Social Anthropology An Alternative Introduction:

Social Anthropology Angela P. Cheater, 2003-09-02 An introduction to the central concerns of social anthropology presenting an alternative to standard texts More concerned with the life worlds of underdevelopment than the primitive or the exotic it draws on material which evokes current problems of policy and administration in the Third World The author raises questions of vital importance to contemporary investigation and analysis and pointers to the future for anthropology

Social Anthropology E. E. Evans-Pritchard, 1951 Social Anthropology Angela P. Cheater, 2004 **Academic Writing in Context** Martin Hewings, 2006-06-21 This volume explores a number of themes of current interest to those engaged in researching and teaching academic genres the social and cultural context of academic writing differences between the academic and non academic text the analysis of particular text types variation within and across disciplines and applications of theory in the teaching of writing The contributors include many of today's most influential scholars in the area of academic literacy working in a wide variety of tertiary academic contexts in Britain Finland Hong Kong Zimbabwe Australia and the United States The implications will be of relevance to all those engaged in teaching academic writing to both native and non native English speaking students in tertiary education around the world *Decolonising Curricula and Pedagogy in Higher Education* Shannon Morreira, Kathy Luckett, Siseko H. Kumalo, Manjeet Ramgotra, 2021-05-31 This book brings together voices from the Global South and Global North to think through what it means in practice to decolonise contemporary higher education Occasionally a theoretical concept arises in academic debate that cuts across individual disciplines Such concepts which may well have already been in use and debated for some time become suddenly newly and increasingly important at a particular historical juncture Right now debates around decolonisation are on the rise globally as we become increasingly aware that many of the old power imbalances brought into play by colonialism have not gone away in the present The authors in this volume bring theories of decoloniality into conversation with the structural cultural institutional relational and personal logics of curriculum pedagogy and teaching practice What is enabled in practice when academics set out to decolonize their teaching spaces What commonalities and differences are there where academics set out to do so in universities across disparate political and geographical spaces This book explores what is at stake when decolonial work is taken from the level of theory into actual practice The chapters in this book were originally published as a special issue of Third World Thematics **An Introduction to Social Anthropology** Clark Wissler, 1929 **Verbal Art Across Cultures** Hubert Knoblauch, Helga Kotthoff, 2001 *Neo-Liberal Urban Development in Post-Colonial Zimbabwe* Terence Tapiwa Muzorewa, 2025-07-14 This book investigates the role of private land developers in the development of Ruwa Town in post colonial Zimbabwe Whereas other post colonial established towns in the country emerged from direct public investment through the Growth Point policy Ruwa emerged from a public private partnership approach The development of Ruwa Town is therefore a valuable example of a new post colonial experience in urban planning and development which is a

clear departure from the colonial town planning which was premised on racial segregation This book offers unique insights into the historical context the role of private developers in the growth of the city the impact of their involvement bringing a comparative analysis with state led development It offers a valuable contribution to the field of urban studies particularly within the context of urban development in post colonial Zimbabwe and in Africa **The Anthropology of Power** Angela Cheater,2003-12-16 This book uses ethnographic analysis to examine the issues surrounding power and empowerment It presents material drawn from across the world to explore how traditionally disempowered groups gain influence in multicultural settings Shifting Contexts Marilyn Strathern,2012-09-10 To suppose anthropological analysis can shift between global and local perspectives may well imply that the two co exist as broader and narrower horizons or contexts of knowledge The proof for this can be found in ethnographic accounts where contrasts are repeatedly drawn between the encompassing realm and everyday life or in value systems which sumultaneously trivialise and aggrandise or in shifts between what pertains to the general or to the particular
