Site Specific Art:

Site-Specific Art Nick Kaye, 2013-04-15 Site Specific Art charts the development of an experimental art form in an experimental way Nick Kaye traces the fascinating historical antecedents of today's installation and performance art while also assembling a unique documentation of contemporary practice around the world The book is divided into individual analyses of the themes of space materials site and frames These are interspersed by specially commissioned documentary artwork from some of the world's foremost practitioners and artists working today This interweaving of critique and creativity has never been achieved on this scale before Site Specific Art investigates the relationship of architectural theory to an understanding of contemporary site related art and performance and rigorously questions how such works can be documented The artistic processes involved are demonstrated through entirely new primary articles from Meredith Monk Station House Opera Brith Gof Forced Entertainment This volume is an astonishing contribution to debates around experimental cross arts practice

One Place after Another Miwon Kwon, 2004-02-27 A critical history of site specific art since the late 1960s Site specific art emerged in the late 1960s in reaction to the growing commodification of art and the prevailing ideals of art's autonomy and universality Throughout the 1970s and 1980s as site specific art intersected with land art process art performance art conceptual art installation art institutional critique community based art and public art its creators insisted on the inseparability of the work and its context In recent years however the presumption of unrepeatability and immobility encapsulated in Richard Serra's famous dictum to remove the work is to destroy the work is being challenged by new models of site specificity and changes in institutional and market forces One Place after Another offers a critical history of site specific art since the late 1960s and a theoretical framework for examining the rhetoric of aesthetic vanguardism and political progressivism associated with its many permutations Informed by urban theory postmodernist criticism in art and architecture and debates concerning identity politics and the public sphere the book addresses the siting of art as more than an artistic problem It examines site specificity as a complex cipher of the unstable relationship between location and identity in the era of late capitalism The book addresses the work of among others John Ahearn Mark Dion Andrea Fraser Donald Judd Renee Green Suzanne Lacy Inigo Manglano Ovalle Richard Serra Mierle Laderman Ukeles and Fred Wilson

Exploring Site-specific Art Judith Rugg, 2010-02-28 Over recent years a greater diversity of spaces has opened up worldwide for the making and display of art beyond the gallery A new space consciousness has developed with an emphasis on the significance of the spatial Judith Rugg takes up a range of site specific artworks internationally located in countries ranging from China to France Italy and the UK Argentina and Canada to Australia Poland and the Netherlands to explore the relationships between site specific art and space set within its globalising contexts Through close inspection of works such as artists as Doris Salcedo Langlands and Bell Phyllida Barlow and Vong Phaophanit Rugg considers how an interdisciplinary spatial theory can inform many elements of contemporary art In clear illustrated chapters she engages with

very contemporary spatial issues including those of the environment cultural identity and belonging as well as experiences of displacement migration and marginalisation and the effects of urbanization and tourism For students and practitioners of fine arts art theory and history as well as those who are fascinated by site specific art this is an original and challenging exploration

The Perpetuation of Site-Specific Installation Artworks in Museums Tatja Scholte, 2021 Site specific installations are created for specific locations and are usually intended as temporary artworks The Perpetuation of Site Specific Installation Artworks in Museums Staging Contemporary Art shows that these artworks consist of more than a singular manifestation and that their lifespan is often extended In this book Tatja Scholte offers an in depth account of the artistic production of the last forty years With a wealth of case studies the author illuminates the diversity of site specific art in both form and content as well as in the conservation strategies applied A conceptual framework is provided for scholars and museum professionals to better understand how site specific installations gain new meanings during successive stages of their biographies and may become agents for change in professional routines

Space, Site, Intervention Erika Suderburg, 2000 From Ferdinand Cheval's Palais Ideal 1879 1905 and Simon Rodia's Watts Towers 1921 1954 to Ant Farm's Cadillac Ranch 1974 and Richard Serra's Tilted Arc 1981 installation art has continually crossed boundaries encompassing sculpture architecture performance and visual art Although unique in its power to transform both the site in which a work is constructed and the viewer's experience of being in a place installation art has not received the critical attention accorded other art forms In Space Site Intervention some of today's most prominent art critics curators and artists view installation art as a diverse multifaceted and international art form that challenges institutional assumptions and narrow conceptual frameworks The contributors discuss installation in relation to the genealogy of modern art community and corporate space multimedia cyberspace public and private ritual the gallery and the museum public and private patronage and political action This ambitious volume focuses on issues of class sexuality cultural identity race and gender and highlights a wide range of artists whose work is often marginalized by mainstream art history and criticism Together the essays in Space Site Intervention investigate how installation resonates within modern culture and society as well as its ongoing influence on contemporary visual culture

New Media as Performance in Site-specific Art Shih-yun Lu, 2013-01-30 This practical based research explores space sites and interventions in particular site specific installation of art works involving the physical virtual space and interactive theatre space within new media art

The State of Art - Installation & Site-Specific #2 Andy Laffan, Chris Hodson, Robin Laffan, 2015-09-15 Installation art can be broadly defined as work which is three dimensional and is produced in order to transform the perception of a space In the past this term was primarily meant to describe the hanging of pictures and other objects within an exhibition in more recent times the term has come to signify work which deals directly with the space the artist often creating mixed media assemblages designed for a temporary period of time Site specific work is closely related to Installation art in the sense that it is usually composed of objects installed at a

location Where the two may differ is that in a site specific work the artist is often dealing with the history folklore geography or social issues of a particular place and in that sense the work can only exist at that location In addition because the work relies on being placed so specifically many site specific works are located outside of the gallery in often unconventional public spaces

