[Globally Competent Governance](#) Michael Guo-Brennan, 2024-08-01

Globally Competent Governance explores promising policies and practices developed by local governments and other community leaders across the United States and beyond in their efforts to build welcoming and inclusive communities and globally competent governments. Cities of the future, be they large regional metropolitan centers of commerce and political power, regional hubs that service central metropolitan regions or smaller suburban or rural centers that cater to agriculture or regional commerce, will continue to evolve. Globalization and global mobility have greatly increased the cultural, ethnic, linguistic and religious diversity in cities and communities around the globe and demand local governments build welcoming and inclusive communities for all.

residents particularly newcomers Leaders both in and out of government must be prepared to respond to changing needs and manage any potential challenges this may create To better understand what local officials are facing and what they are doing to manage change the author presents data collected through surveys and individual interviews of local officials and other community influencers Based on these findings the book analyzes the current state of cities and makes policy recommendations for moving forward This book will be of interest to advanced undergraduate and postgraduate students researchers and academics in the fields of public policy governance immigration community engagement social welfare and political science as well as professionals in government and nongovernmental organizations It will also interest professionals working with immigrants and in immigration policy The Internet Election Andrew Paul Williams, John C.

The Encyclopædia Britannica Hugh Chisholm, James Louis Garvin, 1926

Migration in China and Asia Jijiao Zhang, Howard Duncan, 2014-04-08 This book will enlarge our grasp of global migration phenomena offering insights into the fascinating at times startling realities of human migration in Asia The chapters presented in this volume offer variety in not only theme but in approach to migration

in Southeast and East Asia Particularly welcome for a volume on migration studies a discipline that has long been dominated by economists sociologists and geographers are the chapters that approach the subject from an anthropological or ethnological perspective These chapters bring to our attention details of the lives of migrants and their communities that are often lost in studies of migration statistics the economic aspects of migration or aspects of urban geography with which we have become more familiar Some chapters are more theoretical in nature and herein lie some of the most important reasons for studying migration involving Asian countries migration studies have until relatively recently developed their theoretical insights on the basis of European migration to North America Asian migration offers new theoretical challenges to migration scholars its dynamism is such that predictions of what is to come are not for the risk averse The empirical studies here provide fascinating details of the strategies used by asylum seekers of marriage migration of the role of homeland languages in education of the workings of ethnic entrepreneurs of the media s role in sustaining Chinese communities and on the incentive structures that are helping to shape return flows to China For readers who are from Asian countries this book will illuminate the changes that are taking place in your region as a result of migration For readers from developed and other societies it will provide new insights into migration involving this understudied part of the world an area that supplies the lion s share of immigrants to developed economies and the area whose rapid economic development will soon make it their greatest competition for migrants especially the highly skilled
