Social Change And The Life Course:

Social Structures and Human Lives Matilda White Riley, Bettina J. Huber, Beth B. Hess, 1988-09 Social Structures and Human Lives consists of papers from the 1986 American Sociological Association annual meeting selected to reflect the rich and diverse array of conceptual methodological and substantive reports presented there Leading academics and researchers in the field offer information about aging over the life course the relationship between aging and the changing structure of families firms state and society as a whole and implications for equality of opportunity for people of differing age gender race and socioeconomic status A final chapter links selected topics from previous chapters to established sociological concerns and clarifies the broad scope of the book s central the **Social Change and the Life Course** Matilda W. Riley, 1988-06

Families, History And Social Change Tamara K Hareven, Barbara Trepagnier, 2018-03-05 One of the prevailing myths about the American family is that there once existed a harmonious family with three generations living together and that this ideal family broke down under the impact of urbanization and industrialization The essays in this volume challenge this myth and provide dramatic revisions of simplistic notions about change in the American family Based on detailed research in a variety of sources including extensive oral history interviews of ordinary people these essays examine major changes in family life dispel myths about the past and offer new directions in research and interpretation The essays cover a wide spectrum of issues and topics ranging from the organization of the family and household to the networks available to children as they grow up to the role of the family in the process of industrialization to the division of labor in the family along gender lines and to the relations between the generations in the later years of life While discussing family relations in the past and revising prevailing notions of social change these interdisciplinary essays also provide important perspectives on the present

Social Change and the Life Course: Sociological lives American Sociological Association. Meeting, 1988 **Social Change and the Life Course** Matilda White Riley, 1988 *Social Dynamics of the Life Course* Walter R. Heinz, Victor W. Marshall, In the last two decades research on the life course has successfully combined and integrated different and rather isolated fields of social concerns such as the labor market family solidarity education employment retirement and social policy It has also developed a special focus on crucial problems of sociological research which includes the understanding of micromacro phenomena the dynamics of social change and international comparisons Contributors to this volume take an international comparative approach in applying the life course theoretical framework to issues of work and career Life course research focuses on the relationship between institutions and individuals across the life span and illuminates the impact of modernization on the shaping of biographies Industrial service societies are characterized by historically new contingencies of living arrangements and biographies These contingencies differ according to the extent to which life course patterns are regulated by social institutions In the continental European context institutional frameworks continue to define the timing and sequencing of transitions across the life course In less regulated market societies like the United States and Great

Britain biographies and living arrangements are shaped more by the interaction of markets social networks and individual decisions In active welfare states institutional resources and rules continue to mediate the effects of social change on the life course What the editors and contributors to this fine compendium anticipate is a change on the cultural level toward more equality This trend supports young people and women in particular in their expectations concerning an egalitarian relationship This expectation is not taken for granted from the point of view of the male partner but has to be negotiated in decisionmaking processes as an issue that concerns the couple as a unit Thus the way in which people interact is profoundly impacted by the values and goals of equity demands Walter R Heinz is professor of sociology and social psychology and director Graduate School of Social Sciences University of Bremen Victor W Marshall is professor of sociology and director of the Institute on Aging University of North Carolina at Chapel Hill Carolina

Social Relations and the Life Course G. Allan, G. Jones, 2016-01-28 This collection of essays represents some of the most important recent research into changing patterns of family household and community life It brings together some of the leading sociologists in the field to explore how these informal social relationships change over time and the life course It will be essential reading on courses concerned with the family and youth sociology

Social Change and Human Development Rainer K Silbereisen, Xinyin Chen, 2010-04-28 Today s world is characterized by a set of overarching trends that often come under the rubric of social change In this innovative volume Rainer K Silbereisen and Xinyin Chen bring together for the first time international experts in the field to examine how changes in our social world impact on our individual development Divided into four parts the book explores the major socio political and technological changes that have taken place around the world from post from the rapid upheavals in 1990s Europe to the gradual changes in parts of East Asia and explains how these developments interplay with human development across the lifespan Human Development and Social Change is a useful resource for students and researchers involved in all areas of human development including developmental psychology sociology and education
