Depression and Narrative Hilary Clark, 2008-10-09 Depression and Narrative examines stories of depression in the context of recent scholarship on illness and narrative which up to this point has largely focused on physical illness and disability Contributors from a number of disciplinary perspectives address these narrative accounts of depression by both sufferers and those who treat them as they appear in memoirs diaries novels poems oral interviews fact sheets blogs films and television shows Together they explore the stories we tell about depression its contested causes its gendering the transformations in identity that it entails and the problems it presents for communication associated as it is with stigma and shame Unlike certain physical illnesses such as cancer depression is stigmatized sometimes as a nonproblem the sufferer should snap out of it and sometimes as the slippery slope to madness Thus depression narratives have their work cut out for them This book highlights the work these stories do including bringing meaning to sufferers explaining depression justifying therapies and treatments and reducing the burden of shame accounting for a suffering that is in the end unaccountable

Feminism and a Vital Politics of Depression and Recovery Simone Fullagar, Wendy O'Brien, Adele Pavlidis, 2019-08-13 Drawing upon insights from feminist new materialism the book traces the complex material discursive processes through which women's recovery from depression is enacted within a gendered biopolitics Within the biomedical assemblage that connects mental health policy service provision research and everyday life the gendered context of recovery remains little understood despite the recurrence and pervasiveness of depression Rather than reducing experience to discrete biological psychological or sociological categories feminist thinking moves with the biopsychosocialities implicated in both distress and lively modes of becoming well Using a post qualitative approach the book creatively re presents how women do recovery within and beyond the normalising imperatives of biomedical and psychotherapeutic practices By pursuing the affective movement of self through depression this inquiry goes beyond individualised models to explore the enactment of multiple self world relations Reconfiguring depression and recovery as bodymind matters opens up a relational ontology concerned with the entanglement of gender inequities and mental ill health

The Vulnerable Empowered Woman Tasha N. Dubriwny, 2012-11-14 The feminist women's health movement of the 1960s and 1970s is credited with creating significant changes in the healthcare industry and bringing women's health issues to public attention Decades later women's health

issues are more visible than ever before but that visibility is made possible by a process of depoliticization The Vulnerable Empowered Woman assesses the state of women s healthcare today by analyzing popular media representations television print newspapers websites advertisements blogs and memoirs in order to understand the ways in which breast cancer postpartum depression and cervical cancer are discussed in American public life From narratives about prophylactic mastectomies to young girls receiving a vaccine for sexually transmitted disease the representations of women s health today form a single restrictive identity the vulnerable empowered woman This identity defuses feminist notions of collective empowerment and social change by drawing from both postfeminist and neoliberal ideologies The woman is vulnerable because of her very femininity and is empowered not to change the world but to choose from among a limited set of medical treatments The media s depiction of the vulnerable empowered woman s relationship with biomedicine promotes traditional gender roles and affirms women s unquestioning reliance on medical science for empowerment The book concludes with a call to repoliticize women s health through narratives that can help us imagine women and their relationship to medicine differently

When Older Women Speak Ester Carolina Apesoa-Varano,Charles Varano,2020-03-17 Studying the interaction of gender class race ethnicity and aging in the depression experience of older women provides a unique opportunity to understand how aging plays a significant role in shaping conceptions of self and emotional health trajectories for women Based on author interviews with mostly working class depressed elderly women this book contributes to the theoretical understanding of femininity and aging and the practical implications for policy and effective health care treatment Cultivating an alternative self can reduce older women s suffering and provide the emotional resources to change their inner worlds even if the outer world stretches beyond their control Depression affects women twice as often as men Up to 40 percent of older adults respond poorly to depression treatment and depression is linked to higher morbidity and

mortality rates and cognitive decline Older adults with depression have 50 percent higher health care costs yet depression is accurately recognized in less than one half of older adults in primary care While older men are more likely to die by suicide older women are two to three times more likely to attempt suicide and depression is the best predictor of suicide in older adults Latina and African American women have lower rates of depression treatment compared to non minority women From issues of health care access to the stigma of depression older Latinas and African American women are at an increased risk for untreated depression This book seeks to address some of the significant gaps in our knowledge of late life depression in women especially in ethnic minorities ranging from detection and efficacy of depression treatment to informal influences e g family on formal depression care seeking *Feminist Narrative Research* Jo Woodiwiss, Kate Smith, Kelly

Modernism, Feminism and the Culture of Boredom Allison Pease, 2012-08-27 Bored women populate many of the most celebrated works of British modernist literature Whether in popular offerings such as Robert Hitchens s *The Garden of Allah* the esteemed middlebrow novels of May Sinclair or H G Wells or now canonized works such as Virginia Woolf s *The Voyage Out* women s boredom frequently serves as narrative impetus antagonist and climax In this book Allison Pease explains how the changing meaning of boredom reshapes our understanding of modernist narrative techniques feminism s struggle to define women as individuals and male modernists preoccupation with female sexuality To this end Pease characterizes boredom as an important category of critique against the constraints of women s lives arguing that such critique surfaces in modernist fiction in an undeniably gendered way Engaging with a wide variety of well and lesser known modernist writers Pease s study will appeal especially to researchers and graduates in modernist studies and British literature *The SAGE*
