Social And Cognitive Approaches To Interpersonal Communication:

Social and Cognitive Approaches to Interpersonal Communication Susan R. Fussell, Roger J. Kreuz, 2014-02-25

Historically the social aspects of language use have been considered the domain of social psychology while the underlying psycholinguistic mechanisms have been the purview of cognitive psychology. Recently it has become increasingly clear that these two dimensions are highly interrelated: cognitive mechanisms underlying speech production and comprehension interact with social psychological factors such as beliefs about one's interlocutors and politeness norms and with the dynamics of the conversation itself to produce shared meaning. This realization has led to an exciting body of research integrating the social and cognitive dimensions which has greatly increased our understanding of human language use. Each chapter in this volume demonstrates how the theoretical approaches and research methods of social and cognitive psychology can be successfully interwoven to provide insight into one or more fundamental questions about the process of interpersonal communication. The topics under investigation include the nature and role of speaker intentions in the communicative process, the production and comprehension of indirect speech and figurative language, perspective taking and conversational collaboration, and the relationships between language, cognition, culture, and social interaction. The book will be of interest to all those who study interpersonal language use: social and cognitive psychologists, theoretical and applied linguists, and communication researchers.

Doherty,Ralph LaRossa,Walter R. Schumm,Suzanne K. Steinmetz,2008-11-19 *Origins* We call this book on theoretical orientations and

methodological strategies in family studies a sourcebook because it details the social and personal roots i.e. sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F. Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production
