The Compensations of Plunder Justin M. Jacobs,2020-07-13 A very important contribution to the history of collecting in the new context of nationalism in China and in the West innovative and engaging American Historical Review From the 1790s until World War I Western museums filled their shelves with art and antiquities from around the world These objects are now widely regarded as stolen from their countries of origin and demands for their repatriation grow louder by the day In The Compensations of Plunder Justin M Jacobs brings to light the historical context of the exodus of cultural treasures from northwestern China Based on a close analysis of previously neglected archives in English French and Chinese Jacobs finds that many local elites in China acquiesced to the removal of art and antiquities abroad understanding their trade as currency for a cosmopolitan elite In the decades after the 1911 Revolution however these antiquities went from being diplomatic capital to disputed icons of the emerging nation state A new generation of Chinese scholars began to criminalize the prior activities of archaeologists erasing all memory of the pragmatic barter relationship that once existed in China Recovering the voices of those local officials scholars and laborers who shaped the global trade in antiquities The Compensations of Plunder brings historical grounding to a highly contentious topic in modern Chinese history and informs heated debates over cultural restitution throughout the world Clearly the result of a very meticulously researched project

The Compensations of Plunder is a well crafted and tremendously enjoyable read P r Cassel University of Michigan
