The Ming World Kenneth M Swope, 2019-08-08 The Ming World draws together scholars from all over the world to bring China's Ming Dynasty 1368-1662 to life, exploring recent scholarly trends and academic debates that highlight the dynamism of the Ming and its key place in the early modern world. The book is designed to replicate the structure of popular Ming era unofficial histories that gathered information and gossip from a wide variety of fields and disciplines. Engaging with a broad array of primary and secondary sources, the authors build upon earlier scholarship while extending the field to embrace new theories, methodologies and interpretive frameworks. It is divided into five thematically linked sections: Institutions, Ideas, Identities, Individuals and Interactions. Unique in its breadth and scope, The Ming World is essential reading for scholars and postgraduates of early modern China, the history of East Asia and anyone interested in gaining a broader picture of the colorful Ming world and its inhabitants.

Translocal China Tim Oakes, Louisa Schein, 2006-08-21 Interdisciplinary in approach, this collection of essays explores China's reform era development within the concept of translocality. A key element of spatial change in today's China has been the unprecedented geographic mobility of millions of labour migrants, tourists, brides, entrepreneurs and many others. But translocality doesn't just mean people. It is crucially constituted by the circulation of capital, ideas, images, goods, styles, services and disease to name but a few. With contributions from well-respected China specialists, the essays focus simultaneously on mobilities and localities, drawing our attention to the multiplying forms of mobility in China whilst retaining the importance of localities in people's lives. The book
