Situating Sound And Rhythm:

Situating the Subject in Film Theory Veijo Hietala, 1990 *Situating the Subject in Film Theory*, 1990 Situating Mallarmé David P. Kinloch, Gordon Millan, 2000 Since his death just over a century ago Stéphane Mallarmé has become a major figure in world literature. Over this period Mallarmé criticism has tended to concentrate on two aspects of his work. Firstly on textual analysis in order to tackle the difficulty of his writing and secondly thanks to the interest shown in him by figures such as Barthes, Derrida, Kristeva and Lacan on his theoretical writings. Indeed this particular part of his oeuvre has somewhat dominated Mallarmé studies in the last thirty years. This book adopts a new approach by attempting to contextualise Mallarmé's creative writing in terms of his relationships with other art forms, other writers and indeed other cultures. At the same time one of his own key obsessions with death is also reassessed as is his relationship to the society of his time. Mallarmé's ambitious project was to exploit the potential of dance, music and painting as well as poetry in order to produce an artistic monument for the modern post-industrial age. Experts from all of these fields have therefore combined with literary specialists in order to adopt an interdisciplinary and comparative approach to Mallarmé's work which marks a bold and exciting new departure in Mallarmé studies.

Sound Worlds from the Body to the City Ariane Wilson, 2019-03-13 This volume reveals the extent to which aural perception influences our spatial awareness. Spanning various fields and practices from psychology to geography and from zoology to urban planning it covers a range of environments in which sounds contribute to forming our sense of space and place. The contributions gathered here lead from the mother's womb through the habitats of insects and owls to the resonating bodies of buildings and the city to artistic endeavours that aim to consciously reveal the spatiality of sound. In this progression the book demonstrates the profoundly constitutive role of hearing and listening at all stages of our biological and social development as well as the epistemological, phenomenological and emotional importance of sound in relation to our construction of space. As such it will appeal not only to architects, town planners and artists but also to the growing community of scientists and scholars intrigued by sonic issues. Differing from both quantitative acoustics and sound design its approach opens new perspectives on the sonic dimension and aural understanding of our environment by tracing analogies between a diversity of spaces formed when sound interacts with listening as a mode of attention.

The Art of Theatrical Sound Design Victoria Deiorio, 2018-09-20 Emphasising the artistry behind the decisions made by theatrical sound designers this guide is for anyone seeking to understand the nature of sound and how to apply it to the stage. Through tried and tested advice and lessons in practical application *The Art of Theatrical Sound Design* allows developing artists to apply psychology, physiology, sociology, anthropology and all aspects of sound phenomenology to theatrical sound design. Structured in three parts the book explores theoretically how human beings perceive the vibration of sound, offers exercises to develop support for storytelling by creating an emotional journey for the audience, considers how to collaborate and communicate as a theatre artist and discusses how to create a cohesive sound.

The Consolation of Boethius as Poetic Liturgy Stephen Blackwood, 2015 Throughout Antiquity and the Middle Ages literature was read with the ear as much as with the eye silent reading was the exception audible reading the norm This highly original book shows that Boethius's Consolation of Philosophy one of the most widely read texts in Western history aims to affect the listener through the designs of its rhythmic sound Stephen Blackwood argues that the Consolation's metres are arranged in patterns that have a therapeutic and liturgical purpose as a bodily mediation of the text's consolation these rhythmic patterns enable the listener to discern the eternal in the motion of time The Consolation of Boethius as Poetic Liturgy vividly explores how in this acoustic encounter with the text philosophy becomes a lived reality and reading a kind of prayer
