but what Nietzsche calls a phantom of the ego The Phantom of the Ego opens up a Nietzschean back door to the unconscious that has mimesis rather than dreams as its via regia and argues that the modernist account of the mimetic unconscious makes our understanding of the psyche new **The Psychoanalytic Review** ,1929 **Sociology and Social Research** ,1927 Includes the section Book notes *Naked Liberty and the World of Desire* Simon Casey,2004-06 In this new and original study Simon Casey explores the long neglected link between D H Lawrence and philosophical anarchism Focusing on the writings of some of the major anarchists with particular emphasis on Stirner Godwin Bakunin and Thoreau this book argues that the conceptual parallels between Lawrence and anarchism are strong and extensive and that reading Lawrence within the context of this tradition significantly enhances any understanding of his work Lawrence s faith in the essential decency of human nature his forceful defense of individual liberty and his intolerance of all forms of domination and control all reflect the essential features of anarchism *Naked Liberty and the World of Desire* looks at where these attitudes find explicit articulation in Lawrence s essays poems and letters and shows how they are illustrated in his major works of fiction
