Social And Economic Development A Bahai Approach:

Baha'i Faith: The Basics Christopher Buck, 2020-11-26 Bah Faith The Basics provides a thorough and accessible introduction to a fascinating independent world religion Examining its historical development current community building efforts and the social contributions of the Bah Faith in the world today this introduction covers Beliefs Bah spiritual teachings Principles Bah social teachings History Bah u ll h and his covenant Scripture Bah sacred texts and inspired guidance Institutions The Bah Administrative Order Building community What Bah s do Social action Bah social and economic development projects Public discourse The Bah International Community Vision Foundations for a future golden age With features including a glossary of terms and references to the Bah writings throughout this is the ideal text for students and interested readers wanting to familiarize themselves with the Bah Faith *Education, Learning and the Transformation of Development* Amy Skinner, Matt Baillie Smith, Eleanor Brown, Tobias Troll, 2016-07-15 Whilst education has been widely recognised as a key tool for development this has tended to be limited to the incremental changes that education can bring about within a given development paradigm as opposed to its role in challenging dominant conceptions and practices of development and creating alternatives Through a collection of insightful and provocative chapters this book will examine the role of learning in shaping new discourses and practices of development By drawing on contributions from activists researchers education and development practitioners from around the world this book situates learning within the wider political and cultural economies of development It critically explores if and how learning can shape processes of societal transformation and consequently a new language and practice of development This includes offering critical accounts of popular informal and non formal learning processes as well as the contribution of indigenous knowledges in providing spaces for the co production of knowledge thinking and action on development and in terms of shaping the ways in which citizens engage with and create new understandings of development itself This book makes an important and original contribution by reframing educational practices and processes in relation to broader global struggles for justice voice and development in a rapidly changing development landscape *Engaging East Timorese Men in the Process of Establishing Gender Equality* Melanie Lotfali, 2013-09-18 ABSTRACT The equality of women and men is a prerequisite for peace Social development interventions over recent decades have sought to achieve equality primarily by educating and liberating women from the shackles of customs and paradigms that serve to maintain gender inequality It is increasingly recognized that due attention must be given to men s essential role in the process to men s education and liberation In East Timor the latter process has begun albeit on a small scale This study looks at ways to further advance this process Three and a half years in East Timor provided the opportunity to engage in applied research using the methodology of ethnography I gathered data using three main techniques semi structured interviews with more gender equitable men and with women and men occupied with the engagement of East Timorese men in gender equality observation and direct participation within a wide range of settings

from informal encounters on local beaches to high level meetings with the president and government ministers and analysis of pertinent primary and secondary documents I identified that a number of interventions are being applied to the issue of engaging East Timorese men in gender equality including use of workshops and trainings the performing arts campaigns and the mass media role modeling and the techniques of popular education with varying levels of success I found that the Association of Men Against Violence and its members are key players in the advancement of this process and that they work closely with feminist organizations within East Timor While I drew on much secular theory and practice in the course of this study my personal beliefs and practices are guided by the teachings of the Baha i Faith The Baha i teachings include much that is relevant to this study and thus I have drawn on and presented Baha i perspectives and approaches to such things as equality and men s role in its establishment social and economic development and the culture of contest and have 3 drawn on Baha i principles in the discussion of results and subsequently in drawing my conclusions By exploring the implications of interventions implemented in other parts of the world and of theory pertaining to social development masculinities and a culture of contest I identified that interventions in East Timor to engage men in gender equality would be strengthened by giving due consideration to the following developing participants ability to communicate providing opportunity for and developing the capacity of participants to critically reflect on their environment addressing participants as whole human beings and members of one human race and actively engaging participants in the development and ownership of knowledge I concluded that three areas requiring immediate attention include the development of evaluation tools and processes and the systematic documentation and sharing of learning as well as research into masculinities in an East Timorese context