Sampling and Site-Specific Practice in Contemporary Art Margot Bouman, 2025-05-15 In the early 20th century copying cutting and pasting entered the Western European avant garde through collage and readymades as artists employed found objects and ephemera to create new meaning from existing materials This book explores how this practice has evolved in contemporary art today looking at its important and distinct outcomes in the practice of artists such as Andrea Fraser Douglas Gordon Isaac Julien Christian Marclay Amie Siegel and Christopher Williams It analyses the pivotal consequences of the interrelationships these artists establish between fragments of culture from television and film to internet culture and their artwork s site where the verb to sample has become deeply tied to digital music editing writing image production database searches and social media Samples take many forms quotations of other cultural works replicas of other objects reenactments of works by other artists or fragments that are quite literally cut or removed from other works of art design or media Via Bouman s analysis we visualise the shared frameworks of meaning that underpin these multifaceted multidimensional and medium fluid works Focussing on action and form the book discusses the relationship between the referent and reference and the citational labor that any sample performs The distributive sense of authorship that emerges places the audience in a new position of significance Concepts and themes discussed include queer and race theory postproduction and mirroring mobile site specificity now time and dragging and gender fluidity and Drag King performance centring sampling as a key form of 21st century art With novel insights into the conceptual material and aesthetic dimensions of sampling in contemporary culture the book provides a new critical framework for understanding the complex implications of this practice as a vital resource for researchers in contemporary art practice and visual culture

Installationskunsten har gennem sin sejrsgang verden over og er her i det 21. århundrede en både vel og anerkendt bestanddel af samtidskunsten Med på virkning fra og udveksling mellem billedkunst på den ene side og performanceteater på den anden befinder installationskunst sig som bogens titel viser netop i feltet mellem billede og scene I Installation Art Between Image and Stage undersøger Anne Ring Petersen grundstenene for en af nutidens mest udbredte kunstformer Installationer er ligesom skulpturer tredimensionelle formationer eller billedannelser men i modsætning til skulpturen er installationen karakteriseret ved at være formet af rum eller rumlige scenografier som skaber betydning og sanseoplevelser gennem sit billedsprog Som resultat af dette er installationer ofte stort anlagte kunstværker som beskueren kan gå ind i og de lever dermed til fulde op til nutidens krav om spektakulære estetiske iscenesatte events og kulturoplevelser der taler til sanserne Gennem grundige analyser af værker af kunstnere som Bruce Nauman Olafur Eliasson Jeppe Hein Mona Hatoum Pipilotti Rist og Ilya Kabakov som bagt påpeges her i denne bog svar på hvad en installation egentlig er hvilke virkemidler den bruger hvordan installationskunstens opståen kan forklares i et kulturhistorisk perspektiv og meget mere Også installationskunstens rumlige tidsmæssige og diskursive aspekter såvel som dens receptions æstetik der sættes ind i en overordnet kunst og kulturhistorisk ramme undersøger Installation Art Between Image and Stage er et nyttigt værktøj for alle der ønsker at forstå denne mangefacetterede kunstforms konceptuelle fundament Anne Ring Petersen er ph.d. lektor ved Institut for Kunst og Kulturvidenskab Københavns Universitet Har i 2009 udgivet Installationskunsten mellem billede og scene og er redaktør af Contemporary Painting in Context 2010 Despite its large and growing popularity to say nothing of its near ubiquity in the world's art scenes and international exhibitions of contemporary art installation art remains a form whose artistic vocabulary and conceptual basis have rarely been subjected to thorough critical examination In Installation Art Between Image and Stage Anne Ring Petersen aims to change that She begins by exploring how installation art developed into an interdisciplinary genre in the 1960s and how its intertwining of the visual and the performative has acted as a catalyst for the generation of new artistic phenomena She investigates how it became one of today's most widely used art forms increasingly expanding into consumer popular and urban cultures where installation's often spectacular appearance ensures that it meets contemporary demands for sense provoking and immersive cultural experiences The main trajectory of the book is directed by a movement aimed at addressing a series of basic questions that get at the heart of what installation art is and how it is defined How does installation structure time space and representation How does it address and engage its viewers And how

does it draw in the surrounding world to become part of the work Featuring the work of such well known artists as Bruce Nauman Pipilotti Rist Ilya Kabakov and many others this book breaks crucial new ground in understanding the conceptual underpinnings of this multifacious art form Anne Ring Petersen is associate professor in the Department of Arts and Cultural Studies at the University of Copenhagen and the editor of Contemporary Painting in Context Performing Site-Specific Theatre A. Biennial Boom Paloma Checa-Gismero, 2024-07-05 In Biennial Boom Paloma Checa Gismero traces an archeology of contemporary art biennials to uncover the processes that prompted these exhibitions to become the global art world s defining events at the end of the twentieth century Returning to the early post Cold War years Checa Gismero examines the early iterations of three well known biennials at the borders of North Atlantic liberalism the Bienal de La Habana inSITE and Manifesta She draws on archival and oral history fieldwork in Cuba Mexico the US Mexico borderlands and the Netherlands showing how these biennials reflected a post Cold War optimism for a pacified world by which artistic and knowledge

production would help mend social political and cultural divisions Checa Gismero argues that in reflecting this optimism biennials facilitated the conversion of subaltern aesthetic genealogies into forms that were legible to a nascent cosmopolitan global elite all under the pretense of cultural exchange By outlining how early biennials set the basis for what is now recognized as global contemporary art Checa Gismero intervenes in previous accounts of the contemporary art world in order to better understand how it became the exclusionary rarified institution of today
