation and commodification authenticity and identity among others. This book presents an exploration of the intersection between tourism and Indigenous culture. The chapters in this book were originally published as a special issue of the Journal of Heritage Tourism.

**Serengeti IV** Anthony R. E. Sinclair, Kristine L. Metzger, Simon A. R. Mduma, John M. Fryxell, 2015-05-11 The vast savannas and great migrations of the Serengeti conjure impressions of a harmonious and balanced ecosystem. But in reality the history of the Serengeti is rife with battles between human and non human nature. In the 1890s and several times since the cattle virus rinderpest at last vanquished in 2008 devastated both domesticated and wild ungulate populations as well as the lives of humans and other animals who depended on them. In the 1920s tourists armed with the world's most expensive hunting gear filled the grasslands. And in recent years violence in Tanzania has threatened one of the most successful long term ecological research centers in history. Serengeti IV the latest installment in a long standing series on the region's ecology and biodiversity explores the role of our species as a source of both discord and balance in Serengeti ecosystem dynamics. Through chapters charting the complexities of infectious disease transmission across populations agricultural expansion and the many challenges of managing this ecosystem today this book shows how the people and landscapes surrounding crucial protected areas like Serengeti National Park can and must contribute to Serengeti conservation. In order to succeed conservation efforts must also focus on the welfare of indigenous peoples allowing them both to sustain their agricultural practices and to benefit from the natural resources provided by protected areas an undertaking that will require the strengthening of government and education.

systems and as such will present one of the greatest conservation challenges of the next century **Four of Diamonds** Alan Pilkington, 2006-08 Rex spent a quiet Christmas Day He opened the parcel from his family it contained a leather fishing fly wallet from his father a knitted woolen sweater from his mother and a book titled *The Spell of the Yukon* by Robert Service from Margorie He re read his father's letters and rested and after a big dinner in the cookhouse at midday with those station men who had not left to join their families he fished in the Upper Murray River until evening The cook had left after cleaning the kitchen following Christmas dinner and Rex had the big kitchen to himself He fried two small trout in butter for tea and ate alone enjoying his solitude in the evening without loneliness He sat quietly on the verandah of the bunkhouse listening to the water from the windmill sprinkling the orchard and to the birds roosting in the box trees that lined the homestead's driveway Rex was thinking about his family and his life and he wondered when he would see them again when his odyssey would be over **The Nature of German Imperialism** Bernhard Gissibl, 2016-07-01 Today the East African state of

Tanzania is renowned for wildlife preserves such as the Serengeti National Park the Ngorongoro Conservation Area and the Selous Game Reserve Yet few know that most of these initiatives emerged from decades of German colonial rule This book gives the first full account of Tanzanian wildlife conservation up until World War I focusing upon elephant hunting and the ivory trade as vital factors in a shift from exploitation to preservation that increasingly excluded indigenous Africans Analyzing the formative interactions between colonial governance and the natural world *The Nature of German Imperialism* situates East African wildlife policies within the global emergence of conservationist sensibilities around 1900

Jones, 2016-01-21 The Hadza an ethnic group indigenous to northern Tanzania are one of the few remaining hunter gatherer populations Archaeology shows 130 000 years of hunting and gathering in their land but Hadza are rapidly losing areas vital to their way of life This book offers a unique opportunity to capture a disappearing lifestyle Blurton Jones interweaves data from ecology demography and evolutionary ecology to present a comprehensive analysis of the Hadza foragers Discussion centres on expansion of the adaptationist perspective beyond topics customarily studied in human behavioural ecology to interpret a wider range of anthropological concepts Analysing behavioural aspects with a specific focus on relationships and their wider impact on the population this book reports the demographic consequences of different patterns of marriage and the availability of helpers such as husbands children and grandmothers Essential for researchers and graduate students alike this book will challenge preconceptions of human sociobiology      *Place and Tourism Promotion* Edmund Christopher Matotay, 2010-04-16 Cities around the world adopt place promotion and marketing activities as one of their development

strategies They do this through engaging in selling their images through the use of sceneries like national parks museums historic monuments and flag institutions such as hotels and conference facilities These sceneries and flag institutions act as symbols to profile and market these cities to the world for different socio economic purposes The present book exposes some findings derived from two major study objectives done in Tanzania One of the the objectives was to find out different place promotion strategies in Arusha and the other was to set out to find the impact of the place promotion strategies on tourism Reasons for place promotion and the targets of the strategies are also widely covered in the book In its specialized chapters the book reveals that there are three major elements of place promotion in use in the northern Tanzanian tourist city of Arusha These are national parks and game reserves located in Arusha like Arusha National Park Manyara National Park Serengeti National Park and Ngorongoro Conservation Area The city of Arusha also uses flag institutions in and around Arusha like The Arusha International Conference Centre AICC Arusha Natural Museum The Arusha Declaration Museum The Cultural Villages of El Kiding a and best Hotels to profile itself to the world Gratifyingly the book exposes that the main reasons for these strategies are to boost tourism in the city and that most of the targets of these strategies are international tourists Through the good use of the strategies and the city revenues turnover the region itself has been enormously popular and the number of visits to the attractive sceneries and flag institutions has been growing steadily over the years
