The New Positive Images

David K. Miller

The New Positive Images:

Positive Images Dion Kagan, 2018-04-05 A tidal wave of panic surrounded homosexuality and AIDS in the 1980s and early 1990s the period commonly called The AIDS Crisis With the advent of antiretroviral drugs in the mid 90s however the meaning of an HIV diagnosis radically changed These game changing drugs now enable many people living with HIV to lead a healthy regular life but how has this dramatic shift impacted the representation of gay men and HIV in popular culture Positive Images is the first detailed examination of how the relationship between gay men and HIV has transformed in the past two decades From Queer as Folk to Chemsex The Line of Beauty to The Normal Heart Dion Kagan examines literature film TV documentaries and news coverage from across the English speaking world to unearth the socio cultural foundations underpinning this post crisis period His analyses provide acute insights into the fraught legacies of the AIDS Crisis and its continued presence in the modern queer consciousness

The Positive Image C. Jane Gover, 1988-01-01 The Positive Image tells the largely untold story of women photographers in turn of the century America Women like Gertrude Kasebier Frances Benjamin Johnston Alice Austen Catherine Weed Ward and Eva Watson Schatz were among thousands of women who as professional and amateur photographers sought personal artistic and professional fulfillment while still connected to the traditional domestic environment These women created a positive experience for themselves in photography through an identifiable female network of women photographers through membership in camera clubs and in many cases through their association with photography great Alfred Stieglitz Theirs became an alliance between women art culture and technology in a time of intense social change in the United States

The Positive Image of the Jew in the 'comedia' Andrew Herskovits, 2005 Argues contrary to most scholarly opinion that while on the explicit level they are anti Jewish in a covert manner the dramatic works of the Spanish Golden Age present a positive image of the Jews Works by Rojas Cervantes and especially Lope de Vega are shown to have used coded writing and techniques of dissimulation to subvert the dominant anti Jewish ideology of the day embodied in the actions of the Inquisition and in the limpieza de sangre statutes A reason for the indirect approach was that the writers who were influenced by Christian Humanism rather than by any putative Converso origin themselves sought to escape interrogation by the Inquisition One technique used was to replace the Converso by the figure of a persecuted woman or by a biblical legendary or foreign Jew Defending the Jews was an aspect of espousal of justice for all

Africa's Media Image in the 21st Century
 Mel Bunce, Suzanne Franks, Chris Paterson, 2016-07-01
 Africa's Media Image in the 21st Century is the first book in over twenty years to examine the international media's coverage of sub-Saharan Africa. It brings together leading researchers and prominent journalists to explore representation of the continent and the production of that image especially by international news media. The book highlights factors that have transformed the global media system changing whose perspectives are told and the forms of media that empower new voices. Case studies consider questions such as how has new media changed whose views are represented? Does Chinese or diaspora media offer alternative perspectives for viewing the continent? How do foreign correspondents interact with their audiences in a social media age? What is the contemporary role of charity groups and PR firms in shaping news content? They also examine how recent high profile events and issues have been covered by the international media from the Ebola crisis and Boko Haram to debates surrounding the Africa Rising narrative and neo-imperialism. The book makes a substantial contribution by moving the academic discussion beyond the traditional critiques of journalistic stereotyping, Afro-pessimism and darkest Africa news coverage. It explores the news outlets, international power dynamics and technologies that shape and reshape the contemporary image of Africa and Africans in journalism and global culture.
