Sixteen Years On A Follow Up Of The 1947 Scottish Survey:

Sixteen Years On: a Follow-up of the 1947 Scottish Survey James Maxwell, 1969 *Reconstructions of Secondary Education* John Gray, Andrew McPherson, David Raffe, 2012-05-16 British secondary education has changed in major ways since 1945 This book examines some consequences and implications of both change and stability drawing on a unique series of national surveys of school leavers in Scotland The authors provide an empirical and theoretical account of central problems of contemporary schooling Their analysis covers certification curriculum and selection the effects of educational expansion trends in educational inequality the impact of comprehensive reorganisation truancy and alienation from schooling the explanation of differences in performance between schools and the implications for the public accountability of schools From these analyses the authors develop a critique of the theory of the education system that underpinned expansion They examine this theory's logical and empirical status as myth and elaborate how the political system and social science might jointly overcome some of the methodological difficulties that beset social and educational research **Birth Order** Cecile

Ernst, Jules Angst, 2012-12-06 This study appears at a time when a decisive turn is due in the research on personality development After many years of stagnation and misguided research in this field this book should lead to a thorough revision and a better understanding of current views on the factors which have an influence on personality Let us consider the unsatisfactory aspects of the recent developments in personality studies At the beginning of this century the revolutionary insight gained ground that personality is susceptible to various influences in particular to those resulting from human interaction This insight swept away many of the old scholastic concepts and gained special importance in the fields of pedagogics and psychotherapy However in the wake of every great discovery we find inherent dangers For years various claims and creeds on the malleability of personality have been put forward as if they were proven facts Lay literature too was permeated with wrong and distorted information on factors which might endanger child development **Unemployment,**

Crime, and Offenders Iain Crow, Paul Richardson, Carol Riddington, Frances Simon, 2024-09-18 The preoccupation with the unemployment crime link has meant that a number of other concerns about the way that unemployment affects the criminal justice system and ways of dealing with offenders have been largely ignored This book originally published in 1989 brings together research from a variety of sources relating to unemployment This research provides much information on the practical day to day experiences of dealing with offenders at a time of high unemployment and the related policy implications

Whaur Extremes Meet Catriona M.M. MacDonald, 2009-10-30 On the cusp of memory and history the story of Scotland's twentieth century is contested territory international yet parochial prosperous yet ailing and passionate yet temperate This thematic account of Scotland's twentieth century examines the economic social political and cultural aspects that shaped the country during the period Catriona MacDonald underlines the tensions inherent in the life of a nation distinguished by stark changes and surprising continuities a fragmented identity a shifting and at times uneasy accommodation in the UK nation

state and an ongoing engagement with globalising tendencies In identifying the choices ambitions possibilities and contradictions that Scotland experienced during a century of profound change she uncovers a country in which one can truly say extremes met

National Service Richard Vinen, 2014-08-28 SUNDAY TIMES BOOKS OF THE YEAR and FINANCIAL TIMES BOOKS OF THE YEAR 2014 WINNER OF THE TEMPLER MEDAL AND THE WOLFSON HISTORY PRIZE Sunday Times Top 10 Bestseller Richard Vinen's new book is a serious if often very entertaining attempt to get to grips with the reality of National Service an extraordinary institution which now seems as remote as the British Empire itself With great sympathy and curiosity Vinen unpicks the myths of the two gap years which all British men who came of age between 1945 and the early 1960s had to fill with National Service Millions of teenagers were thrown together and under often brutal conditions taught to obey orders and to fight The luck of the draw might result in two years of boredom in some dilapidated British barracks but it could also mean being thrown into a dangerous combat mission in a remote part of the world By any measure National Service had a huge impact on the nature of British society and yet it has been remarkably little written about As the military's needs wound down and Britain ceased to be a great power National Service came to be seen as just an embarrassment and its culture of rank and discipline something which many British people were by the 1960s running away from But without a proper understanding of National Service the story of post war Britain barely makes sense Richard Vinen provides that missing book It will be fascinating to those who endured or even enjoyed their time in uniform but also to anyone wishing to understand the unique nature of post war Britain

Psychological Theory and Educational Practice H.S.N. McFarland, 2017-09-14 Originally published in 1971 this book was a critical introduction to the psychology of human development learning and assessment It was written with special attention to the needs of students of education and teachers keeping in view the practical implications of psychological evidence The author's purpose was to provide a clear and straightforward account of these matters while at the same time promoting a thoughtful and critical response If the book is to be called a textbook it is so in this best sense

Major Issues in Cognitive Aging Timothy Salthouse, 2010 In recent years the field of cognitive aging has flourished and expanded into many different disciplines It is probably therefore inevitable that some of the research has become very narrow primarily focused on

counting and classifying the wrinkles of aged behavior rather than addressing more broad general and important questions Timothy Salthouse's main goal in this book is to try to identify some of the major phenomena in the field of cognitive aging and discuss issues relevant to the investigation and interpretation of them He does not attempt to provide a comprehensive survey of the research literature on aging and cognition because many excellent reviews are available in edited handbooks His principal aim is rather to stimulate readers to think about the big questions in cognitive aging research and how they might best be answered **The Publishers' Trade List Annual** ,1975 Alberta Journal of Educational Research ,1970

A Life Course Approach to Healthy Ageing Diana Kuh,Rachel Cooper,Rebecca Hardy,Marcus Richards,Yoav Ben-Shlomo,2013-12-19 Healthy ageing has long been a neglected area of epidemiological research as the traditional focus has been on specific chronic diseases of older life There is a growing consensus from scientists research funders and policy makers that ageing itself needs to be studied from an interdisciplinary and life course perspective to inform strategies for reducing the societal and individual costs of an ageing population *A Life Course Approach to Healthy Ageing* is a synthesis of life course perspectives in epidemiology and interdisciplinary perspectives in ageing research It brings together expert investigators of maturing birth cohort and ageing studies cross cutting methodologists and authorities in ageing research and knowledge transfer from across the world in one wide ranging volume Contributors discuss how aspects of healthy ageing are conceptualised defined and measured relate to each other change across life and are influenced by biological psychological and social factors operating from early life onwards They identify research gaps and suggest how evidence from observational studies can be strengthened through improved study design and longitudinal analysis thereby increasing the research contribution to practice or policy change The book considers how we might delay or slow down the progressive generalised impairment of function that occurs at the individual body system and cellular levels as people grow older It also considers the determinants of wellbeing in older people including personal fulfilment positive emotions and social relationships Broad in scope discussing topics from genetics to psychological and social wellbeing *A Life Course Approach to Healthy Ageing* is a key resource for epidemiologists social scientists clinicians public health physicians policy makers and practitioners with a research interest in healthy ageing The Nature of Human Intelligence Robert J.

Sternberg,2018-01-11 The study of human intelligence features many points of consensus but there are also many different perspectives In this unique book Robert J Sternberg invites the nineteen most highly cited psychological scientists in the leading textbooks on human intelligence to share their research programs and findings Each chapter answers a standardized set of questions on the measurement investigation and development of intelligence and the outcome represents a wide range of substantive and methodological emphases including psychometric cognitive expertise based developmental neuropsychological genetic cultural systems and group difference approaches This is an exciting and valuable course book for upper level students to learn from the originators of the key contemporary ideas in intelligence research about how they

think about their work and about the field **Scottish Educational Studies** ,1987 The Psychology of Ageing Ian
Stuart-Hamilton,2012-05-15 This well established text has been completely revised in this expanded fifth edition Each
chapter has been updated to reflect current thinking and a new chapter on death dying and bereavement has been added
This new edition is essential reading for all those working with older people and a key text for students *School,*
