Changing Ethnicity Zhitian Guo,2019-07-10 This book investigates the changes in ethnicity in contemporary China by examining the Yi in Liangshan With a particular focus on cadres a seemingly highly politicized group this book tries to contribute to the discussion of ethnopolitics in China and the politicization of ethnicity This study categorizes cadres into three generations and discovers that for the veteran echelon ethnicity is related to an emotional expression for the second generation it is more about a political discourse and competitions and for the third generation it takes the form of symbolic ethnicity that resonates in everyday life Changing ethnicity of Yi is a miniature portrayal of the social development in China and demonstrates the interplay between ethnicity and ethnopolitics and how these interactions are expressed in people s everyday life The valuable context offered in this book for discussions about ethnicity in contemporary China will be of interest to China scholars ethnologists and political scientists

Department of the Army Pamphlet ,1972 *Watching China Change* Robert C. Cosbey,2001 Between May 1976 while Mao was still alive and 1997 when Deng Xiaoping died was a time of tremendous change in China from the Great Proletarian Cultural Revolution to the affluent eighties and nineties from socialism to what looks like unrestrained capitalism and from a mysterious country wrapped in isolation to one of the key players in modern international affairs It s a dramatic story that involves a fifth of the human race and impinges on the rest I am moved to get down on paper my memories and observations about my twenty five year experience with China Neither a eulogy nor an expos just as honest an account as I can make it of the China I saw and experienced

Slavery in the American Mountain South Wilma A. Dunaway,2003 Wilma Dunaway breaks new ground by focusing on slave experiences on small plantations in the Upper South She argues that a region was not buffered from the political economic and social impacts of enslavement simply because it was characterized by low black population density and small slaveholdings By drawing on a massive statistical data base derived from antebellum census manuscripts and county tax records of 215 counties in nine states on a vast array slaveholder manuscripts and on regional slave narratives she pinpoints several

indicators that distinguished Mountain South enslavement from the Lower South **Minority Groups in North Vietnam**

East Wind Tom Buchanan, 2012-04-19 East Wind offers the first complete archive based account of the relationship between China and the British Left from the rise of modern Chinese nationalism to the death of Mao Tse tung Beginning with the Hands Off China movement of the mid 1920s Tom Buchanan charts the mobilisation of British opinion in defence of China against Japanese aggression 1931 1945 and the role of the British left in relations with the People s Republic of China after 1949 He shows how this relationship was placed under stress by the growing unpredictability of Communist China above all by the Sino Soviet dispute and the Cultural Revolution which meant that by the 1960s China was actively supported only by a dwindling group of enthusiasts The impact of the suppression of the student protests in Tiananmen Square June 1989 is addressed as an epilogue East Wind argues that the significance of the left s relationship with China has been unjustly overlooked There were many occasions such as the mid 1920s the late 1930s and the early 1950s when China demanded the full attention of the British left It also argues that there is nothing new in the current fascination with China s emergence as an economic power Throughout these decades the British left was aware of the immense unrealised potential of the Chinese economy and of how China s economic growth could transform the world In addition to analysing the role of the political parties and pressure groups of the left Buchanan sheds new light on the activities of many well known figures in support of China including intellectuals such as Bertrand Russell R H Tawney and Joseph Needham Many other interesting stories emerge concerning less well known figures which show the complexity of personal links between Britain and China during the twentieth century
