Social And Environmental Impacts In The North:

Social and Environmental Impacts in the North: Methods in Evaluation of Socio-Economic and Environmental Consequences of Mining and Energy Production in the Arctic and Sub-Arctic Rasmus Ole Rasmussen, Natalia E. Koroleva, 2012-12-06 Future development in the Arctic and Subarctic region requires careful attention to the possible consequences of the development activities themselves in relation to their environmental socioeconomic and cultural impacts A more thorough understanding of the impact of future activities however demands the dissemination and confrontation of results from different regions and different scientific traditions This requires scientific cooperation not only across disciplines but across border Primarily it requires both consensus and innovations in regard to methods This book confronts such differences in approaches and methods in relation to the analysis of socioeconomic and environmental consequences of large scale mineral and energy development activities in the Arctic and Subarctic establishing the common ground upon which future research activities can be based

Social and Environmental Impacts of the James Bay Hydroelectric Project James F. Hornig, 1999 Planning and construction of the James Bay Hydroelectric project began in the early 1970s when the effect of such projects on the physical and social environment was seldom considered As the project matured however its unique and diverse environmental impacts came under intense scrutiny on both sides of the border The first mega scale hydro project to be built in the sub Arctic capable of generating as much electricity as fifteen nuclear power plants its impact includes disruption of vast areas in an extremely fragile ecosystem as well as displacement of native peoples and the introduction of dangerous levels of mercury into their food supply The debate over these complex environmental issues has been further complicated by political issues stemming from the importance of the project to the economic development of Quebec and the sale of at least ten percent of the electricity generated the United States The contributors examine core issues of the controversy both in relation to James Bay and to other large hydroelectric projects such as the Aswan dam in Egypt and the Three Gorges dam in China Providing insights from an unusual variety of disciplines the authors offer important considerations that must be taken into account as Quebec assesses additional phases of hydroelectric development of the watershed east of Hudson Bay Contributors include Raymond B Coppinger Hampshire College Bill Dale Roebuck Dartmouth Medical School Will Ryan Hampshire College Adrian Tanner Memorial University Stanley L Warner Hampshire College Kessler E Woodward University of Alaska and Oran R Young Dartmouth College James F Hornig is professor emeritus of chemistry and environmental studies Dartmouth College
