The Long Night of Dark Intent Irving Horowitz, 2017-07-05 The Cuban Revolution of 1959 was a benchmark of triumph and a harbinger of tragedy to come Rather than herald a new era of Cuba joining the world community of nations as a paragon of democracy as many fervently hoped and believed it would it became instead a new stage in authoritarian rule in the Western hemisphere For more than a half century since then Cuba has been defined by the capacity of a single family to command and determine the fate of a nation and to do so with a minimum of opposition Incredibly even those professing adherence to democratic norms have been ready to forgive the dictator his excesses This volume explains the theory and practice of this absence of internal opposition and the persistence of external support for the Castro family and its entourage The Long Night of Dark Intent is chronological in order with the author indicating major points in each of the five decades covered The volume covers five centers of system analysis economics politics society military and ideology Who or what determines events and decisions is the stuff of real history It is precisely due to variability in causal chains in society that we have huge variance in levels of predictability The course of the Cuban Revolution gives strong support for such an approach to the Castro Era This is a unique unflinching account with a strong emphasis on the importance of U S policy decisions over time

Hegemony. International Political Economy and Post-Communist Russia Owen Worth, 2017-07-05 This illuminating book explores the neo Gramscian school of international political economy and their conceptualization of global hegemony and furthers these by looking at how the often fragmented society of post Communist Russia can provide insight into the nature and workings of neo liberal global hegemony The volume illustrates how historically Russia has been a unique case in rejecting Western inspired hegemonic projects It outlines how successive governments since the fall of the Soviet Union have attempted often unsuccessfully to integrate Russia into the global economy and identifies the multitude of ideological contestation within Russia It will prove a useful addition to the literature on both post Communist Russian studies and international political economy

Corporations and International Lawmaking Stephen Tully,2007-11-30 The classical model of international lawmaking posits governments as exclusively authoritative actors However commercially oriented entities have long been protagonists within the prevailing international legal order concluding contracts and resolving disputes with governments Is the international legal personality of corporations undergoing further qualitative transformations Corporations influence the State practice constitutive of custom and create refashion or challenge normative rules The corporate willingness to fill legal lacunae where governments do not exercise their full regulatory responsibility is also observable through resort to alternative legal mechanisms Corporations moreover contribute directly to treaty negotiations and occupy crucial roles during subsequent implementation Indeed an analysis of the access conditions and participatory modalities for non State actors could support a right to participate under common international procedural law Their substantive contributions are also evident when corporations participate in enforcing international law against governments through national courts diplomatic protection including the WTO and arbitration including NAFTA However the practice of intergovernmental organizations reveals several challenges including managing corporate interaction with developing country governments and other non State actors Acknowledging corporate contributions also has important implications for national regulatory autonomy the ability of governments to mediate contested policy issues the democratic legitimacy of the contemporary lawmaking process and an understanding of consent as the underlying basis for international law
