explores play as a transgressive expression that counters the existing urban order neoliberal authoritarian militarised Insurgent play is disruptive yet through disruption it brings social worlds into being undergirds global subcultures and overcomes hostile urban environments characterised by ever diminishing spaces for free expression Acts of insurgent play are claims on space lasting from brief moments to years animating patches of the city designed for commercial industrial and logistical imperatives Even in public spaces designed for leisure and play insurgent play brings different expressions at different speeds transgressing designated uses and bodily expectations Through insurgent play people find belonging in the city especially for those excluded from other spaces based on race class sexuality and citizenship As such stories of insurgent play are stories of alternative ways of inhabiting cities stemming from the widespread human desire and need for play for joy and for sociality Insurgent Play draws upon examples from street skateboarding Street skateboarding disrupts the city in the pursuit of play enlivens patches of space through temporary claims and initiates encounters with authorisers property owners and citizens gravid with hostility with instants of wonder Insurgence is a way of being and the desire for insurgent play cannot be placated by better urban planning or formal expertise Nor will multiplying designated play spaces creative precincts and flexible public spaces stop people seeking out space to create their own worlds of disruption The book makes four arguments First insurgent play is bodily expression that can challenge disrupt and transgresses dominant ways of city making Second insurgent play takes us to parts of the urban landscape that we might not otherwise go politics we might not otherwise recognise and encounters we might otherwise overlook Third claims on the city made through insurgent play enliven urban space through transformative power In this way these claims territorialise patches of the built environment intended for other uses Last insurgent play space is generated from below never above Insurgent play shapes and is shaped by identities that position adherents in opposition to prevailing urban orders
