The Sino-Soviet Split Lorenz M. Lüthi, 2008-03-02 The collapse of the Sino Soviet alliance was one of the defining events of the Cold War revealing that the supposedly monolithic socialist camp was riddled with internal conflicts This book examines the causes of the split in particular the divisive role of Marxist Leninist ideology The Cambridge History of China: Volume 15, The People's Republic, Part 2, Revolutions Within the Chinese Revolution, 1966-1982 Roderick MacFarguhar, John K. Fairbank, Denis Crispin Twitchett, 1991-11-29 In continuing the post revolution study started in Volume 14 Volume 15 considers the developments in Mao s thoughts and how they related to China s government The most comprehensive account of this turbulent period in Chinese history Routledge Library Editions: International Relations Various, 2021-08-05 The 10 volumes in this set originally published between 1959 and 1986 analyze the process of radical foreign policy change explore Marxist Leninist models of international relations describe the significance of cultural relations in international affairs highlight the changing nature of political communities and changing patterns of government and examine the interaction between the realms of ethics and international relations Where Empires Collided Michael B. Share, 2007 Michael Share explores the historical relationship between Russia and the Chinese Eastern Periphery Hong Kong Taiwan and Macao Share's extensive research of archived materials shows that Russian and Soviet dealings with the Chinese Eastern Periphery were inextricably linked to broader international relationships with Great Britain Japan and the United States Mao's China and the Cold War Jian Chen, 2010-03-15 This comprehensive study of China's Cold War experience

reveals the crucial role Beijing played in shaping the orientation of the global Cold War and the confrontation between the United States and the Soviet Union The success of China's Communist revolution in 1949 set the stage Chen says The Korean War the Taiwan Strait crises and the Vietnam War all of which involved China as a central actor represented the only major hot conflicts during the Cold War period making East Asia the main battlefield of the Cold War while creating conditions to prevent the two superpowers from engaging in a direct military showdown Beijing's split with Moscow and rapprochement with Washington fundamentally transformed the international balance of power argues Chen eventually leading to the end of the Cold War with the collapse of the Soviet Empire and the decline of international communism Based on sources that include recently declassified Chinese documents the book offers pathbreaking insights into the course and outcome of the Cold War China's Quest John W. Garver, 2015-12-01 From its founding 65 years ago the People's Republic of China has evolved from an important yet chaotic and impoverished state whose power was more latent than real into a great power on the cusp of possessing the largest economy in the world Its path from the 1949 revolution to the present has been filled with twists and turns including internal upheavals a dramatic break with the Soviet Union the 1989 revolution wave and various wars and guasi wars against India the USSR Vietnam and South Korea Throughout it all international pressures have been omnipresent forcing the regime to periodically shift course In short the evolution of the PROC in world politics is an epic story and one of the most important developments in modern world history Yet to date there has been no authoritative history of China's foreign relations John Garver's monumental China's Quest not only addresses this gap it will almost certainly serve as the definitive work on the topic for years to come Garver one of the world's leading scholars of Chinese foreign policy covers a vast amount of ground and threads a core argument through the entirety of his account domestic political concerns regime survival in particular have been the primary force driving the People's Republic's foreign policy agenda The objective of communist regime survival he argues transcends the more rudimentary pursuit of national interests that realists focus on Indeed from 1949 onward domestic politics has been integral to the PROC s foreign policy choices Over the decades the regime s decisions in the realm of international politics have been dictated concerns about internal stability In the early days of the regime Mao and other part leaders were concerned with surviving in the face of American aggression Later they came to see the post Stalinist Soviet model as a threat to their revolutionary program and initiated a stunning break with Khrushchev regime Finally the collapse of other communist regimes in and after 1989 radically altered their relationships with capitalist powers and again preserving regime stability in a world where communism has been largely abandoned became paramount China's Quest the result of over a decade of research writing and analysis is both sweeping in breadth and encyclopedic in detail Quite simply it will be essential for any student or scholar with a strong interest in China s foreign policy In the spirit of the Red Banteng Antonie C.
