Social And Economic Modernization In Eastern Germany From Honecker To Kohl:

Social and Economic Modernization in Eastern Germany from Honecker to Kohl Mike Dennis, 1993 In spite of problems since reunification Germany remains the most important economy in Western Europe and is the lynchpin of European security The East German states must be successfully integrated into the German economy if the country is to remain stable and play its full role within an expanded European Community The failure of the leadership of the ruling Communist Party the SED to undertake a fundamental reform of the economic mechanism and to reshape social policy was a major determinant of the unexpectedly rapid collapse of the East German regime in late 1989 This volume traces the creation of a socialist socio economic order in the late 1940s early 1950s and its modification in the 1960s before embarking on an examination on the Honecker regime s technocratic approach to the social and economic challenges inherent in the scientific technical revolution The book then focuses in detail on eastern Germany s painful transition to a social market economy and concludes on an analysis of the cleavages still separating the two parts of Germany BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

protectionism against countries which will not become its members in the near future The role of the institutional environment shall not be neglected when analyzing the process of transition financial markets e g are of great relevance for sound development An early status of independence for the central bank from public finance obligations appears to help to eliminate the monetary overhang A quick almost instant liberalization strategy countries of Central and Eastern Europe seems to be more successful than gradual liberalization Russia Ukraine Belarus along with interventionism of trade policy InhaltsverzeichnisInhalt B Huber F L Sell Introduction U Blum Greed and Grief in East Germany the Socialist System s Crisis Collapse and Transformation K D Schmidt Transition in Eastern Europe The Integration of Goods and Factor Markets into the World Economy B van Aarle Currency Substitution and Currency Controls the Polish Big Bang of 1990 N Budina S van Wijnbergen Debt Management and Inflation Stabilization in Bulgaria C Fuest B Huber Government Deficits Inflation and Economic Transition J Br cker B Raffelh schen Fiscal aspects of German unification Who is stuck with the bill A Rusek Transition to Markets in CEFTA Countries A Comparative Overview D Gros A Gonciarz Stabilization and Economic Reform in Russia Ukraine and Belarus
