

made some exploratory remarks about a unitary party system, than the preliminary figures on the 1963 census were released. These revealed that Northern Nigeria had a population exceeding that of the three southern regions combined, by a margin sufficient to insure the north's perpetual control of the federal Parliament and government. This gave rise to strong feeling in the south and, particularly, in Eastern Nigeria, since the allegedly inflated figures of the east, in the 1962 census, were the ostensible reason for taking a new census in 1963. At one point, early in 1964, there was a separatist call from the Ibo Union (the Ibo tribe predominates in the east). This brief clamor subsided, but the tensions remain and, during 1964, found expression in a realignment of political parties and forces in anticipation of the 1964 elections.

Pakistan. The Development of its Laws and Constitution. Second edition. By ALAN GLEDHILL. The British Commonwealth. The Development of its Laws and Constitutions, Volume 8. Under the general editorship of George W. Keeton. [London: Stevens & Sons. 1967. xi and 393 pp. £4 17s. 6d.]

THE price should not affright, because this revised edition covers legal and constitutional history, the Constitution of 1962, and the personal laws and statute law of Pakistan, the last of which (excluding the constitutional documents) is to occupy fifteen thick volumes of the *Laws of Pakistan*. The method is like that employed in the volume on India. The laws and their history are expounded and illustrated concisely, without academic discussion. What the series promises is information such as can be used for almost any purpose, and this volume gives it with no distractions. For those interested in the capacity of a modern Muslim State to work a democratic constitution and to observe the Rule of Law this provides circumstantial, compelling and agreeable evidence. For those who need to know how a State can be, legally speaking, a full member of the Commonwealth and at the same time an Islamic republic, this is the only book, altogether convincing.

The unique feature called "Basic Democracies" (p. 116) is introduced with a rare personal comment, giving a glimpse of the author's sympathetic grasp of his protean complex of topics: "... local government boards provide the best training ground for national politicians and, while one could not expect it to be heard with patience in the Indo-Pakistan sub-continent today, it could be argued that constitutional progress . . . has introduced democratic government at the higher levels too fast to avoid the strains resulting from the slower progress at lower levels. . . ." No comment was (or is) necessary on the Supreme Court's finding that the average woman's vote was a second vote for a male relative (so that votes for women were frequently a farce): p. 219. Since the first edition in 1957 Pakistan has been through experiences which tested her commitment to constitutionality and indeed to law: this edition chronicles what has been achieved thereby, and it is possible that it will be more significant in this way than any other volume or edition in the series.

providing a complete and enthralling portrait of one of Australia's great men **Reason, Morality, and Law** John Keown DCL, Robert P. George, 2013-03-21 John Finnis is a pioneer in the development of a new yet classically grounded theory of natural law. His work offers a systematic philosophy of practical reasoning and moral choosing that addresses the great questions of the rational foundations of ethical judgments, the identification of moral norms, human agency and the freedom of the will, personal identity, the common good, the role and functions of law, the meaning of justice and the relationship of morality and politics to religion and the life of faith. The core of Finnis' theory articulated in his seminal work *Natural Law and Natural Rights* has profoundly influenced later work in the philosophy of law and moral and political philosophy, while his contributions to the ethical debates surrounding nuclear deterrence, abortion, euthanasia, sexual morality and religious freedom have powerfully demonstrated the practical implications of his natural law theory. This volume, which gathers eminent moral, legal and political philosophers and theologians to engage with John Finnis' work, offers the first sustained critical study of Finnis' contribution across the range of disciplines in which rational and morally upright choosing is a central concern. It includes a substantial response from Finnis himself in which he comments on each of their 27 essays and defends and develops his ideas and arguments. Report Committee on Madhouses, 1815 Reports Great Britain. Parliament. House of Lords, 1819 **Academic ambassadors, Pacific allies** Alice Garner, Diane Kirkby, 2018-10-25 This study is the first in-depth analysis of the Fulbright exchange program in a single country. Drawing on previously unexplored archives and oral history, the authors investigate the educational, political and diplomatic dimensions of a complex bi-national program as experienced by Australian and American scholars. The book begins with the postwar context of the scheme's origins, moves through its difficult Australian establishment during the early Cold War, the challenges posed by the Vietnam War and the impacts of civil rights and gender parity movements and late 20th-century economic belt tightening. How the program's goal of mutual understanding was understood and enacted across six decades lies at the heart of the book, which weaves institutional and individual experiences together with broader geopolitical issues. Bringing a complex and nuanced analysis to the Australia-US relationship, the authors offer fresh insights into the global significance of the Fulbright Program.

Intention and Identity John Finnis, 2011-04-07 The essays in *Intention and Identity* explore themes in Finnis' work touched on only lightly, if at all, in *Natural Law and Natural Rights*: developing profound accounts of personal identity and existence, group identity and common good, and intention and choice as action and self-shaping. In his many-faceted study of what it is to be a human person and a human community, Finnis not only engages with contemporary philosophers and bioethicists such as Peter Singer, Michael Lockwood and John Harris, but also with thinkers from other traditions such as Karol Wojtyła, John Paul II and with judges in the highest courts. He also offers illuminating and deeply considered readings of Shakespeare and Aquinas and debates with Roger Scruton, Joseph Raz, Hans Kelsen, John Rawls, Glanville Williams, Richard Posner, Ronald Dworkin and others. The role of intention in the criminal law and the law of civil wrongs is searchingly

explored through case law as are judicial attempts to understand conditional and preparatory intentions Moral or bioethical issues discussed include in vitro fertilization cloning abortion euthanasia and brain death patriotism multi culturalism and immigration The papers show the power of a sometimes neglected aspect of the new classical theory of natural law The volume includes previously unpublished papers on whether brain life is relevant to the beginning of a person s life on its relevance to the end of one s life and a substantial introduction in which John Finnis reflects on the changes in his thinking on personal reality and on how intention is to be analysed and understood and its moral significance appreciated

Proceedings of the ... Biennial Conference Library Association of Australia.
