**Interpreting History in Sino-Japanese Relations** Caroline Rose, 2005-08-04 The first book length study to examine the re writing of school textbooks by the Japanese Education Ministry in an attempt to play down atrocities in China during World War II The famous textbook crisis in 1982 was at the centre of a diplomatic storm extending through the 1980s as Sino Japanese relations were beset by a series of political controversies This fascinating account of the period reveals that Chinese and Japanese policy makers were more concerned with changes taking place in international and domestic politics than with adopting a correct view of history *Japan, China and Networked Regionalism in East Asia* J. Rathus, 2011-10-04 Viewing the rise of China from Japan s perspective the author elucidates Japanese policy responses and their implications for regional institution building It fills a gap in knowledge about the development of East Asian regional institutions and Sino Japanese relationships **Inside China's Grand Strategy** Ye Zicheng, 2011-01-01 China s enormous size vast population abundant natural resources robust economy and modern military demonstrate that the nation has emerged as a great world power Inside China s Grand Strategy The Perspective from the People s Republic analyzes China s economic social political and military development assessing the extent of China s dominance Highly regarded Chinese scholar Ye Zicheng offers a rare insider s perspective on the country s geopolitical ambitions and strategic thinking Inside China s Grand Strategy argues that China s primary obstacle to achieving enduring status as a world power is its domestic state of affairs Ye examines the impact of unemployment corruption massive economic gaps between classes population size strains on natural and labor resources environmental degradation and other issues that impede China s continuing development Some analysts claim that repressive domestic policies threaten the country s goal of modernization but Ye points to China s recent inclusion in the G 20 as an indicator of future success Ye contends that China s progress hinges on many factors peaceful development extensive governmental reform with a system of checks and balances social and economic development on the mainland and strategies for reunification especially with Taiwan Ye asserts that military pressure may be required to integrate Taiwanese separatist forces but advises that development should remain China s primary goal because it will eventually lead to unification Although Ye argues that democracy is the only way to repair the corrupt systems that perpetuate economic inequality he specifies that a Western style democracy is not what China needs As the United States destiny is increasingly bound to China s growth and American policies are being evaluated in the realm of geopolitics it is important to gauge and understand China s ambitions An authoritative and up to date analysis from within Chinese society Inside China s Grand
