Bybee,2002-07-01 Is it ever legitimate to redraw electoral districts on the basis of race In its long struggle with this question the U S Supreme Court has treated race conscious redistricting either as a requirement of political fairness or as an exercise in corrosive racial quotas Cutting through these contradictory positions Keith Bybee examines the theoretical foundations of

the Court's decisions and the ideological controversy those decisions have engendered. He uncovers erroneous assumptions about political identity on both sides of the debate and formulates new terms on which minority representation can be pursued. As Bybee shows, the Court has for the last twenty years encouraged a division between individualist and group concepts of political identity. He demonstrates convincingly that both individualist and group proponents share the misguided notion that political identity is formed prior to and apart from politics itself. According to Bybee, this mistaken identity should be abandoned for a more flexible, politically informed understanding of who the people really are. Thus, a misdirected debate will be replaced by a more considered discussion in which the people can speak for themselves even as the Court speaks on their behalf. Engaged in the politics of minority representation, the Court will be able to help citizens articulate and achieve more fruitful forms of political community.

Ensign, 1990 **Saints Herald**, 1887 **Littell's Living Age** Eliakim Littell, Robert S. Littell, 1854 **The Columbia History of American Television** Gary Richard Edgerton, 2007

Richly researched and engaging, *The Columbia History of American Television* tracks the growth of TV into a convergent technology, a global industry, a social catalyst, a viable art form, and a complex and dynamic reflection of the American mind and character. Renowned media historian Gary R. Edgerton follows the technological progress and increasing cultural relevance of television from its prehistory before 1947 to the Network Era (1948-1975) and the Cable Era (1976-1994). He considers the remodeling of television's look and purpose during World War II, the gender, racial, and ethnic components of its early broadcasts and audiences, its transformation of postwar America, and its function in the political life of the country. In conclusion, Edgerton takes a discerning look at our current Digital Era and the new forms of instantaneous communication that continue to change America's social, political, and economic landscape.
