Paul Auster's "The New York Trilogy" as Postmodern Detective Fiction Matthias Kugler, 1999-10-28 Inhaltsangabe Abstract Paul Auster s New York Trilogy published in one volume for the first time in England in 1988 and in the U S in 1990 has been widely categorised as detective fiction among literary scholars and critics There is however a striking diversity and lack of consensus regarding the classification of the trilogy within the existing genre forms of the detective novel Among others Auster s stories are described as meta-anti detective fiction mysteries about mysteries a strangely humorous working of the detective novel very soft boiled a metamystery glassy little jigsaws a mixture between the detective story and the nouveau roman a metaphysical detective story a deconstruction of the detective novel anti-detective fiction a late example of the anti detective genre and being related to hard boiled novels by authors like Hammett and Chandler Such a striking lack of agreement within the secondary literature has inspired me to write this paper It does not however elaborate further on this diversity of viewpoints although they all seem to have a certain validity and underline the richness and diversity of Auster s detective trilogy neither do I intend to coin a new term for Auster s detective fiction I would rather place The New York Trilogy within a more general and open literary form namely postmodern detective fiction This classifies Paul Auster as an American writer who is part of the generation that immediately followed the classical literary movement of American postmodernism of the 60s and 70s His writing demonstrates that he has been influenced by the revolutionary and innovative postmodern concepts characterised by the notion of anything goes on a planet of multiplicity as well as by French poststructuralism He may however be distinguished from a traditional postmodern writer through a certain coherence in the narrative discourse a neo-realistic approach and by showing a certain responsibility for social and moral aspects going beyond mere metafictional and subversive elements Many of the ideas of postmodernism were formulated in theoretical literary texts of the 60s and 70s and based on formal experiments include the attempt of subverting the ability of language to refer truthfully to the world and a radical turning away from coherent narrative discourse and plot These ideas seem to have been internalized by the new generation of postmodern writers of the 80s to such

Detecting Texts Patricia Merivale, Susan Elizabeth Sweeney, 2011-06-07 Although readers of detective fiction ordinarily expect to learn the mystery's solution at the end there is another kind of detective story the history of which encompasses writers as diverse as Poe Borges Robbe Grillet Auster and Stephen King that ends with a question rather than an answer The detective not only fails to solve the crime but also confronts insoluble mysteries of interpretation and identity As the contributors to Detecting Texts contend such stories belong to a distinct genre the metaphysical detective story in which the detective hero's inability to interpret the mystery inevitably casts doubt on the reader's similar attempt to make sense of the text and the world Detecting Texts includes an introduction by the editors that defines the metaphysical detective story and traces its history from Poe's classic tales to today's postmodernist experiments In addition to the editors contributors include
