Inside The Gates: Snipers In Support Of Military Operations In Urbanized Terrain Lt.-Colonel Jeffery E. Dearolph USMC,2014-08-15 As the world s urban areas continue to increase in size the possibility of U S forces conducting military operations in urbanized terrain also increases However the weapon systems the U S procures and employs obtain maximum effectiveness in open terrain These weapons prove less capable in urban terrain since their standoff and precision advantages suffer degradation due to buildings and the fleeting nature of enemy personnel U S weaponry also causes a large amount of collateral damage that may also result in civilian casualties which proves politically unacceptable Potential adversaries of the U S realize these limitations and present a target set that proves difficult to locate and engage The target set the enemy uses in urban terrain consists of enemy combatants mixing with non combatants enemy snipers and special purpose teams Assets the U S possesses that can engage elements of the enemy s urban target set include U S Army and Marine Corps snipers However a determination on whether more snipers will effectively defeat the target set requires consideration This monograph analyzes the contemporary operating environment to articulate the enemy s urban target set Next a review of current U S Army and Marine Corps sniping doctrine organization and training establishes the foundation for presenting the sniper s capability to defeat the urban target set In order to provide a balanced argument other possible solutions to engaging and defeating the target set receive consideration Research shows that the sniper company organized at the division level achieves the desired effect of increasing the density of sniper teams on the urban battlefield The costs associated with the sniper company prove acceptable as it requires minimal expenditure concerning personnel and equipment The division sniper company will effectively counter the enemy s urban target set without causing non combatant casualties **Police Counter Sniper and the Military Model** Stephen Charles Small,1993 *Code Name Pigeon* Girard Clacy,2007-05-14 Michael Pigeon worked at the State Department building in Denver Colorado and had what everyone thought of as the pretty normal life for a cook However one day Gilda Hanson and her friends never returned from an assignment Michael learned of her fate a few days later To add insult to injury the autopsy report said Gilda was between three and four months pregnant In the days that followed the funeral Michael vowed he would find out what had happened and what the Special Projects and Operations Taskforce really was all about The SPOT unit assigned to the State Department facility was now down to one agent who was on life support at a local hospital The director of the SPOT unit Bill Yancy gives Michael a once in a lifetime opportunity Michael can find out if he is SPOT material or not and he can find out what happened to Gilda on that fatal assignment Michael agrees and off to training he goes Bill watches Michael s progress with keen interest Michael is very good about what he does and how he does it Michael is now introduced to the world of working for the government as a SPOT agent Department of Defense Appropriations for 2010, Part 2, 111-1 Hearings ,2010
