**Their Poetry** Paula R. Backscheider, 2005-12-31 Our sense of eighteenth century poetic territory is immeasurably expanded by this excellent historical and cultural study of UK women poets of the era Cynthia Wall *Studies in English Literature* This major work offers a broad view of the writing and careers of eighteenth century women poets casting new light on the ways in which poetry was read and enjoyed on changing poetic tastes in British culture and on the development of many major poetic genres and traditions Rather than presenting a chronological survey Paula R Backscheider explores the forms in which women wrote and the uses to which they put those forms Considering more than forty women in relation to canonical male writers of the same era she concludes that women wrote in all of the genres that men did but often adapted revised and even created new poetic kinds from traditional forms Backscheider demonstrates that knowledge of these women's poetry is necessary for an accurate and nuanced literary history Within chapters on important verse forms she sheds light on such topics as women's use of religious poetry to express ideas about patriarchy and rape the important role of friendship poetry same sex desire in elegy by women as well as by men and the status of Charlotte Smith as a key figure of the long eighteenth century not only as a Romantic era poet Co Winner James Russell Lowell Prize Modern Language Association [The History of British Women's Writing, 1700-1850](#) Mary Eagleton, Emma Parker, 2016-04-29 This book maps the most active and vibrant period in the history of British women's writing Examining changes and continuities in fiction poetry drama and journalism as well as women's engagement with a range of literary and popular genres the essays in this volume highlight the range and diversity of women's writing since 1700 *Romanticism Gendered* Andrea Fischerová, 2020-11-09 This study focuses on the six writing men who have been throughout decades regarded as the alpha and omega of British Romanticism Byron Coleridge Keats Scott Shelley and Wordsworth It sees these men as a representative cohort of their time and examines their letters as results of a reading process Although letters are usually seen as additional sources of reference in literary studies in this book they are treated as the dominant information material correspondence enables to reconsider British Romanticism on the basis of the epistolary communication of the first half of the nineteenth century The target information from the letters are references to women writers and to their writings A detailed analysis of the correspondence manages to answer the question whether male Romantics regarded writing women as provoking from time to time as Duncan Wu assumes and whether the gender identity of the woman author influenced the way male readers read her literary works The examination of the correspondence thus takes a gendered perspective on British Romanticism This approach to the target research data discloses a long list of almost 120 names of women writers from different periods and of different literary genres Whereas the male readers in question have acquired a well established stable long term position within literary history the women were often marginalized even forgotten The study presents plentiful examples proving the discrepancies between what the twenty first century reader regards as the core of women's Romantic literary tradition and what the Romantic reader did The following women writers are discussed in the study in detail Susannah Centlivre Anne Finch Lady
