Social And Personality Development By Shaffer 5th Edition:

Social and Personality Development David Reed Shaffer, 2005 The success of this best selling text lies in the author's belief that a good text talks with rather than at its readers Shaffer does an extraordinary job of anticipating students' interests, questions and concerns while treating them as active participants in the process of learning about social and personality development The Fifth edition of SOCIAL AND PERSONALITY DEVELOPMENT features clearly written current coverage of social and personality development that aids students in discovering the causes, processes and complexities that underlie developmental change Students learn why biological and environmental factors, contextual factors such as cross cultural, familial, neighborhood, school and peer group influences cause change in children Shaffer also explores the approaches that researchers use to test their theories and answer important questions about developing children and adolescents This book's effective coverage of field research stands out from other texts not only for its accuracy and currency but because Shaffer consistently juxtaposes classic research with the latest breakthroughs in a way that helps students appreciate how knowledge builds on earlier findings This edition features a much stronger emphasis on cultural influences on development Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version

Tasman's Psychiatry Allan Tasman, Michelle B. Riba, Renato D. Alarcón, César A. Alfonso, Shigenobu Kanba, Dusica Lecic-Tosevski, David M. Ndeti, Chee H. Ng, Thomas G. Schulze, 2024-09-04 Authored by over 500 internationally acclaimed expert editors and chapter authors from around the world Completely updated and expanded with almost 40 new chapters Significantly increased attention to the role of culture in all aspects of evaluation and care New sections on Digital Mental Health Services and Technologies, Treatment Issues in Specific Populations and Settings and on Prevention Systems of Care and Psychosocial Aspects of Treatment address key advances This edition is the first comprehensive reference work to cover the entire field of psychiatry in an updateable format ensuring access to state-of-the-art information Earlier editions were called the best current textbook of psychiatry by the New England Journal of Medicine and the gold standard by the American Journal of Psychiatry Tasman's Psychiatry 5th Edition builds on the initial vision in prior editions of approaching psychiatric evaluation and care from an integrative bio-psycho-social-cultural perspective It is designed to be an essential and accessible reference for readers at any level of experience This editorial approach encompasses the importance of the first encounter between patient and clinician followed by the complex task of beginning to develop a therapeutic relationship and to develop and implement a treatment plan in collaboration with the patient The importance of increasing attention to the role of culture and social determinants of mental health is reflected both in specific chapters and in components of many chapters throughout the book especially in those pertaining to clinical evaluation, the therapeutic alliance and treatment The global scope of this edition is reflected throughout the book including the section on psychiatric disorders where evaluation using both ICD 11 and DSM 5 TR is discussed Most chapters are authored by experts

from at least two different countries or continents adding a critically important dimension which often is missing in major psychiatric textbooks Tasman s Psychiatry 5th Edition is an essential reference for all medical professionals and students who need a trusted reference or learning tool for psychiatry psychology clinical research social work counseling therapy and all others

A Comprehensive Guide to Child Psychotherapy and Counseling Christiane Brems,2008-03-19 Christiane Brems an experienced clinician supervisor and educator presents a metatheoretical yet practical guide to working with children ages 3 to 12 years She draws heavily on developmental interpersonal family systems and self psychological schools of thought and integrates the core components of all of these approaches in a clear and concise manner She stresses the need for intensive assessment to precede conceptualization and treatment planning so that treatment techniques are dictated by the needs of each child and family Brems has contoured the third edition to meet the practical needs and expectations of students and practitioners Divided among four sections the chapters follow the logical development of clinicians mirroring the natural flow of work with children from the practitioners self exploration to learning about special aspects of children such as diversity and development to awareness about the special needs and demands of children as related to environmental legal and ethical issues Brems prepares clinicians to discover their own personal traits that may facilitate or hinder their work with children She walks child therapists and counselors through the initial stages of intake assessment and conceptualization The material on assessment instruments is thoroughly updated discussions refer to the latest versions of instruments and if new instruments emerged that meet one of the purposes deemed essential to child treatment they are included The text contains case examples each illustrating a specific therapeutic technique
