Namibia is a vast ancient place, its legacy an endless expanse of desert sand fringed by coastal plain and rugged mountain terrain and dotted with geological wonders that remain the country's most impressive features. Intrigued by the scenic splendour and entranced by the ever-changing landscape that emerges beyond every corner, every towering dune and every mountaintop, Lily and Marcel Jouve travelled the length and breadth of the country to discover the varying facets of the land and its geology. In *Secret Namibia* they share their exploration of the terrain and reveal its secrets from the geomorphological make-up to the best routes to follow and the finest places to stay. From the famed Spitzkoppe to Kaokoland, Etosha National Park to the Fish River Canyon, Sossusvlei to Sandwich Harbour, this is Namibia through their lens: their celebration of its rock and sand, valley, canyon and plain, and the unique flora and fauna found in these landscapes. *Secret Namibia* is an invitation to discover through word and image the intriguing natural features of this wild country. **Birding World, 1993 South African Who's who, 1956**
