**Spiritual Turning Points of North American History** Luigi Morelli, 2010-10 This introduction to modern Indian thought establishes the historical context in which Indian thinkers of the past century developed their ideas, showing how those ideas comprise a coherent vision that is both Indian and contemporary. *The Spirit of Modern India* offers a full treatment of these ideas in an intelligible and concise approach and format. Despite a growing interest in Indian thought and life, the best writings of major twentieth-century thinkers have not been well presented within their cultural framework. This is the first single volume to offer such a wide representation of India's experience and scholarship through traditional and contemporary strains as articulated by her greatest modern thinkers. The period designated modern refers to the remarkable century between the mid 1800s and the mid 1900s. *The Spirit of Modern India* includes writings by Sri Ramakrishna, Vivekananda, Tagore, Gandhi, Nehru, Radhakrishnan, and Sri Aurobindo. These writings are arranged according to each era of Indian thought and culture: philosophy, religion, ethics, education, esthetics, and national vision. Each is introduced to illuminate the material and put the selections into their historical and cultural context. A chronology lists important dates and works of major authors and dates related to Indian and Western intellectual history. A glossary of important names and terms makes the more technical selections readily accessible. The bibliography will guide the reader to further reading. *The Spirit of Modern India* provides a valuable service to those who wish to better understand India and its modern roots.

Bertauski, 2010-12-08 The Paladin Nation is rebuilding Socket Greeny is leading them into a new era of compassion and understanding But when Pike returns Socket discovers nothing is what he expected that his life has been planned from the beginning He is faced with ultimate betrayal In the end he won't be asked to save the world It'll be the entire universe INTERVIEW WITH THE AUTHOR When did you start writing My first effort started with Socket Greeny It was a story I started for my son because he hated to read It didn't work but this character Socket took root It was the first time I felt

possessed by a character with a story to tell It took me 5 years and countless rewrites to get it right I waited by the mailbox after that but the giant paycheck never arrived If you can't make money why write fiction I didn't say you can't make money There are a lot of people out there with a good book whether it's romance dystopia science fiction or young adult I'm just a minnow in a crowded pond It took a good deal of networking and research to realize just how hard it is Thanks to epublishing I can get the book out That frees me up to write what inspires me Writing is the true love There's something deeply satisfying to have characters come to life in your mind and watch their stories unfold It's a deeper experience than reading someone else's story What do you want readers to get from your stories I've always been inspired by fearless writing that asked poignant questions questions like who am I and what is the universe Things that made me look at life slightly different books that exposed a layer of reality Writing in the young adult genre appealed to me most because that's the age I really craved those questions and answers I want readers to see the world slightly different What is your favorite character I love a bad bad antagonist that you can't entirely hate there's some smidgeon of redemption you feel inside this demented sorry character Heath Ledger's Joker A despicable character that didn't deserve an ounce of pity but for some reason I didn't hate him as much as I should have It's that character I find most intriguing In The Socket Greeny Saga the character Pike was my Joker
