**The Enchantments of Technology** Lee Bailey,2010-10-01 In The Enchantments of Technology Lee Worth Bailey erases the conventional distinction between myth and machine in order to explore the passionate foundations concealed in technological culture and address its complex ethical moral and social implications Bailey argues that technological society does not simply disenchant the world with its reductive methods and mechanical metaphors then shape machines with political motives but is also borne by a deeper subversive undertow of enchantment Addressing examples to explore the complexities of these enchantments his thought is full of illuminating examinations of seductively engaging technologies ranging from the old camera obscura to new automobiles robots airplanes and spaceships This volume builds on the work of numerous scholars including Jacques Ellul and Jean Brun on the phenomenological and spiritual aspects of technology Carl Jung on the archetypal collective unconscious approach to myth and Martin Heidegger on Being itself Bailey creates a dynamic interdisciplinary postmodern examination of how our machines and their environments embody not only reason but also desires

**The Enchantments of Mammon** Eugene McCarraher,2019-11-12 Eugene McCarraher challenges the conventional view of capitalism as a force for disenchantment From Puritan and evangelical valorizations of profit to the heavenly Fordist city the mystically animated corporation and the deification of the market capitalism has hijacked our intrinsic longing for divinity laying hold to our souls

The Enchantment of Modern Life Jane Bennett,2016-11-22 It is a commonplace that the modern world cannot be experienced as enchanted that the very concept of enchantment belongs to past ages of superstition Jane Bennett challenges that view She seeks to rehabilitate enchantment showing not only how it is still possible to experience genuine wonder but how such experience is crucial to motivating ethical behavior A creative blend of political theory philosophy and literary studies this book is a powerful and innovative contribution to an emerging interdisciplinary conversation about the deep connections between ethics aesthetics and politics As Bennett describes it enchantment is a sense of openness to the unusual the captivating and the disturbing in everyday life She guides us through a wide and often surprising range of sources of enchantment showing that we can still find enchantment in nature for example but also in such unexpected places as modern

technology advertising and even bureaucracy She then explains how everyday moments of enchantment can be cultivated to build an ethics of generosity stimulating the emotional energy and honing the perceptual refinement necessary to follow moral codes Throughout Bennett draws on thinkers and writers as diverse as Kant Schiller Thoreau Kafka Marx Weber Adorno and Deleuze With its range and daring *The Enchantment of Modern Life* is a provocative challenge to the centuries old narrative of disenchantment one that presents a new alter tale that discloses our profound attachment to the human and nonhuman world

*Enchantments of the Clinic* Carl P. Ellerman, 2010-06-02 Reflecting on his experience in the clinical trenches a pragmatic existential therapist offers a provocative study of power erotic influence and illusion in the clinical relationship Written in a conversational style that makes a challenging subject accessible to specialists in the clinical professions teachers and students of the psychological disciplines and scholars in the humanities and social sciences *Enchantments of the Clinic* introduces readers to interesting ways in which language ideas and speech as well as illusions of the clinical station enable therapists to cast an unintentional spell that captivates and charms unsuspecting patients Exposing this suggestive underworld of clinical experience where the high stakes game of persuasive dialogical therapy is often won or lost critical attention is focused on the erotization of the clinic the erotization of the clinician and the erotization of clinical confession Using dramatic examples from clinical practice Carl P Ellerman challenges prevailing dogmas of the therapeutic to demonstrate his thesis that enchantments of the clinic facilitate psychological healing if managed well but if mismanaged these volatile erotic enchantments may undermine the struggle against emotional illness in the clinical trenches This ambitious study of the clinical relationship also addresses the disturbing fact that we are dwelling in a postmodern era in which clinical nihilism is flourishing Ellerman conceives the dialogical therapist as a potentially dangerous ethically vulnerable therapeutic artiste whose strategic encounters in the postmodern clinic may be likened to aesthetic experiences in which an education to reality and a love of truth are obsolete or irrelevant notwithstanding a clinical masquerade that reinforces in spellbound patients a blind trust in the phantastic therapist s honesty truthfulness and intellectual integrity Embracing the Socratic mystique Ellerman offers a vigorous philosophic critique of clinical nihilism

**Recovering the Voice in Our Techno-Social World** Deborah Eicher-Catt, 2020-02-18 Using a communicological perspective *Recovering the Voice in our Techno Social World* On the Phone identifies voice phone in Greek as the essential medium for a re enchantment of human communication in our highly impersonal techno social environment This book is a response to the growing concern by social critics that we are becoming a de voiced society because of our preferences for hyper textual image based forms of electronic connectivity Ironically while we are increasingly on the phone we are sacrificing our vocality within immediate ear to ear relations Framed by the trope of enchantment Deborah Eicher Catt argues that the immediacy of the sounding voice calls us and enchants us to make possible productive moments of resonance in which we might cultivate an interpersonal resilience in today s fast paced media saturated environment Scholars of media studies communication and sociology will
