Reading Mennonite Writing Robert Zacharias, 2022-05-12 Mennonite literature has long been viewed as an expression of community identity However scholars in Mennonite literary studies have urged a reconsideration of the field's past and a reconceptualization of its future This is exactly what Reading Mennonite Writing does Drawing on the transnational turn in literary studies Robert Zacharias positions Mennonite literature in North America as a mode of circulation and reading rather than an expression of a distinct community He tests this reframing with a series of methodological experiments that open new avenues of critical engagement with the field's unique configuration of faith-based intercultural difference These include cross-sectional readings in nonnarrative literary history archival readings of transatlantic life writing Canadian rewritings of Mexican film's deployment of Mennonite theology as fantasy an examination of the fetishistic structure of ethnicity as a thing that has enabled Mennonite identity to function in a post-identity age and finally a tentative reinvestment in ideals of Mennonite community via the surprising routes of queerness and speculative fiction In so doing Zacharias reads Mennonite writing in North America as a useful case study in the shifting position of minor literatures in the wake of the transnational turn Theoretically sophisticated this study of minor transnationalism will appeal to specialists in Mennonite literature and to scholars working in the broader field of transnational literary studies

The Curious Death of the Novel Louis D. Rubin, Jr., 1999-03-01 One of the country's more perceptive younger critics Louis Rubin is well known for his commentaries on the literature of the South These essays selected from his critical works over a period of more than a dozen years reflect his wider concern with the whole spectrum of American literature In the title essay Rubin treats tired literary critics and the often heard pronouncement that the novel is dead He argues that the response of novelists to our difficult and demanding times will doubtless be what the response of writers to difficult and demanding times always has been namely difficult and demanding works of literature Another essay The Experience Difference Southerners and Jews is a perceptive examination of the parallels in different factors and cultural experiences which brought Southern and Jewish writers to prominence Rubin explores the potential pitfalls for Southern writers today in an essay called Getting Out From Under William Faulkner Edgar Allan Poe's position in American literary history and H L Menckens role as a literary critic and an artist of destruction who cleared the way and created an audience for the major American writers of the twenties are dealt with in other essays The collection includes imaginative studies of Henry James Mark Twain Edmund Wilson and Karl Shapiro Several Southern writers including Faulkner Ellen Glasgow Robert Penn Warren Flannery O'Connor and James Branch Cabell also come under Rubins scrutiny

**Music and Poetry** Sidney Lanier, Music and Poetry Essays Sidney Lanier, **Music & Poetry in the Early Tudor Court** John Stevens, 1961 While the music of the Elizabethans is widely known that of the early Tudors is

still mostly unpublished Dr Stevens provides a scholarly study of this unaccountably neglected subject and gives the first full description of three song books which contain virtually all that remains of English secular song from 1480-1530. Beginning with a detailed description of the song books he goes on to discuss the relationship between music and poetry during the period before the Reformation. This is followed by a description of the tradition of the courtly makers from Chaucer to Wyatt including an important section on the social manifestations of courtly love and he deals thoroughly with the role of the musician and the quality of musical life at the time. This is a book which for the first time provides the relevant musical and social information on which a fresh assessment of the poetry of the early Tudors can be based. Dr Stevens's conclusions lead him to question the prevailing view that there was an idealized union of poetry and music in early Tudor England which led up to and culminated in the great Elizabethans. The literary text of the songs in the three song books is given in an appendix together with a commentary, a first line index of some 370 songs and a list of sources. *The Double Dealer*, 1921

**American Book Publishing Record**, 1968 **SELECT POEMS** John M. Bennett, 2016 Poetry Visual Poetry A selection from over 40 years of Bennett's work introduced by Ivan Argüelles. Where to begin writing about this baffling and certainly most avant-garde of all poets living and working in the USA today? Bennett's reputation is international and his interest in Mesoamerican culture has drawn him frequently to that part of the world where he is a recognized figure. His experimentations over the years have encompassed multiple techniques including visual poetry and his own polyglottery moving in and out of English, Spanish, Portuguese, French or some Mesoamerican language. What may seem aleatory is in fact more intentional and grounded than is first apparent. Bennett has roots in traditional literatures: those of Siglo de Oro Spain and of Elizabethan England, but he is capable of transducing those literatures, metamorphosing them by way of the avant-garde movements of the 20th century into something utterly innovative and new, such as few contemporary artists have done.

**Poetry on Stage** Gianluca Rizzo, 2020-08-26 Poetry on Stage focuses on exchanges between the writers of the Italian neo-avant-garde with the actors, directors and playwrights of the Nuovo Teatro. The book sheds light on a forgotten chapter of twentieth-century Italian literature, arguing that the theatre was the ideal incubator for stylistic and linguistic experiments and a means through which authors could establish direct contact with their audience and verify solutions to the practical and theoretical problems raised by their stances in politics and poetics. A robust analysis of a number of exemplary texts grounds these issues in the plays and poems produced at the time and connects them with the experimentations subsequently carried out by some of the same artists. In-depth interviews with four of the most influential figures in the field, critic Valentina Valentini, actor and director Pippo Di Marca, author Giuliano Scabia and the late poet Nanni Balestrini, conclude the volume, providing invaluable first-hand testimony that brings to life the people and controversies discussed.

Sussman, 1989-02-09 At the heart of this important new book is the tension between literacy and the open acknowledgement of discrepancies within social and linguistic fields on the one hand and what Sussman terms the resolving function the utopian picture of harmony depicted by the state and large organizations on the other After discussing some examples of the resolving function Barthes's notion of the myth Kundera's fictional treatment of kitsch and contemporary television Sussman draws on a line of theoretical inquiry extending from Saussure to Derrida in order to put forth a differential model of literacy in which the skills necessary to participate productively in culture are more disjunctive than associative in nature Awareness of the discrepancies set into play by language is necessary he argues for both the individual and the society to understand the complex and sometimes contradictory web of socioeconomic political and semiological relations in which they are involved Combining literary theory with close textual readings of works by Hawthorne Melville Wallace Stevens Ezra Pound William

Carlos Williams and Italo Calvino this book is the first to explore the socio political correlatives to literary studies the mass media s ambivalence toward the linguistic apprehensions and skills that make them possible     *James Larkin Pearson*
