The Nobel Prize Peter Wilhelm, 1983 The World's Most Prestigious Prize Geir Lundestad, 2019-09-12 The World s

Most Prestigious Prize The Inside Story of the Nobel Peace Prize is a fascinating insider account of the Nobel peace prize Drawing on unprecedented access to the Norwegian Nobel Institute s vast archive it offers a gripping account of the founding of the prize as well as its highs and lows triumphs and disasters over the last one hundred and twenty years But more than that the book also draws on the author s unique insight during his twenty five years as Director of the Norwegian Nobel Institute and Secretary of the Norwegian Nobel Committee It reveals the real story of all the laureates of that period some of them among the most controversial in the history of the prize Gorbachev Arafat Peres and Rabin Mandela and De Klerk Obama and Liu Xiaobo and exactly why they came to receive the prize Despite all that has been written about the Nobel Peace Prize this is the first ever account written by a prominent insider in the Nobel system The Nobel Prize Agneta Wallin Levinovitz,Nils Ringertz,2001-01-01 The Nobel Prize as founded in Alfred Nobel s will was the first truly international prize There is no other award with the same global scope and mission The Nobel Prizes in Physics Chemistry Physiology or Medicine Literature Peace and the Bank of Sweden Prize in Economic Sciences from 1969 have not only captured the most significant contributions to the progress of mankind they also constitute distinct markers of the major trends in their respective areas The main reason for the prestige of the Prize today is however the lasting importance of the names on the list of Laureates and their contributions to human development In celebration of the centennial of the Nobel Prize in 2001 this book offers a clear perspective on the development of human civilization over the past hundred years The book serves to present the major trends and developments and also provide information about the life and philosophy of Alfred Nobel the history of the Nobel Foundation and the procedure for nominating and selecting Nobel Laureates The Nobel Prize Winners: 1901-1937 Frank Northen Magill,1989 The Nobel Peace Prize Ivar Libæk,Øivind Stenersen,Asle Sveen,2012-06-16 THE NOBEL PEACE PRIZE was founded by the Swedish inventor and industrialist Alfred Bernhard Nobel 1833 1896 The prize has been awarded by the Norwegian Nobel Committee since 1901 and is regarded as the world s most prestigious award NORWEGIAN HERITAGE is a series of books about our most important and best known national icons The respective titles introduce major personalities from the worlds of art and literature science and sports but also the many natural wonders of the country as well as significant historical periods and cultural expressions Each book offers an updated introduction to readers who wish to familiarize themselves with a given subject Peace, They Say Jay Nordlinger,2012 In this book Jay Nordlinger gives a history of what the subtitle calls the most famous and controversial prize in the world The Nobel Peace Prize like the other Nobel prizes began in 1901 So we have a neat sweeping history of the 20th century and about a decade beyond The Nobel prize involves a first world war a second world war a cold war a terror war and more It contends with many of the key issues of modern times and of life itself It also presents a parade of interesting people more than a hundred laureates not a dullard in the bunch Some of these laureates have been historic statesmen such as Roosevelt Teddy and Mandela Some have been heroes or saints such as Martin Luther King and Mother Teresa Some belong in other

categories where would you place Arafat Controversies also swirl around the awards to Kissinger Gorbachev Gore and Obama to name just a handful Probably no figure in this book is more interesting than a non laureate Alfred Nobel the Swedish scientist and entrepreneur who started the prizes The book also addresses missing laureates people who did not win the peace prize but might have or should have Gandhi Peace They Say is enlightening and enriching and sometimes even fun It has its opinions but it also provides what is necessary for readers to form their own opinions What is peace anyway All these people who have been crowned champions of peace and the world s foremost should they have been Such is the stuff this book is made on

Nobel Prizes and Life Sciences Erling Norrby, 2010 The Nobel Prizes in natural sciences have achieved the reputation of being the ultimate accolade for scientific achievements This book gives a unique insight into the selection of Nobel Prize recipients in particular the life sciences The evolving mechanisms of selection of prize recipients are illustrated by reference to archives which have remained secret for 1 year Many of the prizes subjected to particular evaluation concern awards given for discoveries in the field of infectious diseases and the interconnected field of genetics The book illustrates the individuals and environments that are conducive to scientific creativity Nowhere is this enigmatic activity the mime mover in advancing the human condition highlighted as lucidly as by identification individuals worthy of Nobel Prizes Book Jacket
